### WILL BENEFIT

#### BAPTIST MISSIONARY FAVORS REVOLUTION

Rev. J. C. Owen Speaks on the Chinese Situation, and Its Effects

Strong sympathy with the revolutionists in China was expressed by Rev. J. C. Owen, who with his wife and four children are returning from their mission under the auspices of the Southern Baptist church of the United States at Pingtung, in the province of Shan-tung, China.

They returned by the Tamsui Maru, which arrived at the outer wharf to-day, and will proceed to Seattle, where they expect to stay some time before visiting Mr. Owen's native state of North Carolina. Of course much has happened since Mr. Owen left his station over a month ago to take ship at Shanghai for Japanese ports, and he was a witness for the recent operations in the disaffected provinces, where the revolutionary party had made great headway in the past four or five weeks.

While regretting the cost of lives, and the inevitable disorganization of society which will result from the revolution, Mr. Owen said: "I am sure that the outcome will result in better conditions for the missionaries, and the displacement of the Manchurian reactionaries will mean a chance for the development of the Celestial Empire along better and more modern lines. My fellow missionaries are equally favorable to the change, and we believe more efficient Christian work can be done if the new reform party is able to secure its position in the country. When I left my mission there were reports of great losses in the central provinces of China, the area principally concerned in the revolution, and it is to be feared that there will be terrible hardship among the poorer inhabitants of the districts in the basin of the Yangtze Kiang, when the empire begins to assume a settled condition again."

The missionary was surprised at a number of the developments in the crisis since he was last in touch with public affairs, and looked to the formation of a dictatorship by Yuan Shi Kai, who has frequently been pressed to accept the premiership, as a possible issue of the trouble.

As one who knew Admiral Sah Chen Ping, he was not surprised to hear of the desertions at Shanghai, and doubt of the loyalty of the fleet to the Manchurian dynasty. The objection of the people to their conquerors was widespread and only required an occasion like the present to fan the embers of sedition into a flame of rebellion.

He did not think there was any fear of a repetition of the direful results to the missionaries which followed the Boxer outbreak, and so long as the acts of the revolutionaries were directed by their present leaders, there was little danger for the lives of the missionaries in the provinces occupied by the rebels. An unusual incident he told a Times representative marked his own departure from Ping-tu, as the local landowner sent over a representative to bid him farewell when he came away, an uncommon honor for the white missionaries to receive from a class which are not particularly friendly to them.

#### POISONING MYSTERY.

Chicago, Nov. 9.—Coroner Hoffman prepared to-day to take another body from the grave for the purpose of adding to the chain of evidence against Mrs. Louise Vermilya, now held in the county jail, charged with the murder of Arthur Bismeyer.

The grave, which will be opened, is that of Charles Vermilya, second husband of the accused woman. Coroner Hoffman and two detectives went to Crystal lake for the purpose of exhuming the body and to make inquiry regarding the courtship of Louise Vermilya and her husband and facts connected with the death of Mr. Vermilya. Mrs. Vermilya, who suffered a relapse yesterday, was resting comfortably to-day.

#### RACES IN ENGLAND.

Liverpool, Nov. 9.—The Witherslack plate of 150 sovereigns for two-year-olds, a distance of five furlongs, was won to-day by Charles Carroll's Miss Malaprop. Sunny Lass was second and Witty Girl third. Nine horses started. The Stewards' plate, a handicap of 350 sovereigns, for three-year-olds and upwards, distance six furlongs, was won by J. R. Keene's Bannymede. Levolt was second and Grammont third. Fourteen ran.

#### BRITISH IMMIGRANTS.

Halifax, N. S., Nov. 9.—Plans for the transportation of a large number of British immigrants under the direction of the Salvation Army have been perfected. Staff-Captain Jennings, in charge of the army immigration work in the maritime provinces, leaves next week for England where he will remain three months selecting farmers for the maritime provinces.

## WILL SOON START

### WORK ON ISLAND

#### LUMBER COMPANY TO ESTABLISH CAMPS

Sawmill Will Be Erected at Osborne Bay—Millions to Be Invested

Vancouver, Nov. 9.—Next year will witness the initiation of logging operations on the fifty thousand acre tract in Cowichan Lake district, Vancouver Island, acquired from the E. & N. railway, two years ago by the American Finance and Securities Co., of New York.

E. B. Kurtz, president of the company, after a visit to the limits, has arrived in town on business with R. Marpole, general executive of the C. P. R.

Ownership of the vast tract is now vested in the Empire Lumber Company, a subsidiary corporation with a capitalization of \$7,500,000. Mr. Kurtz, who is a prominent figure in New York financial circles, stated yesterday that with the completion of the Cowichan Lake branch of the E. & N. railway, the Empire Lumber Co. proposes to build standard gauge logging railways through the limits. Logging camps will be established at various points and the output sold in the open market for the first year pending the construction of a sawmill at Osborne Bay on the east coast of Vancouver Island. This plant will be built on the unit plan, it being the intention to ultimately increase its capacity to a total of 100,000,000 feet a year. The logs will be shipped to tidewater over the E. & N. branch now under construction and a spur several miles long will have to be built to furnish connection with the proposed mill.

Mr. Kurtz added that he felt confident the company had secured one of the best tracts on the island. The timber consists principally of fir, expert cruisers estimating that the yield would amount to the phenomenal figure of 90,000 feet per acre. Mr. Kurtz was met here by W. E. Walsh, president of the Empire Lumber Co. Mr. Walsh has been identified with the lumber industry all his life. He will leave shortly on a trip to the limits. Mr. Kurtz stated that their investment on Vancouver Island would ultimately run into a good many million dollars; so large indeed that he did not care to give the figures.

Both visitors were agreed that the opening of the Panama Canal will have a very stimulating effect on the British Columbia lumber industry, giving operators access on favorable terms to big markets all along the Atlantic coast of the North American and South American continents as well as Europe.

#### WORK ON THE MAINE.

Two More Bodies Found in Wreckage on United States Warship.

Havana, Nov. 9.—It is officially announced that the work of exposing the wreck on the Maine, so far as the parts immediately affected by the explosion are concerned, from about amidships to the bow, will be completed by November 20. Two more bodies, one in the engine room and one in the boiler room, were recovered yesterday, making a total of forty-three found since the present operations began. Twenty-four men are still unaccounted for.

#### INTER-PROVINCIAL RELATIONS.

Nelson, Nov. 9.—Closer inter-provincial relations between British Columbia and the prairie provinces, Canadian contribution to the Imperial navy in contrast to the present system of detached cruisers and tightening of the bonds of the Empire were advocated by Premier Roblin of Manitoba, at the Canadian Club luncheon here yesterday.

With the party which has been inspecting the Slocan mining district, the premier leaves to-day for Winnipeg.

#### STORM IN KOOTENAY.

Nelson, Nov. 8.—Old timers in Kootenay and pioneer steamboat men declare that last night's storm is the shipping on the Kootenay lake and West Arm is tied up by the gale. Smaller steamers are compelled to remain in shelter of the shore.

Telegraph wires are down in all directions. In Nelson the blizzard played havoc with the street lights, many being smashed, while debris of various kinds littered the streets.

#### VIOLATED ACT.

Vancouver, Nov. 9.—Two Chinamen were recently fined \$10 and costs by Magistrate Shaw for violating the act regarding the sale and inspection of fruit. They had been offering for sale boxes of apples, on which the names of growers, and the variety and grade of the apples were not marked plainly and indelibly according to the provisions of the act. The informations were laid by D. M. Robertson, Dominion fruit inspector.

## REGINA SCENE OF

### DESTRUCTIVE FIRE

#### Thresher and Engine Company's Warehouse Destroyed—Loss Placed at \$160,000

Regina, Sask., Nov. 9.—One hundred and sixty thousand dollars is the estimated damage done by fire which last night gutted the large warehouse of the American Thresher & Engine Co. The fire had apparently been going on for some time when it was discovered before 3 o'clock, as the whole building was practically enveloped when the brigade reached the scene. Their efforts were directed towards saving adjoining houses on either side of the doomed property. The contents of the building were destroyed, including a large number of separators, engines and repairs, the estimated damage being distributed as follows: Buildings, \$10,000; separators and engines, \$30,000; repairs, \$100,000. The wind fortunately assisted the fire brigade, blowing the flames away from adjacent buildings. The efforts of the firemen aided by good water pressure were successful in keeping the fire from spreading. The origin of the fire is unknown, but is believed to have started in the office.

## LARGE ARMY AT

### WORK ON RAILWAYS

#### OVER 16,000 EMPLOYED BY CANADIAN NORTHERN

Operations on Tunnels in B. C. Will Be Continued Throughout Cold Weather

Toronto, Nov. 9.—Reports just compiled at the head office of the Canadian Northern railway show that 985 miles of new track out of a building programme comprising 1,982 miles had been completed in Alberta and Saskatchewan on September 30, and it was expected that at least 100 miles in addition would be constructed before work was stopped by winter.

On the new line from Edmonton to Calgary grading is now finished for the entire distance of 253 miles. It is likely rails will be laid into Calgary early next year. The site for the Calgary passenger station has been cleared.

On the main line westward from Edmonton, 62 miles of grading has been done from the present terminus reaching to Pemina river and the tracks will be in position before January.

An important piece of work on the Pacific division of the Canadian Northern is from Spokane's Branch to Wapahatchin, between Lytton and Ashcroft stations, British Columbia. On this three miles there are four tunnels of 1,500, 1,000, 500 and 600 feet to be bored. About 1,000 men are now working on the tunnels and the boring is to continue throughout the cold weather.

At present 15,688 men are employed in construction work on various divisions, the largest parties being in British Columbia, where 3,900 men are at work and on the Port Arthur to Sellywood line in Ontario, where 3,200 are building the new road.

## TO STRENGTHEN

### ITALIANS' POSITION

#### Commander Says the Present Movement is to Clear Out- skirts of Tripoli

Tripoli, Nov. 9.—General Caneva stated to-day that the forward movement which has just commenced, is a simple police measure to clear the outskirts of the city and strengthen the position of the Italian troops. He will confine the advance, he says, to the limits of the oasis of Zaza which is the rallying point and supply centre of the Turks and Arabs.

During the winter, General Caneva added, he would prepare an expedition for the interior which probably will be ready to start in the spring.

#### THREE LIVES LOST.

Explosion of Oil Can Supposed to Have Started Fire Which Destroyed House.

Sioux City, Ia., Nov. 9.—Mrs. John Davis, aged 25, wife of a farmer living thirteen miles south of here, their three-month-old baby and Miss Lucy Hodges, aged 62, an aunt, were burned to death in a fire which destroyed their home to-day. The explosion of an oil can is supposed to have caused the fire.

## DAY WAS REFUSED

### LEAVE TO APPEAL

#### DECISION GIVEN BY APPEAL COURT

Nothing Found to Warrant an Order for Stated Case

Vancouver, Nov. 9.—With the exception of the list of judgments handed down by the court of appeals at the opening of its present session, only two cases have been dealt with so far. These are the appeals made in the cases of Rex vs. Day and Greenwood vs. Bancroft. In the first named case, the appeal was dismissed and in the latter case judgment was reserved.

Rex vs. Day was the first case set down for hearing and has occupied the attention of the court for nearly two days. John Day was found guilty on September 18 last, of receiving goods stolen from the navy yard at Esquimalt and sentenced to 18 months imprisonment.

Mr. S. Henderson and Mr. Maclean, K. C., who appeared in behalf of the appeal, had their case on the claim that Day had not been properly elected for trial and also that before his trial he elected for a jury instead of a speedy trial.

Another point raised by the applicants was that Day should have been tried by the court-martial and not by a civil court. On these points a motion for the order directing the court judge to state a case for the opinion of the court of appeal was laid before the court.

The court of appeals, however, decided that leave to appeal should be refused. The judgment handed down stated that no case had been made out by which the court would be satisfied in ordering the trial judge to state a case.

"This application has been argued very fully; in fact we have permitted counsel to argue it very exhaustively," stated the judgment, "to see if it was possible to ascertain anything which would justify the granting of an order for a stated case. But it is perfectly clear on the uncontradicted evidence that there is no case. In other words, that it would be hopeless for the prisoner to expect to succeed on a stated case. The motion is therefore dismissed."

## INVESTIGATING

### MURDER MYSTERY

#### ANOTHER CASE ENGAGES ATTENTION OF POLICE

Widow Declares Two of Her Husbands Were Killed by Burglars

Chicago, Nov. 9.—Discoveries made by detectives investigating the death of John M. Quinn in his home here last Saturday morning led them to believe that they have encountered a murder mystery similar in its essential aspects to the Vermilya case, except that a pistol instead of poison is alleged to have been used in taking human life.

When the police arrived Quinn told them and Dr. Fred A. Borad, who also was summoned, that he had been shot as he lay asleep, but did not know by whom.

Mrs. Quinn declared her husband had been shot by a burglar, according to the detective. She was asked many questions, and it is said, made unsatisfactory answers to many of them. She finally was taken into custody and held as suspect.

Examination of Mrs. Quinn the following day led to her being asked to reveal her past life. She did this, but according to the police told of her first marriage to a man named McDonald, and neglected to tell them of her second marriage to Warren Thorpe, in Jackson, Mich. This fact led the police to Jackson, where they learned that Thorpe had been shot and killed while asleep in bed. They learned also that his mother, who lived with him, had died under circumstances that never have been explained.

In the Thorpe death the police declare they have learned that Mrs. Thorpe, now Mrs. Quinn, insisted that her husband had been shot to death by burglars. As in the case of Quinn's death, she says she was awakened in the night by a pistol shot and that she found her husband mortally wounded by her side. Mrs. Thorpe was arrested at the time by the Jackson police, the Chicago detectives say, but they were never able to clear up the mystery, and she was finally set free.

#### TWO PERISH IN FIRE.

Winnipeg, Nov. 9.—Ten thousand dollars worth of diamonds, embedded in a mass of melted gold, silver and platinum was found in the ruins of a fire which destroyed a house in the segregated district and resulted in the death of two inmates here last night.

## WRITS FOR ONTARIO

### GENERAL ELECTION

#### Will Be Issued on November 17—Premier to Open Cam- paign Next Week

Toronto, Nov. 9.—Sir James Whitney announced yesterday that the writs for the general election will be issued on November 17. This will be four days later than was intended, but the date was set back in order to allow of the completion of the election law.

Sir James has not stated when the proclamation of dissolution will be issued. On Monday he intimated that it would come within a few days and it is probable that it will be some time before the issuing of the writs, otherwise the manhood registration and the hearing of appeals would run close to nomination day which will be on December 4. Sir James had been busy to study the document closely. He will probably issue a statement to-morrow. Sir James will open his campaign next week, but his programme of meetings has not yet been prepared.

#### Member Renominated.

Sherbourne, Ont., Nov. 9.—Dufferin Conservatives have renominated C. R. McKeon, K.C., M.P., for the legislature. Seven other nominees withdrew.

## COLD WEATHER

### ON PRAIRIES

#### MUCH WHEAT STILL TO BE THRESHED

Work Well Advanced in Manitoba Where Harvest Was Comparatively Early

Winnipeg, Nov. 9.—A general lowering of temperatures, accompanied by snowfalls of from three to five inches gave promise yesterday of the opening of the winter in the west. The temperature hovered around zero in most places in Saskatchewan and Alberta, but in Manitoba the cold was not so pronounced, the snow melting immediately after falling.

The unfavorable weather conditions have had a depressing effect in the farming communities of the farther west owing to the fact that the late harvest and inclement weather of the fall have left much threshing still undone. In the majority of places in Saskatchewan and Alberta there is full 50 per cent of the crop still in the stack, while at McLeod 65 per cent of the grain yield is still to be threshed. Even in places where the snowfall is but light threshing is much delayed, outfits experiencing much trouble in handling the damp sheaves.

Manitoba is in a more favorable condition owing to the fact that harvesting was accomplished earlier than in the sister provinces and consequently threshing is far advanced. Some of the elevator companies doing business in the province report that up to date they handled as much grain as in the whole of last season.

## NORWAY AND SWEDEN

### SEEK PRIVILEGES

#### Want Same Treatment From U. S. as Accorded to Canada

Washington, D. C., Nov. 9.—Norway and Sweden, through their diplomatic representatives here, have requested the United States to grant to them, under the favored-nation clause of their treaties, the same privileges as Canada, by section 2 of the reciprocity agreement, by which wool-pulp and print paper are admitted free of duty into the United States.

Several other countries, including Germany, is believed have asked the same privilege from the United States. Their requests have been placed formally before the state department.

There is some question whether wool pulp and print paper can be admitted free from other countries than Canada, under the favored-nation clause of the existing treaties between the United States and those countries.

Under section two of the Canadian reciprocity agreement, print paper and wool pulp were given free entry to the United States. This section of the bill became effective July 1 last.

#### SUCCESSORS TO INJURIES.

Oconomowoc, Wis., Nov. 9.—Thomas Higgins, aged 14, died here yesterday from a fractured skull sustained in the death of two inmates here last night.

## CANTON HAS DECLARED

### ITS INDEPENDENCE

#### Largest City in China Throws in Lot With Revolutionists—Thousand Rebels Killed and Wounded at Nanking.

Hongkong, Nov. 9.—Canton, the capital of Kwang Tung province, and the largest city in China, formally declared its independence at noon to-day when the dragon flag was lowered and a salute in honor of the new government was fired.

The British torpedo boat destroyer Handy is proceeding to Canton. The Amoy at the request of the banks, while the Sandpiper has gone to Kong Loon at the consul's request.

The rebels captured Nanshan in the Human district without bloodshed and signalled their victory by releasing all the prisoners who had been confined there.

#### Marines Landed.

Shanghai, Nov. 9.—Nanking, in the south and Peking in the north, appear to-night to be the remaining strongholds of the Manchus. Up to the present, foreigners are safe.

Foo Chow, the capital of Fo Kien province, was turned over to the rebels to-day after little resistance. Wu Hu is likely to capitulate to-night.

The Manchus are still holding Nanking but are outnumbered four to one by the rebels who are awaiting supplies of ammunition before resuming the attack. The latter lost heavily yesterday without greatly damaging the enemy and to-day suspended operations.

The Americans, Germans and British have landed marines to protect the consulates where the foreigners have gathered.

In Shanghai the situation becomes increasingly serious. The Imperial government has absolutely disappeared and the foreign consuls are unable to recognize the self-constituted government which, however, is maintaining order, except across the river where the British warehouses are situated. These were looted to-day. The local police fled on the appearance of the rioters.

The consular body met to-day and considered the idea of sending marines, but decided that this step would be unnecessary at present. They announced that the foreign settlement has prepared for self-defence, and that the rebels must maintain order in the neighboring district, otherwise foreigners must interfere.

The rebels hold the telegraph offices in the lower Yangtze and some of these offices have been closed. Their managers have abandoned, taking with them what cash they had on hand. The government is reported to be without funds.

#### Threaten to Take Tien Tsin.

London, Nov. 9.—A dispatch from Tien Tsin says that the rebels posted manifestos throughout the city this morning, declaring their intention of seizing Tien Tsin to-day. They called on all sympathizers to wear the white arm band of the revolutionary movement.

The viceroy is still obstinate. The French consul endeavored, without success, to persuade him to leave his yamen, which he has surrounded with his guards. It is feared that desperate fighting will occur at this point.

The latest advice from Peking says the situation is quiet there. Refugees are still pouring out of the gates. A cable from Niu Chwang, the chief port of Manchuria, predicts an uprising in Mukden shortly.

A dispatch to the Daily Times from Peking says that Sir John Jordan, the British minister, has visited Prince Ching and warned him most seriously that any repetition of "Boxerism" in the capital would bring punishment.

The Daily Mail's correspondent says that gold bars to the value of \$30,000,000 have been removed from the palace and deposited in the Hongkong and Shanghai Bank.

#### Fu Chow Taken.

Amoy, Nov. 9.—The city of Fu Chow is to-day in the hands of the rebels. After taking it they wiped out the entire Manchurian district.

The foreign settlements have not been disturbed, but fires have broken out in several sections of the native city.

Fu Chow is one of the most important cities in the south, having a population of 700,000. It is the seat of a naval arsenal, government shipyards, a mint, a school of navigation and a large dry-dock.

#### Two Leaders Murdered.

Chang Sha, Province of Hunan, Nov. 1.—Via Shanghai, Nov. 9.—A condition bordering on anarchy exists here owing to the desperate rivalry of the revolutionary leaders, who took possession of the city a few days ago.

The two most prominent republican chieftains, Gen. Chiao and Gen. Tseng, were murdered by soldiers to-day. They had been very jealous of each other's position and the quarrel had been taken up by their followers.

In an effort to control the situation, Tan Sung, the republican governor, has been proclaimed dictator. But he is a scholar and not a leader, and it is reported that he is anxious to escape the responsibility. His family has left Chang Sha, and some of the members of the provincial cabinet, including the head of the customs and the foreign minister, have fled.

Rioting and indiscriminate fighting

are feared, and the people are streaming to the country districts.

Foreign women and children have been ordered to leave Slang Tan, and a similar order has been sent to Chang Te.

Other important cities in this province have joined the revolutionists. In all the rebels are conducting the government peacefully. The population is quiet to-day, but a serious state of affairs is threatened owing to the scarcity of provisions. Most of the city supply junkies were captured by pirates in a spectacular raid yesterday, the entire crew of one ship being massacred.

The American cruiser Albany arrived here to-day with a Japanese destroyer.

A revolt of troops in the village of Anhal, 50 miles north of this city, is causing trouble here. The soldiers have burned the magistrate's yamen and the provincial customs house.

#### Excitement at Capital.

Peking, Nov. 9.—8:45 p. m.—The excitement is growing here. The residents of the forbidden city are taking in great quantities of rice, and other stores.

Fifteen hundred infantry and cavalry of the Manchurian first division, who fled from Shi Kia Chuang after the assassination of General Wu Tu Cheng, arrived here to-day, and entered the city.

The legations consider that all hope for the Manchurian dynasty has vanished.

#### Tien Tsin Quiet.

Tien Tsin, Nov. 9.—All quiet here at 3 p. m. The city has not yet gone over to the rebels.

It is said that the throne intends to issue an edict denying that discontented officers of the sixth division of the Imperial troops murdered General Wu Tu Cheng.

The foreign board also denies that Manchus murdered the general, but they are unable to explain the fighting between the Manchus and Chinese troops. The rebels in north China are gradually assuming control of affairs, though their movements do not appear to be connected.

#### Fighting at Nanking.

Nanking, Nov. 9.—The Manchus and rebels rested on their arms to-day. The loyal troops still hold Purple Mountain, the city's stronghold. The besiegers are awaiting ammunition from Shanghai.

In yesterday's fighting the rebels lost 1,000 killed and wounded.

The Manchus were strongly entrenched and had six three-inch guns and ample ammunition.

Toward night the invaders, who had attacked prematurely, ran short of powder and though desultory firing continued through the night, little damage was done on either side.

The rebels far outnumber the Imperial troops and are being rapidly reinforced. To-day they totalled approximately 25,000 men. Opposing them are about 6,000 Manchus.

The outcome depends largely on the loyalty of the Manchus who are disheartened because of the attitude of the government at Peking.

Foreigners are safe. The women and children have left the threatened districts and the Americans have found protection in the consulate grounds. The marines and blue-jackets have landed from the United States cruiser New Orleans.

#### Rebel Commander-in-Chief.

San Francisco, Cal., Nov. 9.—A dispatch received here to-day by the Chinese Free Press from Hongkong stated that Wu Han Yun, who was secretary to Dr. Sun Yat Sen, provisional president of the Chinese Republic, was elected commander-in-chief of the revolutionary forces in the province of Kwang Tung yesterday. The province recently joined the rebels.

Chang Ming Chia, the viceroy and candidate for the military leadership, joined the Republican forces within the last few days, but the belief of many of the revolutionists that his change was a political action to enable him to retain his office, was the cause of his defeat.

#### BEATEN TO DEATH.

Attendant at Insane Asylum Killed by Negro Inmate.

Topeka, Kas., Nov. 9.—Delbert F. Thompson, an attendant of the state insane asylum, was beaten to death yesterday by A. F. Gerald, a negro inmate. Thompson was overseeing a number of patients who were polishing the floors in one of the buildings. Gerald attacked him unexpectedly with a heavy mop, fatally injuring him before assistance could arrive.

#### RAILWAY CONTRACT FORMS.

Toronto, Nov. 9.—Major Walsh has arranged for a meeting of the shippers of livestock and representatives of the railways to be held in Toronto on December 8 and 9 of this year to discuss the contract forms submitted by the railways and which the shippers decline to accept. If a form can be arranged it will be submitted for approval to the Dominion Railway Commission.

### BUILDING HIGHWAY.

Montreal, Nov. 9.—The construction of an international highway from Montreal to New York is an assured fact. It may be completed next year, and if not it will be finished the year following. Gabriel Henry, of Quebec, head of the roads branch of the provincial department of agriculture, goes to Rochester, N. Y., next week to meet the road engineers of that state, who have charge of the road building in that part of the international highway running through New York state. An understanding will be arrived at with regard to the character of the road in question, and the Montreal end of the highway will be made to correspond in every respect to the American side.

### STABBED AT WEDDING DANCE.

Montreal, Nov. 9.—Maddened by jealousy at the sight of the bridegroom dancing with his bride at Halamell's wedding at No. 2 Valiant street, E. Taffan drove a knife up to the hilt into the arm of his newly wedded host. The wedding festivities were at their height when the happy party was rudely broken up by the assault upon the head of the household.

noon and there was no doubt in the doctor's mind that failure of the heart's action was the immediate cause. The body was removed to the B.C. Undertaking parlors, from where the funeral will take place at a time to be announced later. Coroner Hart was notified but decided that an inquest was unnecessary.

Mr. Peirson had been greatly upset by the death of Mrs. Isabella Barlow at Clinton, on the Cariboo road, a few days ago, especially in view of the circumstances surrounding it, and on Tuesday morning he came into the Times office to give some information which had reached him as to the case. He was a close friend of the family and felt their bereavement almost as a personal one. He complained to friends who met him during the early afternoon of a tightness across his chest and of spells of faintness but neither he nor they anticipated anything serious from these symptoms. He had evidently gone back to his office and while in one of the rooms had been seized with one of these spells and had fallen backwards against the door, death being instantaneous.

Mr. Peirson was born in Yorkshire seventy-four years ago and early took up the profession of expert auditor and accountant. He was for many years accountant for the National Trust Bank at Darlington, and was afterwards for some time at one of the northern branches at Jarrow. He left England for South Africa and was a contractor for the government during the Zulu war. After spending several years in that part of the Empire he went to Australia and lived in that Dominion for some time. He came to Victoria about nineteen years ago and was employed by the provincial government as accountant at Kamloops. He also served as police magistrate at Steveston and was very successful in his enforcement of the law among the many nationalities in that fishing section.

A widower for many years, Mr. Peirson leaves one son in Johannesburg and another in Australia.

Mr. Peirson was widely known not only here but throughout the province by his connection with the Navy League. He was a most enthusiastic member of that organization and was one of the founders of the branch here, of which he was secretary, besides giving his services freely in the work of organizing and building up branches in other parts of the province. He kept all the naval anniversaries before the public by notices or

## JOSEPH PEIRSON DIES SUDDENLY

A FAMILIAR FIGURE DEPARTS FROM SCENE

Was a Prominent Member of the Navy League and Yorkshire Society

A great shock was caused in business circles this morning when the news spread of the death of Joseph Peirson, for many years past a familiar figure in Victoria. The shock was all the greater as Mr. Peirson had been about

THE LATE JOSEPH PEIRSON

on Tuesday afternoon and was then in his usual health, so far as any of his friends or acquaintances could discern. It was evidently at least twenty-four hours after death before the body was discovered. Mr. Peirson had offices in the Reynold's building, corner of Yates and Douglas streets, and there his body was found at 5:45 yesterday afternoon propped up against the inside of the door of one of the rooms and preventing it being opened. The discovery was brought about by a search instituted when Mr. Peirson had not returned to his home the previous evening.

Dr. K. J. O'Neill, whose office is in the same building, had been attending him for heart trouble and asthma for some time past and on Tuesday had been chatting with him. At that time he was in apparent good health. Twice yesterday Dr. O'Neill went to the room in which Mr. Peirson's body was found, but on both occasions he found the door held from opening by some heavy weight. He paid no particular attention to this, however, until a couple of friends of the deceased gentlemen made inquiry for him late yesterday afternoon as to whether he had seen Mr. Peirson during the day. Remembering his unsuccessful efforts to get into the office and also into the other room, Dr. O'Neill went back there and, exerting all his strength, he forced the door open sufficiently to gain admittance, when he was horrified to find that his patient's body was what had kept the door fast.

It was plain from the fact that rigor mortis had set in that death must have occurred some time the previous after-

noon and there was no doubt in the doctor's mind that failure of the heart's action was the immediate cause. The body was removed to the B.C. Undertaking parlors, from where the funeral will take place at a time to be announced later. Coroner Hart was notified but decided that an inquest was unnecessary.

As an auditor Mr. Peirson was considered one of the best in the city and his services were constantly in request by companies and municipalities. He was an exceedingly painstaking and conscientious worker and gave the same or even greater attention to the business of his clients as he would if it were his own. He did considerable work in this line at one time for the local government, and several municipalities in the province engaged him to audit their books. In addition he had acted as secretary for business concerns and at the time of his death he was secretary of the Bulman Lumber Co., Ltd. He was a great stickler for punctuality in appointments and he himself was never known to miss one or to miss the hour he had set for it.

Personally he was a most estimable man, upright, straightforward, courteous and kindly, and at all times ready to assist in advancing any worthy cause.

The executive of the Yorkshire Society requests all members to attend a special meeting of the society this evening at 8 o'clock in the office of the Victoria Book and Stationery Co., 1094 Government street, formerly Waitt's music store. At this meeting arrangements will be made for attending the funeral.

## DOES NOT SEEK INTERVENTION

### STATEMENT MADE BY TURKISH AMBASSADOR

Italian Minister Again Denies Reports of Atrocities by Troops

Washington, D. C., Nov. 9.—Misconstruction of the appeal made by Turkey to the American government for intervention at Tripoli resulted in the issuing of a statement yesterday by Yusuf Zia Fasha, the Turkish ambassador, declaring that Turkey had no wish that the United States should act as mediator to end the Turko-Italian war.

"The call which the embassy made on the Washington government on November 4 was to request the state department to intervene in order to bring about cessation of atrocities committed by the enemy against women, children and the defenceless population of Tripoli," said the ambassador.

"This appeal did not imply in any form whatever, a request for mediation, as has been reported in some quarters."

Further official denials from the Italian government on the rumored atrocities by Italian troops in Tripoli were given out during the day through the Italian embassy. Three cablegrams from the minister of foreign affairs were made public by Marquis Cusani Confalonieri, the Italian ambassador. The first of these said: "I beg your excellency to deny in the most absolute and emphatic form the alleged Italian cruelties. The Arabs are the ones who are guilty of atrocities against our soldiers."

Another official dispatch denies the statements heretofore made that General Caneva had used the troops to shoot at Arabs suspected of having borne arms against the Italians.

It was stated that many of the Arabs actually found with arms in their possession were deported instead of being shot.

Apparently the state department has decided to take no action on the protest of the Turkish government, contenting itself with a bare acknowledgment of the receipt of the protest, and meanwhile is still firm in its conviction that the issue between Turkey and Italy is one that concerns European powers alone.

Further victories of the Italian troops in repulsing Turkish attacks on Tripoli were reported to the embassy yesterday. It was reported that a squadron of Italian cavalry made a night attack and captured two cannon and a quantity of ammunition. As to the reported recapture of Derna by the Turks, the Italian dispatches state that "everything is in order at that point."

American Consul John J. Wood, at Tripoli, reported yesterday that the city is in an unsanitary condition. He advised the state department that he did not desire to avail himself of the refuge offered by the cruiser Chester, which arrived Tuesday and sailed almost immediately for Marseilles.

## TALESMEN REFUSE TO BE SWORN IN

Later Accept Judge's Ruling—Two Excused From Serving on Jury

Los Angeles, Nov. 9.—Three out of five talesmen balked at being sworn into juryman in the McNamara trial at the opening of court yesterday in a scene which for dramatic quality brought a hush upon the court room. Byron Lisk, a mill owner; William F. Clark, a retired farmer, and Sam Mendenhall, an orange grower, were the men who objected to trying the McNamara case for his life on a charge of murdering Charles J. Hagerty, a machinist, killed with the twenty others as a result of the Times explosion a year ago.

"Rise and be sworn, gentlemen," said the court when Attorney Darrow, counsel for the defence, announced that he would challenge none of them. Lisk and Clark both started explaining protests which were cut short by the judge.

"Anything you can say will have as much weight later as now," he said.

"Rise and be sworn," and four men rose. Mendenhall sat still. Across the room sat his wife and family physician, who had told the court that Mendenhall's mother probably could not live. His father died two months ago.

"Do you affirm, Mr. Mendenhall," asked Clerk George Monroe.

"No," said Mendenhall. "I swear when there is occasion for it; there is none now. I have a reasonable and fair excuse."

"Your excuse will have due consideration, Mr. Mendenhall," said the judge. "Arise and be sworn."

Mendenhall rose and raised a steady hand, taking the oath. Immediately after the talesmen were sworn, the court by agreement of counsel took the talesmen into his chamber one at a time and heard their excuses. The court excused Clark because of ill-health and Mendenhall because of his mother's illness. Lisk was retained.

PASTOR RESIGNS.  
Clergyman Who Married J. J. Astor and Miss Force Retires From Ministry.

Providence, R. I., Nov. 9.—Because of the criticism resulting from his marriage of Col. John Jacob Astor and Miss Madeline Force, at Newport on September 9, Rev. John Lambert has resigned as pastor of the Elmwood Temple (Congregational) church and will leave the ministry to go into business.

MRS. VERMILYA ILL.  
Chicago, Nov. 8.—Mrs. Vermilya, accused of poisoning Policeman Blonnette, is seriously ill in jail to-day. She was stricken with a severe nausea and it was feared that in spite of numerous guards she again had attempted to end her life by poisoning.

## THINKING THEMES

BY DR. FRANK CRANE

Somewhere ought to write a book, or preach a sermon, or do something desperate, to show folks the seamy side of high moral maxims. I know of no

glorious and time-honored principle of conduct that does not kick like an old mule. There is no good rule that is not also sometimes a bad one.

One of these excellent things men do—one that has the reputation of saving many a drunkard from a fallen life out of the ditch—is the making of good resolutions.

A good resolution is all right, if you happen to keep it. If you don't, you are in the condition of the man in holy writ, who got rid of one devil, only to have it and seven others come back and ride him, so that his last state is worse than the first.

The older I get the more I look with suspicion upon the whole promising, vowing, pledge signing business. If you have anything in mind to do, do it now; and to-morrow, if you still think it ought to be done, do it again. But why should a man's future be mortgaged to his past? Why should one arbitrarily project his state of mind on March seventh to torment and hamper his state of mind on March tenth?

Some obligations, of course, have to be taken, such as to repay money, to live with one woman, and to be at the dentist's at 10 a. m., but let such ties be as few as possible. Beware of being too easy to vow. For when you pledge, and then break it, you've not only committed the specific sin you wanted to avoid, but you've lied to boot, which is perhaps worse.

Old Dr. Johnson vowed constantly to rise at six in the morning, and usually lay abed till noon. "I have spent forty years," he wrote bitterly, "in making futile resolutions."

One of the best ways to get a name for keeping your promises is not to give any.

## ANOTHER CHINESE TOWN SURRENDERS

Military Government Urges People to Aid the Revolutionists

Shanghai, Nov. 9.—The military government issued a proclamation yesterday calling on all to join in the life and death struggle, and exhorting the population of the lower provinces to refrain from disorders and to guard the rights of foreigners.

The proclamation further promises the abolition of many taxes hitherto imposed by the five millions of the nomadic tribe which 200 years ago was supported by the liver and brain of 400,000,000 descendants of Han.

Cho Foo has requested the presence of an American warship, and Rear-Admiral Murdoch, commander of the American Asiatic squadron, who is here, probably will comply.

The situation at Pekin, news of which is being widely circulated, has created a strong impression among the reformers.

A wireless message from the German vessels at Hankow reports that the imperialists there are losing heart.

La Chow, 75 miles southwest of Ning Po, surrendered to the rebels yesterday without resistance.

Latest advices received here say that the attempt of the insurgents to seize Nanking was only partly successful. They were repulsed at some points, but captured the forts behind the city. They lost more than 100 men killed. At the south gate 2,000 imperialists joined the revolutionaries on receipt of 300,000 taels (\$200,000).

The Manchu general, Ching Chun, is still holding out. The foreign residents have either left the city or taken refuge in the consulates.

In Shanghai the revolutionaries are trying to force the taotal to give up the seals of his office and the government securities. This, however, he has refused to do. It is understood, on the advice of the consuls. The revolutionaries are short of money, and are levying contributions on the wealthy citizens. Sixty thousand taels were abstracted by force from the coffers of one unwilling merchant.

Refuses to Grant Demands.

Nanking, Nov. 9.—The people here were awakened yesterday by the sound of heavy firing. The long dreaded attack by the rebels had begun. The Manchu general in command of the Imperial troops occupying the heights of Purple Mountain, which overlooks the town, refused all demands of reformers.

Several thousand troops attacked this stronghold, but were repulsed with the loss of more than 500 killed. The Manchus are strongly entrenched and well armed, but are short of ammunition.

Several thousand Manchus out of a garrison of 10,000 have left here on the pretence of joining the loyal army in the north. At Ching Kiang 3,000 Manchus rifles with munitions of war have been turned over to the rebels.

Another Rising.

Hongkong, Nov. 9.—The rebels attacked the Wung Tung Pong, Li Long Pokut and Sham Shum stations on the Chinese section of the Canton-Kowloon railway and seized arms and ammunition. The employees of the railway escaped to the British concession. Foreigners were unharmed.

Reports from Macao describe a Chinese rising in the Chin San and Heung Shan districts.

Chicago University now has assets of \$7,200,000.

Angus Campbell & Company, Limited, 1008-10 Government St.

## Inclement Weather Suggestions

THE "BURBERRY," for which we are exclusive agents. "Burberry" has made a worthy reputation for itself the world over, wherever the forces of the elements have to meet, it provides one of the chief means for retaining health by the security it affords.

### FASHIONABLE COATS

Coats of real distinctive styles and materials, including the new reversible cloths, the deep cuffs, large pockets and extra wide collars, all of them coats that are in demand for motoring, street wear, travelling. Dressy coats in lighter weight colored materials, plain and fancy trimmed, specially designed for formal occasions, for calling or for the theatre.

### MACKINTOSHES

The desirable lightweight Mackintosh can be found here in just as pleasing a variety as the newest ideas always shown in the heavier coats.

### CHILDREN'S WATERPROOF CAPES

With hoods, the best protector for school days, as well as being a very dressy little outer garment.

Near City Hall

### SEATTLE ENGINEER RESIGNS.

Seattle, Wash., Nov. 9.—City Engineer R. H. Thomson's resignation has been accepted by Mayor George W. Dilling, and A. H. Dimock, principal assistant to the city engineer, was appointed to the vacancy until further notice.

In his resignation Mr. Thomson refers to the acquisition of the Cedar river watershed. In his letter of resignation, Mr. Thomson says: "I have served as city engineer for practically 20 years. A considerable portion of this time I have continued in the position because some years before I had undertaken the acquisition in behalf of the city of the watershed of Cedar river, so that this city might have the purest and most satisfactory water service of any city in the world. During the past few months the acquisition of this watershed has been carried forward to such an extent that I felt that there is no longer a responsibility upon me in that matter."

"Within the same period there has been organized the port of Seattle, and the officers of this port have tendered to me the position of chief engineer."

In my judgment, the matter of securing the construction of a safe and commodious harbor is now of greater importance to the city than any other work. I therefore wish to be released from the duties of city engineer that I may take up the duties of this new position, which I believe at the present time are of the highest possible interest to the city."

### NEGOTIATIONS CONTINUE.

Lethbridge, Alta., Nov. 8.—An announcement that the agreement in the coal strike has at last been reached and signed by all parties concerned is expected soon.

Charles Garner, international board member, who came down from the conference which has been going on since Tuesday of last week, says that the conference is progressing favorably and there is no reason to believe that there will be any hitch in the negotiations. The reason for the great length of time taken up by the conference is that there are about twenty-five companies, each representing one or more mines or districts and in every mine there are certain peculiar conditions which must be covered by a special clause in the con-

tract. These should be disposed shortly, and it is only a matter of hours until the men will be taking their places in the pits once more.

### WEEKLY WEATHER REPORT.

Victoria Meteorological Office, 1st to 7th November, 1911.

Victoria—Total amount of rain, .55 inch; total amount of bright sunshine, 24 hours and 36 minutes; highest temperature, 56 on 2nd; lowest, 38 on 1st.

Vancouver—Total rain, 2.25 inches; total amount of bright sunshine, 14 hours and 30 minutes; highest temperature, 52 on 2nd; lowest, 38 on 1st.

New Westminster—Total amount of rain, 2.50 inches; highest temperature, 52 on 1st; lowest, 32 on 1st.

Kamloops—Rain, .28 inch; snow, 2.96 inches; highest temperature, 54 on 4th; lowest, 18 on 1st.

Barkerville—Rain, .54 inch; snow, 8.80 inches; highest temperature, 40 on 2nd; lowest, 16 on 1st.

Prince Rupert—Rain, 3.36 inches; highest temperature, 54 on 1st; lowest, 32 on 7th.

Atlin—Rain, .82 inch; snow, 2.40 inches; highest temperature, 44 on 2nd; lowest, 2 below on 2nd.

Dawson—Snow, 1.90 inch; highest temperature, 20 on 2nd; lowest, 11 below on 7th.

### OUTSTANDING SUIT.

Washington, D. C., Nov. 9.—More Standard Oil troubles were before the Supreme Court yesterday for consideration. Last spring the court decided the dissolution of the Standard Oil Company of New Jersey. This time it is to pass upon an action of the courts of Missouri in ousting the Standard Oil Co. of Indiana, and the Republic Oil Co. of New York from doing business in Missouri. In addition to requesting the corporations to go hence, the Missouri courts fined each company \$50,000. The corporations now attack the ousting.

constitutionality of the Missouri anti-trust laws.

### PASTOR RESIGNS.

Clergyman Who Married J. J. Astor and Miss Force Retires From Ministry.

Providence, R. I., Nov. 9.—Because of the criticism resulting from his marriage of Col. John Jacob Astor and Miss Madeline Force, at Newport on September 9, Rev. John Lambert has resigned as pastor of the Elmwood Temple (Congregational) church and will leave the ministry to go into business.

## THE WESTERN VOTE.

Notwithstanding the defeat of the Laurier government on the reciprocity issue, the electors of the Prairie provinces seem disinclined to drop their agitation for a reduction in the tariff, and the tabulation of the vote in the three middle provinces gives some idea of the strength of the movement which for years has tended toward a reduction in the duties seriously affecting the farmers of the Northwest. We think it must be admitted that in the middle provinces more than in any others the vote of the electors was intelligently cast on the single issue of reduced tariffs and freer trade. Though the reciprocity measure did not concede all that they asked, they recognized that it was a step in the direction and they voted on the theory that half a loaf would be better than no bread. They did not allow the issue to be clouded by the flag-wavers; it was a straight business vote with them.

An analysis of the vote shows that it was overwhelmingly in favor of freer trade.

The figures of the voting in Saskatchewan last month show that no less than 59,035 ballots were cast, as compared with 59,868 in the election three years ago, an increase of 30,000. The Liberal majority in the province is 18,212 as compared with a Liberal majority of 8,336 three years ago. The majority for reciprocity is 19,631.

Of the ten constituencies in Saskatchewan, Laurier and his policy of larger markets was endorsed in nine, and overwhelmingly endorsed.

Had Saskatchewan been accorded its rightful representation of fifteen, which the census shows it is entitled to, the enormous majorities indicated above are sufficient warrant for the statement that the representation in parliament would be 14 Liberals to one Conservative.

As yet absolutely complete returns for all Alberta constituencies have not been obtained, but, insofar as official and unofficial figures are available, they tell much the same story as do the Saskatchewan figures. Laurier and reciprocity were triumphantly endorsed in six out of the seven ridings.

Commenting on the significance of this vote the Regina Leader says:

"In Alberta, as in Saskatchewan, had the province received its just representation, the standing would assuredly be, Liberals 11, Conservatives 1."

"Such a record of enormous majorities throughout the length and breadth of not one province alone, but of two adjacent provinces, is one of the most significant features of the late contest. They reveal the strength of the low tariff sentiment of the West, a sentiment which shows no signs of abatement, a sentiment that, so far from being weakened, has been strengthened and intensified by the rejection of reciprocity by Ontario."

"Prior to the polling last month, the Leader said if the Big Interests were successful in their effort to deprive the West of its natural market, they would live to regret their folly. We pointed out that the reciprocity pact did not endanger their interests and legitimate profits, that it dealt primarily with natural products, but that if those Big Interests were so short-sighted as to oppose such a measure designed to benefit the farmers, and were successful in their opposition, that is, dangerous to the protected interests, would arise, an agitation not for free trade in natural products, but for lower tariffs all along the line. Time will demonstrate the truth of that prediction, and the majorities rolled up on the prairies last month for freer trade and larger markets are an evidence of the force which will be behind that agitation and which will ultimately, and before long, too, triumphantly carry the low tariff party to victory."

It is useless to deny that when these provinces secure their proper representation in parliament—as they must do soon after a redistribution bill is passed in the House—the majority of the high tariff government will undergo a serious reduction. Nothing can change the mind of the Middle West on the tariff question. It is immovably determined to have open markets and lower duties on agricultural implements. Both Sir Wilfrid Laurier and Hon. R. L. Borden found this out on their visits to the west. The demand grows with every passing year, and it must continue to grow as the intelligence of the people is developed on tariff matters.

Nor can it be supposed that—since the question of fiscal independence has been settled—other parts of Canada will be inclined to suffer on supinely under the imposition of the present restrictions. The opening of the neighboring markets would have stayed their thirst for the blood of tariffs for a time, but only for a time. The closing of the avenues of trade and the increased restriction under which they are now

handicapped will, but what their desire for the life of their quarry.

The people of Canada have given their answer to the charge of disloyalty and have allayed their fears of disintegration of the Empire, but that has not touched the question of their tariff disabilities. That question is still to be settled, and the strength of the Middle West is what will have to be reckoned with by Mr. Borden within the next two years.

The admitted influence of the "interests" over the Borden administration and their avowed intention to secure a revision of the tariff as they may be advised by a tariff commission of their own creation will hasten the day when the interests will have to face the solid impact of the Western vote. There can be no international complications arising out of a reduction of the tariff when Canada makes the reduction of her own volition; nor will the question of loyalty to the Empire be brought into account. It may take Canada a couple of years to find her feet again, but it will not take longer. The election after redistribution will tell the tale.

## ELECTION PROTESTS.

The action of Sir Wilfrid Laurier in filing objection to the protest against his election in the riding of Soulanges will, we think, receive the commendation of the electorate of Canada, more particularly that section which desires to see elections freed from corrupting influences or practices. There are no specific counts in the protest against Sir Wilfrid's election, the charges being so general that action has been taken to compel specification. The filing of the protest was too gleefully heralded by the government press as having the effect of preventing Sir Wilfrid from resigning the seat until the charges were disposed of, and doubtless this was the sole object of the charges of corruption. Failing action of the kind Sir Wilfrid has taken, the protest might have been kept suspended in the courts for an indefinite period and the constituency deprived of representation. Sir Wilfrid has now said that his traducers must make good their charge or the case be dismissed.

Should the example thus set by Sir Wilfrid be generally followed throughout Canada, we think there would be less corruption during election campaigns and fewer protests filed afterward. During the period since the recent election the campaign managers of both parties have been busy sawing off and compromising protests, each side yielding to drop individual charges rather than fight the matter out in the courts. The practice is quite as corrupt as the corruption which protests are supposed to contest. Where majorities are narrow it has been the custom to file objections on general grounds, and after the smoke of battle is over the party managers get together and saw these off, leaving only the odd cases where personal malice or some other equally reprehensible motive is behind the charge to be dealt with by the courts.

Doubtless the election laws are technically unobservable, but it must be obvious that the temptations and opportunities surrounding campaigners and party adherents in a heated contest make some statutory limitation of their influences necessary. While there are many things that can be done—and are legitimately done—in an election campaign, the letter of the law must necessarily be strict in order to obviate evasions. We have been authentically informed of a community case in point in this province, a case, too, not covered by any specification in the present law.

We are not among those who advocate a modification of the election laws, but we are strongly of the opinion that when charges of corruption are made there should be no such arrangement possible as a saw-off or compromise. We hold the view that all such cases should be haled into court and the charges sifted to the bottom. Should the protestors fail to establish corruption—by corruption we do not mean overt acts which may have been inadvertently committed without corrupt intention—then these who lodge the protest should be mulcted in the costs of the court. If it were understood that such a course would be followed we may feel confident that only such charges would be laid as contained strong prima facie evidence of wrongdoing and where corruption were proven the heaviest penalties of the law should be visited upon the offenders.

If the new government will adopt such measures it will find no more staunch supporter—in this respect—than the Times. We are not affected by possible consequences to individuals in our own political party and would fain see the law enforced in every case. We know, too, that such stringency in the proper enforcement of the present law is too much to expect from the Borden government.

Not since pre-confederation days has a government in Canada started upon its career under such untoward circumstances as the Borden administration. And it is significant that the fiercest assaults upon the government

are made by prominent Conservatives. We have already given the views of Mr. E. B. Osler, a member of parliament who might have had a portfolio in the Borden cabinet, and of Dr. Sheard, a life-long, hereditary Conservative of Toronto. Mr. Robert Reid, also from Tory Toronto, has had published a two-column article, bitterly assailing the Borden ministry, not because of the Premier's evident subservience to the Quebec Nationalists, but because of its domination by corporation and moneyed interests. "The corporations and financial interests have this country by the throat to-day in a manner which is a disgrace to the Conservative party," writes Mr. Reid. "The honors of governing Canada at this date are pretty evenly divided between the railway companies, the bloated capitalists and monopolists, the unscrupulous corporation politicians and the financial interests. These are the chief governing factors at Ottawa, and the sooner the source of this form of government is destroyed and the growth torn out, root, branch and fungus, the better it will be for the Conservative administration in this country."

Also Montreal City Council has its graft problems. But with this difference, they are finding out things there.

Now that the splurge and splash of the visit of Col. Hon. Sam Hughes has subsided and the boiling waters of enthusiasm are calmed, let the citizens of Victoria take a quiet moment to answer the vital question: What did the visit to Victoria really amount to? Can any elector lay his finger on a single thing that brightens the outlook excepting "Ross rifles, mark III, double star," and a fraternal visit to the Orange coterie?

Very suggestive of the yellow peril is a comment in the Manitoba Free Press which says: "If the letters of the Chinese Emperor, who is five years old, are fair samples of the work which can be turned out by the youngsters of the Celestial Kingdom, the system of education in China should be worthy of emulation in this country. Such a composition as the latest given under the hand of the infant ruler might well tax the powers of some of the university graduates in this country." At the same time it must be admitted that the letter to the signature of which the emperor affixed his (X) mark is a study in diplomacy and effort to deal with a problem of magnificent proportions that must invite the admiration of older countries.

The fundamental principle of the Liberal party is the widest possible extension and freedom of our export trade, and the liberation of our import trade from any burdens that are not absolutely necessary to the general and all-round development of the country, says the Montreal Herald. That fundamental principle sufficiently distinguishes the Liberal party from the Conservative, which in the recent election scoffed at the necessity of increasing the export market, and hinted broadly in many quarters at an increase in the privileges of the "special interests." It should be sufficient to nerve the arms of Liberals for the inevitable struggle against privilege, without tying up to a particular agreement with a particular nation. Matters of that kind can be left to be dealt with as they arise.

The morning paper in a very clever dust-throwing editorial carefully prepares the Tories of British Columbia for disappointment in the result of Premier McBride's appeal to Ottawa for "Better Terms." One might almost fancy that the Colonist already has confidential advices from Mr. McBride to make the people of this province believe that what he is contending for is not something real and tangible in the way of money consideration, but the recognition of a principle contended for by the province. If this is all that Mr. McBride is contending for, it will not cost Mr. Borden much effort to satisfy him. The Fielding surplus contains enough money to pay the cost of reference to a commission and the commission can make good use of the decor. Let us all get ready for the announcement that Mr. McBride has scored another triumph.

Every man has just as much vanity as he wants understanding.—Pope.

**THE COMFORT OF HOME**  
Depends largely on warmth. No house can be cheerful unless it is well heated. No house can be well heated unless good fuel is used.  
People who use our coal find it always satisfactory, because it is the cleanest, highest grade of coal mined.

# WOMEN'S TWEED COSTUMES

Values from \$30 to \$45 on  
Friday at

**\$23.75**

Most of these are strictly plain tailored garments, close rivals of the custom tailored garments, and a few have wide revers inlaid with satins, velvets and a variety of other materials. They are chiefly made of tweeds in a variety of colors, but there are a few in navy blue serge and all sizes are represented. Not one of these garments is worth less than \$30. The coats are lined with good Skinner satin, while the skirts are plain tailored or have panel back and front.

**\$23.75**

SEE VIEW STREET WINDOWS

**Zambrene Weather-Proof Coats for Women**

No woman who wants a smart coat can afford to overlook the merits of these distinguished looking garments. "Zambrene" weatherproof quality is obtained by treating the yarn by a special process before and after weaving. With "Zambrene" garments there is none of that cold, clammy feeling you associate with rubberized fabrics. On the contrary, they keep you warm, are snug and dry inside. Further, they can be dried at a fire without injury to the fabric. Every coat is full length, loose fitting, made with a Raglan sleeve, turned or strapped cuff and usually a collar that buttons close up to the neck. Excellent coats. Marked at \$22.50, \$25.00 and \$27.50

## Dolls With Kid Bodies at 25c

This is a quantity of Dolls that have got slightly soiled and we mean to use them as an advertising medium for the toy department. There are many sizes to choose from and not a single doll is worth less than 50c and most are values ranging from 75c up to \$1.50, so you are sure of securing a big bargain. All these dolls are the kind that close their eyes and have moveable joints, mostly with kid bodies, but some have bisque bodies and will be sold without reserve on Friday at, each .....25c

## Slightly Chipped Enamelware

VALUES UP TO \$1.75 FOR 25c FRIDAY

This is an enormous reduction to make, but we are not losing on the transaction. A large consignment that has recently come to hand was badly handled while in transit, and the manufacturers have allowed us such a liberal discount rather than have the goods returned, that we are able to offer the damaged articles at this low price. There are preserving kettles, tea kettles, saucepans with covers, coffee pots, roast pans, and a variety of other useful articles; some only slightly chipped, but all the articles should find a ready purchaser at, each .....25c

## The Gem Self-Basting Roaster

REGULAR 60c—SPECIAL FOR FRIDAY, 35c

Made entirely seamless so there is no chance for grease to collect in seams or corners. They are perfectly smooth and can be washed out like a dish. The bottoms are concave, which collect the rich natural meat juices directly under the roast, the heat turns these juices into steam which condenses over the surface of the meat or fowl and makes a perfect self-basting process. There is no danger of burnish, as the bottoms are slightly raised from the oven. NEEDS ABSOLUTELY NO ATTENTION. Made in sheet steel, in size 12x8 in. Instructions for use with every pan. Price, on Friday .....35c

## Tea Sets, Also Separate Cups and Saucers at Special Prices Friday

AUSTRIAN CHINA TEA SETS, of 40 pieces, in a very useful shape. There are two different designs to choose from, both floral, one in green and pink and one in red and green. The regular selling price of these sets is \$5, but to make room for the toys, we are reducing some of our stock. Special price for Friday's selling .....\$3.50

CUPS AND SAUCERS, made of high grade Austrian china, in two very convenient shapes that will serve just as well for breakfast as tea cups. They are white and lined with gold and clover leaf at the bottom. Regular value \$2.25. Special for Friday's selling, per dozen .....\$1.50

## Surfaced Oak Sideboards—Big Reduction to Make Room for Toy Dept.

SURFACE OAK SIDEBOARD, made of selected hardwood, has serpentine front, two drawers with shaped fronts, one lined with green felt, large cupboard with carved doors and one large drawer. The top measures 23x50 in., and the back has large shelf and two brackets supported by turned and carved pillars, and bevelled plate mirror 16x28 in. Regular value \$27.50. Special on Friday .....\$22.75

SURFACE OAK SIDEBOARD, with straight front; top measures 20x48, has one large drawer, two small drawers and large cupboard with two doors. The back carries bevelled plate mirror 14x24 in., shaped shelves supported by shaped arms and neatly finished with carving. Regular \$19.75. Special on Friday .....\$14.75

SURFACE OAK SIDEBOARD, made of well seasoned fir, has two small drawers and one long drawer, also cupboard with two doors. The back is neatly finished with carving, and carries a large shelf and two shaped brackets, supported by neat square pillars. Golden oak finish and worth \$15.75. Cold Weather.—Nog a fire. Burn coal. Get a coal scuttle. Small, large, plain, decorated, open and covered scuttles, 40c. to \$1.25, at R. A. Brown & Co.'s, 1392 Douglas street.

Building Permit.—James Mossey was granted a building permit this morning by the building inspector for a dwelling house on Sutlej street to cost \$2,500.

Donors Thanked.—The management of the Aged Women's Home desires to thank the many kind friends who so generously assisted them in making the recent sale and entertainment such a success. An accurate list of all the donors is not available, therefore they deem it wisest to refrain from publishing names. The net receipts will amount to at least \$425, besides which all the aged inmates enjoyed a very pleasant function.

Veterans' Church Parade.—On Sunday next Company 34, Imperial War Veterans' Brigade, will hold their annual church parade to Christ Church Cathedral. They will be escorted by the Fifth Regiment band under command of Lieut.-Colonel Currie and a detachment of officers and men from H. M. C. S. Rainbow. They will leave the drill hall at 2 o'clock and the line of march will be Government, Yates and Blanchard streets. Dean Doull will preach. A collection in aid of the veterans' fund will be taken.

Was Found Guilty.—Judge Lampman yesterday afternoon upheld the conviction of Lung, a Chinese who was found guilty of being an inmate of an opium joint in Chinatown. The keeper of the house in which Lung was found was named Sam, and Judge Lampman the previous day reserved his decision as to whether Sam is guilty of being the keeper of an opium joint. Lung was fined \$20 with the option of one month and paid the fine. His Honor yesterday afternoon found for the plaintiff in Luskoff against Robertson, in which the plaintiff sued for money due under a promissory note for \$509.

## FERRY SERVICE

**Victoria-Vancouver.**  
Princess Charlotte leaves Victoria daily at 2:15 p. m., except Sunday, arriving at Vancouver at 6:45 p. m.; Princess Adelaide leaves Victoria at 11:45 p. m. daily, arriving Vancouver at 7 a. m.  
Princess George leaves Victoria on Thursdays at 10 a. m., and Prince Rupert on Mondays at 10 a. m.  
Princess Victoria leaves Vancouver daily, except Tuesday, at 10 a. m., arriving Victoria at 2:30 p. m.; Princess Adelaide leaves Vancouver at 1 p. m. daily, arriving Victoria at 5 p. m.

**Victoria-Seattle.**  
Princess Victoria leaves Victoria daily, except Monday, at 1:30 p. m., arriving Seattle at 10 p. m.; Princess Charlotte leaves Seattle daily, except Monday, at 9 a. m., arriving at Victoria 1:15 p. m. On the lay-over day the steamer Iniquity of the Alaska-Puget Sound Navigation Co., fills the schedule.  
Princess George leaves Victoria on Wednesdays at 10 a. m., and the Prince Rupert on Sundays at 10 p. m. Returning, leave Seattle Wednesdays and Sundays at midnight.

**Vancouver-Seattle.**  
Princess Charlotte leaves Vancouver daily, except Sunday, at 11 p. m., arriving Seattle 9 a. m.; Princess Victoria leaves Seattle daily, except Monday, at 11:30 p. m., arriving at Vancouver at 3 a. m.  
Gone to Vancouver.—Judge Lampman went to Vancouver last night, where he will remain until early next week, being engaged in hearing an arbitration proceeding.

Magistrate Away.—Magistrate Jay went to Vancouver last night and in his absence W. W. Northcott, J.P., occupied the police court bench this morning and meted out the regular fines to the inebriates.

Club Dance.—The Capital Athletic Club will hold their opening club dance Monday, November 27, 1911, in the A. O. U. W. hall, Yates street. Invitations are now being issued to the ladies. Tickets can be obtained from anyone on the following committee: N. Croghan, R. Bray, E. Irvine, J. Jones, G. Brooks, T. Pullin. The best orchestra in the city will provide the latest and catchiest music.

Sunday Concert.—At the New Empire theatre on Sunday afternoon at 4 o'clock the second of the series of sacred concerts will be given. The opening concert on last Sunday proved a great success and another good programme is being arranged for the coming Sunday concert. There is to be no admission charged and a limited number of seats are reserved for ticket holders. Tickets may be obtained at a number of stores, appearing on the placards advertising the concerts. The public will be pleased to know that Mr. Codd has offered his services and will be heard at the Sunday concert.

## NAVAL FUNERAL

Impressive Services Marked Obsequies of Late A. E. Munday.

Impressive service marked the funeral of the late A. E. Munday, of H. M. C. S. Rainbow, yesterday afternoon from the Naval Hospital. The remains which were conveyed on a gun carriage draped in the Union Jack, were escorted by a detachment of two hundred men from the Rainbow, under Commander Howe. Fifty men from the Royal Garrison Artillery, Work Point, and a firing party of twenty-five men. The funeral service was conducted by Dean Doull. Among the floral tributes were two beautiful wreaths, one from the officers and men of the Rainbow and the other from Munday's messmates on the same ship.

Munday died rather suddenly of pneumonia after a long and honorable career in the navy. Before joining the Canadian service he served on various British ships for fifteen or sixteen years and spent some time on this station where he made many friends. He leaves a widow and children in England.

PROMINENT MINING ENGINEER TO DEVELOP PROPERTY OF THE AMERICAN CANADIAN COAL COMPANY

At a recent meeting, held in Vancouver, the directors of the American Canadian Coal Company voted to employ Captain W. H. Jeffery, of Toronto, Canada, to superintend the development work soon to be begun on the property of the company on the North Shore of Graham Island. Captain Jeffery is conceded to be one of the best coal mining engineers in Canada, having had many years of practical experience. The company is fortunate to secure the services of so competent a man. Capt. Jeffery will enter the service of the company on the 15th of December and will devote his entire time and attention to the work.

## ORANGEMEN AND GUY FAWKES DAY

Company of Two Hundred Dines in Songhees Grill—Many Speeches Delivered

The Loyal Order of Orangemen to the number of two hundred, belonging to Victoria, celebrated the Guy Fawkes episode in English history by sitting down to a sumptuous dinner in the Songhees Grill last night and toasting the occasion in the approved fashion. The management had so arranged the establishment that the company of celebrants had the courtesy of it for the entire evening. The toast list was responsible for the usual round of oratorical effusions, and while perhaps no new ground was broken by any of the speakers in the matter of protecting the Empire from herself and others having designs on her, or upon the fealty of Canada to the old flag, a degree of interest was aroused that lasted throughout the evening at a well-sustained height.

Perhaps the most striking contribution to the programme of speeches was that given by Alderman Okell in responding to the toast of Victoria. The alderman's familiarity with civic affairs afforded him a unique advantage in treating his subject, and bringing a high degree of sympathetic judgment and keen appreciation to bear upon the facts of the case, he was able to develop an interest and enthusiasm which seemed rather out of proportion to the length of his speech. By quoting facts and figures he illustrated graphically what Victoria had done in the past, and by forecasting a continuance of the circumstances which had accomplished this result he prophesied even greater achievement in the future.

"Canada" was proposed by Leonard "Pat" He dwelt upon the constant loyalty of the Dominion to the mother land, and reviewed the several historical occasions on which she had been vainly pressed by the United States to enter into a compact against Great Britain. J. L. Beckwith, as a Canadian, enthused over the subject in responding to the toast. He lauded Sir John A. Macdonald for the part he had played in the building up of the confederated provinces. He also commended the Canadian Pacific for its important contribution to the homogeneity of the Dominion, and said it would be hard to estimate what Canada and Canadians owed to that great corporation.

The toast of "The Empire" was proposed by F. A. McDiarmid, the city solicitor, who rejoiced in the fact that all sections of the Empire were not governed from Downing street, but had their own particular privileges of government vested in themselves. He expressed the view that the time was not far distant when Canada, along with the other great imperial colonies, would have representation with Great Britain in the administration of foreign affairs.

Rev. Stanley Ard, in replying to the toast, said he had been brought up in the principles of Orangemen as they are understood in the north of Ireland. That led to remark about Home Rule that its introduction would be calamitous. He lined himself up with Joseph Chamberlain in regard to tariff reform, and said that he was to the contrary of John Macdonald had been to Canada.

The "Loyal Orange Lodge" was proposed by G. J. Grimsman, and responded to by J. C. Scott. Several other toasts were pledged, including the Friendly Societies and the Royal Black Knights.

## TEACHER WANTS INFORMATION.

British Girl Wishes to Join Profession in This Province.

The last mail from the United Kingdom brings the Vancouver Island Development League a number of inquiries from various persons anxious to obtain information about Vancouver Island. One girl at Grays, Essex, asks for information as to whether there is a chance for a teacher, and if she would have to pass another examination in entering the public schools of British Columbia. This would, of course, be necessary, and it is hardly possible that she could be admitted before the annual examinations next summer.

Several inquiries come from Ireland, while from Holkar College, Indore, Central India, comes a request for information from a lady who is anxious to settle in Canada.

Imported Bulbs.—Hyacinths, tulips, narcissi, etc. W. J. Savory, 1197 Broad street.

## PROGRESS MADE AT ROSS BAY SEA WALL

Portion of Wall Erected to Protect Cemetery and Fore-shore From High Tides

Several months ago when the agitation for the Ross Bay sea wall was at its height there was a doubt expressed as to whether it would be possible, or even advisable in view of the lateness of the season to have the project started this year. Only the strongest possible arguments of Ald. Peden, Langley and H. M. Fullerton convinced the rest of the council of the urgent necessity of the work and the possibility, by starting in at once, of averting a repetition of the harrowing scenes at the cemetery which eventuated in the scare headlines for the Seattle newspapers during the last winter slump in news values. At that time how much could be accomplished before winter gales put a stop to the construction work was only a matter of guesswork. It was calculated that if letting the contract speedily it would be possible to protect that part of the foreshore fronting immediately on the cemetery from the ravaging inroads of the sea. The accuracy of that calculation is now being proved to have been a happy one.

At the present time when the winter storm are just beginning to herald themselves on the wings of the western winds the sea wall which was only projected a few short months ago, is now sufficiently advanced to warrant congratulations being extended the initiators of the scheme. Starting in at the section protecting the cemetery proper the "Company," headed by Ald. Peden, worked to such a merry tune that now, almost irrespective of whether another hand is laid upon the work this winter, the cemetery is immune from all further inroads. A stretch of wall measuring about a hundred and fifty to two hundred yards long is already constructed, and viewed on a day like yesterday when the tide was both high and strong, can be seen performing its function in a manner that must be eminently satisfactory to all who observe it. As the waves dashed against the vertical face of the wall it was swished out again in a strong circular movement which had the double effect of returning practically all the spray into the sea and checking the incoming waves with their loads of "damaging" logs, etc. The incoming tide brought a large number of logs to the bay, but the action of the wall upon the waves prevented them from being dashed into it, and rendering the damage which doubtless would have accomplished otherwise.

Even at the points where the wall itself has not been erected and only steps, which form the basic effect upon the waves was very noticeable and commendable. With the advance of the winter season the wisdom of having so much of the work done this year will be apparent to all. Immediately the winter season has passed the work will be resumed. The total length of the wall is 3,700 feet. Ald. Peden accompanied a Times representative to the cemetery yesterday afternoon for the purpose of inspecting the work. At that time, the tide being almost full in, work had ceased, and it was possible to obtain an excellent and uninterrupted view of the structure.

## DEVELOPMENT WORK MAKING PROGRESS

MR. W. G. M'MORRIS IS JUBILANT OVER COAL PROSPECTS ON GRAHAM ISLAND

Development work on the property of the British Pacific Coal Company, Limited, at the south end of Graham Island of the Queen-Charlotte Islands, started last May, has been in progress ever since and will be prosecuted without interruption during the winter months. Mr. W. G. M'Morris, a director, returned yesterday from an inspection trip. He is jubilant over the results accomplished.

A permanent cross-cut tunnel now being driven for the purpose of intersecting three seams of coal, aggregating twenty-one feet in thickness, has already been extended seventy feet. It will, it is expected, strike all the seams within the next eighty feet, and then drifting on the coal in both directions will be started. Over 100 tons of coal have been extracted during development. A depth varying from 75 to 120 feet will be gained by this tunnel, opening up ground where coal can be mined for the next two years. Analysis shows it to run from 65 to 85 per cent. in fixed carbon, with a low ash content. During the past summer the coal seams were traced and proved along the strike for a distance of two and a half miles by means of open cuts and small shafts.

A wagon road one and a half miles long from the mine to tidewater is under construction and will be completed shortly. Then the management will be in a position to make experimental shipments to Prince Rupert and elsewhere. The Grand Trunk Pacific Railway has agreed to give the coal a thorough test on the first division now in operation. Later on shipments will be made to points in Southern British Columbia.

## HISTORICAL DRAMA AT THE VICTORIA

Attractive Performance of "When Knighthood Was in Flower" Presented Here

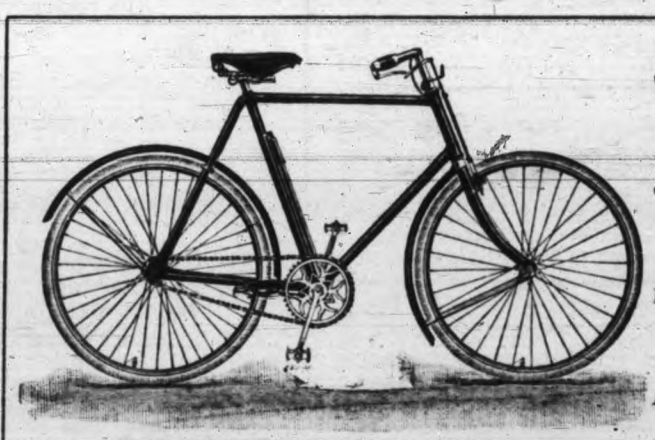

The picturesque days of the Renaissance in Europe, when the old faiths and traditions were giving place to a new life, and the wonders of a new continent were attracting the adventurous, must at all times form a fine setting for dramatic art, and the continued popularity of "When Knighthood Was in Flower" bears testimony that this class of play, with its rich costumes and historic setting, still appeals to the public, particularly when the role of Mary Tudor, the wilful sister of Henry the Eighth, is in the hands of Miss Anna Day. She follows Julia Marlowe in the part, but is not merely a follower. She gives the part an individuality which won great applause last evening when the play was presented at the Victoria theatre. She played the obstinate Princess splendidly in the first act, and as the resolute Queen in the court at Paris she showed equal dramatic feeling, and the unsavory ending of that act, with the rescue by the hero, Charles Brandon, brought out her capabilities. As the future Duke of Suffolk, then plain captain of the King's Guard, Reed M. Clarke portrayed Charles Brandon with much success, and entered into the spirit of this sixteenth century lover who sought as bride a King's daughter, with a real desire to vitalize the part.

Robert Sherwood, as Sir Edward Caskoden, the hero's friend, and Milton Bromley, as the Duke of Buckingham, played their several roles with complete satisfaction, but that of King Henry was hardly what history would have us believe he was even in the bloom of manhood. Queen Catherine of Aragon has quite a minor part, but Dorothy Williams gave to the role something of the haughtiness of this proud daughter of the Castles. Rosemary Scully, as Lady Jane Bollingbrook, deserves special praise, and her acts form a foil to the character of the heroine. The principals are well supported, and although the theatre was far from crowded, the audience enjoyed a healthy, pretty, royal love story to their hearts' content.

## NATIVE SONS' BALL

Whenever the Native Sons have attempted anything in the past it has always proved to be a great success, and judging from the arrangements now being made for the twelfth annual ball, to be held in the Alexandra Club on November 17, it will be one of the grandest affairs of the season. Louis N. Curtis, one of the foremost orchestra leaders on the coast, has been engaged to furnish the music, while Prof. Nagel will play the extras. An excellent buffet supper under the personal supervision of Caterer James Robinson will be served all evening, and a special car service has been arranged to leave at 1 and 3 a. m. Tickets are now on sale and can be had from any member of the committee, or from the leading jewelry and other business houses in the city.

In ten years Italy has lost \$100,000,000 and grants to the United States alone.

## NEWS OF SPORT

### CALGARY WILL SEND ICE HOCKEY PLAYERS

Inter-Provincial and Inter-City Matches Promised by Amateur Teams This Season

Negotiations have been opened by the Calgary amateur ice hockey club for a trip to Victoria when Victoria has established its amateur ice hockey league this winter. The secretary of the Calgary league has written to the local management suggesting the trip and also of making it more productive for the fast sport by playing a match in Vancouver when on the coast.

With the ice rink completed and opened by the first of next month and four teams formed to play ice hockey in the Victoria amateur ice hockey league, the local players will want about a month in which to play into speed and form and will then, according to the experts who are looking after the interests of the game here, be ready to receive visitors on the ice and put up a good, hard game against them.

Christmas or early in the new year, it is figured, would be the best time for the visit of the Calgary team, and while the arrangements have reached the preliminary stage only the suggestion that Calgary would be very welcome here then has been made by letter to the secretary of the Calgary club.

Inter-city amateur games are possible between Victoria and Vancouver during the season, as Vancouver will most probably have its home amateur league. The suggestion is that from the leagues in Victoria and Vancouver two teams be selected to play against each other both in Victoria and Vancouver.

The ice rink will be completed by December 1st, after an outlay of close to \$50,000 has been spent. Seating ac-

### SCHOOL TEAMS TO PLAY IN VANCOUVER

Getting Players Into Form With Hockey and Rugby Practice Matches Saturday

December 2nd is the day on which the High school teams will play in Vancouver this season, being represented there by Rugby, basketball and girls' hockey teams in the regular inter-city High school annual matches, and a boys' hockey team may go also.

With the schools' championships ahead of them the boys' and girls' teams are out at practice, and for next Saturday have arranged matches for their girls' hockey team and for the Rugby team. The latter will play against the newly formed law students' team at Oak Bay park, and the girls' hockey team will meet the Victoria girls' hockey team.

The High school captains announce the following players as probably comprising the hockey and Rugby teams for next Saturday:  
Rugby—Full back, Ed. Steele; three-quarters, Newitt, Ames, Dickson and Toulby; halves, Warnicker and Clark; forwards, Sprinkling, Ross, Campbell, McDonald, Goodwin, Paul, Carter and McCallum.  
Hockey—Goal, Miss Finland; full backs, Miss Smith and Miss Wille; halves, Miss W. Grubb; Miss Madeline Nason and Miss C. Grubb; forwards, Miss Harman, Miss Sybil King, Miss K. Jackson, Miss S. Hardwick and Miss Erna Cassford.

Sporting news from Australia contains the account of a wonderful sprinting feat by Jack Donaldson, the champion pro. In a match over 120 yards against C. E. Holway, the American, Donaldson won by four yards in 12 seconds. To go 10 yards inside evens is something that has not been seen since the palmy days of Harry Hutchens. English critics think the distance was 120 yards, but the accounts from Sydney are somewhat different.

"Come Back" Jeffries is reported as saying he will back Wolgast to beat Welsh when these two fight 20 rounds at Vernon Thanksgiving Day, and that he will bet \$1,500 on his choice.

### BARTON WINS CUP THREE 200 SCORES

Owls Took Two in Three From Hawks—Strikers Meet Moose in Commercial League

Two out of three games went to the Owls from the Hawks last night at the Arcade bowling alleys, with Barton of the winning team high man, 193, and high total, 517.

Barton proved himself to be boss bowler in an exciting three-man contest that took place for the challenge cup.

The challenge cup scores were:  
Barton ..... 193 212 224 429  
Greaves ..... 159 165 189 413  
Kauntzman ..... 163 126 149 438

The scores of the teams in the Owls' victory over the Hawks are as follows:  
Owls ..... 1 2 3 Tl.  
Barton ..... 161 193 163 517  
Mellingner ..... 159 154 143 456  
Butts ..... 167 152 135 454  
Childs ..... 167 153 129 449  
Banner ..... 143 155 127 425  
818 821 721

Hawks ..... 1 2 3 Tl.  
Hall ..... 159 159 159 477  
Pirie ..... 157 171 164 492  
Murray ..... 155 162 142 459  
Ockerman ..... 131 161 297 589  
453 683 743

To-morrow night at 8 o'clock there is a match in the Commercial league at the Arcade alleys. The Strikers will play the Moose, the following players representing the clubs:  
Strikers—Barton, Kennedy, Butts, Mellingner, Kauntzman.  
Moose—Greaves, Brewster, Brooks, Ockerman, Aronson.

Classy football and hockey goods at the Victoria Sporting Goods Co., Pemberton Block, 1010 Broad St.

### NANAIMO NAMES ITS TEAM FOR SATURDAY

New Men on the Rugby Line—Up of the Coal City Fifteen to Meet Victoria

With what is practically a new line-up in the field the Nanaimo Rugby team is prepared to meet the Victoria Rugby team and holders of the McKechnie cup at the Nanaimo cricket ground on Saturday afternoon.

The match is the first one of the season in the provincial championship series. The team to represent Nanaimo is as follows:

Full back—D. Lazenby.  
Three-quarters—D. Hannay, J. Carruthers, J. H. Milburn, J. Docherty.  
Half backs—J. Bushby, T. Bennett.  
Forwards—A. Waring, J. Quinn, A. Watson, J. Watson, J. Todd, W. Koper, H. Bewley, P. Bruce.  
Reserve back—H. Humphreys.  
Reserve forwards—H. Todd, W. Wright.  
Referee—J. Patterson.

The Victoria fifteen should be known to-night, and there should be no doubt whatever as to the result of the game, for

the mainstay of the Victoria team is in condition because of the games in California. If the team that goes to Nanaimo is at all representative it should beat the coal miners.

### ONE HUNDRED JOIN THE SIDNEY CLUB

Ambitious Town Has Football Cup and Casts Eyes on Victoria Basketball Trophy

Sidney Athletic Club, recently formed, desires to join the Victoria basketball league and to take part in many of the athletic sports of the city. The secretary writes that application will be made to the basketball league for immediate membership, and gives full particulars of the progress of the club he represents, as follows:

There has been recently formed in Sidney an amateur athletic association, the avowed purpose being the encouragement of amateur athletics of all kinds, but particularly football (soccer) and basketball in winter and lacrosse and baseball in summer. This association has now a membership of nearly one hundred, and having secured a strong executive things look rosy in Sidney for amateur athletics.

The pavilion is leased from the V. & S. railway for basketball games and dances to be held under the auspices of this association. Hon. A. E. McPhillips, K. C., has kindly donated a cup for soccer, open to teams in the Island electoral district, which he represents in the legislature. Sidney has played several exhibition matches of soccer with results as follows:

At Sidney—Sidney 2, Garrison II. 6.  
At Sidney—Sidney 3, Garrison II. 3.  
At Garrison—Sidney 6, Garrison II. 3.  
At Sidney—Sidney 3, Ganges 4.  
At Ganges—Sidney 6, Ganges 2.

Also one exhibition basketball game with the C. and C. team, managed by F. Clark, the result being: Sidney 10, C. and C. 29.

Sidney hopes to enter a team in the Victoria and District basketball league intermediate series, and in the summer enter a lacrosse team and in soccer next fall in second division league.

The officers elected at the annual meeting are as follows: W. H. Warr, president; H. A. Dennis, vice-president; Sidney Roberts, treasurer; F. W. Anderson, manager and captain of the football team; F. W. Bowcott, vice-captain of the football team; W. Munro, captain of the basketball team; P. N. Lester, secretary. Committee, G. Morrison, D. North, W. Johns, Jack Roberts and A. J. Cantwell.

On Saturday afternoon the Garrison and the James Bay A. C. second eleven soccer teams will play at the Garrison.

### ELEVEN FOR SUNDAY SOCCER GAME CHOSEN

Strong Defence Awaits Attacks of Victoria Professional Forwards

The Nanaimo soccer club has prepared to receive the Victoria professional association team at Nanaimo on Sunday and play. The miners have selected their team which contains a strong defence and many of the men who appeared in the field last year. The team is as follows:

Goal—Shepherd.  
Backs—Hewitt and Murray.  
Half backs—R. Mossey, White and Young.  
Forwards—Waddle, Brown, Gibson, W. Mossey and Stubbart.  
Reserves—Killean (back), Mitchell and Plockhart (halves), Elliott and Lightfoot (forwards).

The Victoria team will be the same practically as that which played Cumberland here on Thanksgiving day. No changes have been announced and the team has been training to keep in condition. The selection of the eleven playing men to leave on the train Sunday morning will be made after the practice at the Royal park to-night.

### SPORT NOTES

The James Bay Athletic Association is sending a basketball team to Duncan on Saturday afternoon to play the Duncan team on Saturday night. The J. B. A. A. five are: Paulkner, Thomas, Roberts, Jones and Fleet.

The James Bay Athletic Club boxing bouts to be held November 28 will take place at the roller skating rink, where a ring is to be erected in the centre of the floor, and the seating disposed on all four sides. The bouts are for the amateur championships of Vancouver Island, and entry blanks can be obtained from H. Skuce, secretary of the J. B. A. A.

In the international Rugby game between B. C. and Stanford University on Saturday last, the collegians played a Chinese named Pung. Pung scored two of the four college goals.

Julie Streib is appointed manager of the Calgary ball team. The well known first baseman is starting in right away to sign up his players for next season.

Con Jones, the Vancouver professional sport promoter, may rescue the professional soccer league from oblivion, but not until after the present year. He figures to allow the amateurs full sway until December 1, 1911, and then secure his professional team for the B. C. series. It will mean drawing a new series commencing in January.

J. B. A. A. SOCCER TEAM

Which is making a strong run in the senior city series. Players, left to right, top row—Ismay, Pilkington, Sherriff, Sam Lorimer (capt.), Rothwell. Bottom row—Gerard, Dilger, Thomas, Lefevre, Allen, Matthews

## FIRE CHIEF DAVIS HAS A COMPLAINT

NEW FIRE HALLS NOT  
READY FOR OCCUPANCY

Something Wrong With Plumbing and Inspector Refuses to Pass Buildings

About two months ago the two new fire halls for the city of Victoria were to have been handed over in a completed condition to the fire chief for the installation of his fire fighters, but up to the present time they have not been delivered, and so far as can be seen they will not be delivered for some time to come on account of a hitch with the contractors. For several weeks the buildings have been completed but the plumbing inspector declined to pass the plumbing effects, with the result that the fire chief could not enter upon his occupancy of them. Negotiations were at once opened with the contractors to have the defects remedied but up to the present nothing has been done.

The new stations referred to are located on the corner of Cornwall street and Fairfield road, and on the corner of Cedar Hill road and Fernwood street respectively. They were contracted for several months ago at the request of the fire chief, who claimed that they were necessary to the full complement of fire apparatus in the city. It is his intention when the stations are completed to the satisfaction of the plumbing inspector, to allocate a combination hose machine and a chemical wagon to each of them, requiring the permanent services of three men at each station.

Chief Davis is naturally annoyed at the delay in the completion of the work. He shelves his own plans for the future and places him in a difficulty which should not have existed in the ordinary course of events.

In discussing his future plans with a Times representative this morning the chief expressed the hope that by next year the major part of his equipment would consist of motor power. He claims that with the experience which the city has already had of the new motor vehicles, the saving of time and the consequent reduction of risks is so palpable as to have escaped the notice of no one who has evinced the slightest interest in the service. Discussing the projected joint fire hall between the city and Oak Bay municipality Chief Davis pointed out the many advantages which such a station would undoubtedly afford. He also thought that the idea of having the new fire hall controlled by the city department would conduce to the best interest of both the shareholders.

One other matter which is engaging the attention of the chief at the present time is the urgent necessity of having the Smith's Hill reservoir put in a permanent state of repair at the earliest possible moment. Looked at from the point of security he claims that the work cannot be done too soon. It will mean an additional six or seven pounds pressure to him, and that in itself must be regarded as a laddable attainment. The question has another side, however, in the matter of insurance risks, and as this aspect of the case also reflects upon the fire department when extra appropriations are asked for it can easily be understood how anxious the chief is that the reservoir should be repaired at once irrespective of the cost.

It may be recalled that attempts have already been made to patch up the reservoir but the results so far have been futile and on that account expensive. The city engineer is undetermined to have the matter in hand and it is possible that a definite scheme of repairs will be placed before the council at an early meeting. Offers have been received by the council from one or two concerns but nothing has yet been done in regard to them.

### VICTORIAN WEDDED.

Mr. Darrell Kent of This City, Married Yesterday.

A marriage socially important in both Victoria and Vancouver, was solemnized at Christ church, Vancouver, yesterday afternoon, the parties being Miss J. Irene Mathe, niece of Mrs. W. R. Angus, 745 Bute street, and Mr. Darrell H. Kent, son of Mr. and Mrs. Herbert Kent of this city. The ceremony was performed by Rev. C. C. Owen, in the company of the immediate family and friends. The bride was given in marriage by Mr. W. R. Angus, and looked very charming in her traveling costume of brown cloth, with which she wore a large white hat surmounted by a willow plume of pink, and an exquisite set of white fox, her bridal bouquet was of white roses. Her only attendant was her cousin, Miss Muriel Angus, wearing a costume of cream silk with which she wore a picture hat of white, her flowers being pink carnations. Mr. A. N. Daykin was best man. The couple were the recipients of many beautiful and costly gifts. They will spend their honeymoon in Harrison, after which they will be at home to their friends at 509 Granville street.

Mr. and Mrs. Kent went over to Vancouver on Tuesday to attend the wedding of their son, Mr. Darrell Kent, and Miss J. Irene Mathe, which took place yesterday.

### OLD TRAGEDY REVEALED.

San Bernardino, Cal., Nov. 9.—A mystery of the old lawless days on the desert was unearthed yesterday by cowboys east of Bear Valley, who found the leg bones of a man, to which was tied a board bearing the words, engraved with a jack-knife: "This man died because he knew too much." The cowboys said the victim evidently had known too much of the operations of cattle rustlers and bullion thieves in the early days. No effort will be made by the authorities to unravel the mystery.

## RETURNS FROM MISSION TO ORIENT

London Journalist En Route Home From Special Embassy to Japan.

An experienced journalist, who has travelled widely, arrived on the Tamba Maru to-day in the person of William G. Sleeman, from a special mission to Japan, the nature of which he was reluctant to disclose.

Mr. Sleeman arrived on the Pacific coast some three months ago for the Illustrated London News, and while on the coast was asked to proceed to the Far East. He sailed accordingly from Seattle, and has spent a brief time in the Land of the Rising Sun, during which he witnessed a change of ministry in the Island Empire, and which he says considerably disorganized his plans. The new government of the Mikado promises considerable changes, and the reorganization of the naval and military expenditure of the country is one which will occupy a large share of notice under the new administration. The Japanese, he finds like the European powers, are feeling the burden of expenditure, and retrenchment is the order of the day.

Mr. Sleeman was greatly interested in the announcement made yesterday in the Times of the resignation of Mr. Hon. A. J. Balfour from the leadership of the Conservative opposition in the old country, and remarked that the history of the next few years in England would be greatly modified by the action of the Tariff Reform party, whose triumph this move undoubtedly was from their standpoint.

Mr. Sleeman proceeded to the Empress hotel, and will carry through a number of negotiations before returning to Europe.

## BUSINESS BEFORE COUNCIL TO-NIGHT

Building By-law Will Occupy Most Time—Bunch of Local Improvement Works

When the city council meets to-night its attention will be largely taken up with the consideration of the new building by-law, a resume of which appeared in the Times a day or two ago. So long and so important is the measure that it is not likely much other business will be discussed although a number of local improvement by-laws are also on the bulletin board to-day for treatment at to-night's meeting.

Ald. H. M. Fullerton has a number of resolutions on the board dealing with the desirability of installing the cluster lighting system on various sections of Government street and also on Courtney street. The sections on Government street mentioned in the respective resolutions are between Belleville and Superior streets, and between Superior and Michigan streets. Another resolution provides for similar treatment for Broughton street between Douglas and Quadra. In each instance provision is made for the laying of the necessary conduits for the telephone system so that when the telephone company starts in with the installation of its apparatus for the underground system it will not be necessary to tear up the thoroughfares again as has been done in one or two cases in the past.

Other local improvement works that will probably be considered are the concrete sidewalks on the north and south sides of Garbally road, resolutions dealing with which are already posted above the signature of Ald. Humber. Between Douglas street and Selkirk waters represents the distance to be "sidewalked". The grading, draining and paving of Hillside avenue from Bridge street to Government street may also be dealt with.

On account of the heavy snowfall during the night the construction work in the city, which has been finding daily employment for an army of several thousand men, had to be called off to-day, at least a large proportion of it. The severe gales were allowed to start as usual as that type of work is not affected in the same way as others. All the paving construction had to be stopped, however, until the snow was cleared away. In this connection it was pointed out that in the city of Winnipeg, where the snow is crisp and hard, the streets had only to be swept in order to facilitate the resumption of any kind of construction work, but of course in the city of Victoria, where the climatic conditions are so different, that sort of remedy is entirely out of the question.

### WOMAN TAKES POISON.

Seattle, Wash., Nov. 9.—Mrs. Leonore Eysler, 23 years old, took a large dose of cyanide of potassium and died at 11 o'clock last night before a doctor could reach her at her boarding house at 3562 Twenty-second avenue, Northwest. It was her second attempt at suicide during the day.

Mrs. Eysler's husband, who has an office in the People's Bank building, and a jeweler who travels a great deal, stated to-day that he had taken poison away from her yesterday and that she was despondent and threatened to kill herself. When he left home he thought he had dissuaded her from her purpose. Mrs. Eysler after writing four or five letters took a large dose of the cyanide and walked down stairs and said to her landlady that she had come down to die. Lying down on a couch she died before the arrival of a physician.

Adversity is but a dark flap of Time's wing as he passes.—Dr. H. H. H. H.

## BAD GALE BUFFETS VENTURE IN Q. C. S.

Brings South Survey Party From Bella Coola—Has Consignment of Salmon

After being battered about by a strong northeast gale, accompanied by a blinding rain, while crossing Queen Charlotte Sound on her southbound trip, the Roscovitz steamer Venture, Capt. Morehouse, arrived in port yesterday afternoon from Prince Rupert and other northern British Columbia points. When the vessel entered the Sound the wind was blowing strongly and the seas were running fairly high. Until the steamer was again within the land-locked waters she was buffeted about severely.

Although the season is getting late, the Venture brought south a full list of passengers. Her saloon accommodation was well filled and there were a large number of foreigners as second class. Among the saloon passengers was a party of provincial government surveyors, in charge of E. P. Colley and A. H. Barker, who have been working in the vicinity of Bella Coola for the past summer. Mrs. Goodwin, of this city, who has been visiting at Bella Coola, returned on the steamer.

Five thousand cases of salmon were brought by the Roscovitz steamer as cargo. The officers of the vessel state that nearly all the salmon that was packed at the canneries during the past season has been shipped south. All the valuable British Columbia fish that was canned has found a ready market, the Blue Funnel liners taking about 120,000 cases on every outward trip.

According to her schedule the Venture will clear for the north again to-night. Many passengers have been booked for the northern trip, and she will also have a fair cargo of freight.

### ACCUSED OF EMBEZZLEMENT.

Ketchikan, Nov. 9.—John W. Foulkes, assistant postmaster of Cordova, was arrested on the steamer Alameda, en route to Seattle, charged with embezzlement of \$4,000 of postoffice funds. An accounting at the time of a change of postmasters at Cordova brought the shortage to light.

Thomas A. Edison says he believed Professor Peln, of Germany, has solved the problem of using ebb and flow of tides for power purposes.

## Try Cuticura Soap and Ointment Free

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 25-page booklet on the care and treatment of skin and hair, will be sent, post-free, on application to Water Drug & Chem. Corp., Boston, U. S. A.

### ENDS HIS LIFE.

Tacoma, Nov. 9.—Leaving a sealed letter for his daughter, Miss Mabel Elmgreen, of Seattle, Peter Elmgreen, a well known Long Island branch farmer, shot himself yesterday in his room in a local hotel. He sent a bullet into his brain while reclining on the bed. No motive has been found for his killing himself. He was well supplied with money.

### CONCERT SINGER'S SUICIDE.

Boston, Nov. 9.—Leon S. Brinca, former concert singer of note, was found dead in bed at his lodgings at a hotel here to-day, having committed suicide by taking poison 12 or 15 hours earlier. He was 48 years of age. No reason for his act is known.

You can form a pretty good idea of what a man hasn't done by the things he is going to do.

### MISSED COOK'S HUMOR.

Our Danish friends lack a sense of humor. If they could not raise a laugh on Dr. Cook's reappearance at Copenhagen, at least as the champion faker of the age he deserved their respect. Everybody knows that he is a monumental fraud and an unblinking swindler. That is the only thing that makes him interesting.

The Danes missed one of the greatest opportunities for amusement ever offered

them when they hoisted Dr. Cook off the platform. If the Copenhagen audience had only looked at the matter in that light and been prepared to shoot with delight at Dr. Cook's Arctic jokes he would have helped them to pass one of the pleasantest hours in their existence.

It is not once in a century that a man arises who possesses so playful an imagination, such love of nature, and such magnificent brass. Their failure to treat Dr. Cook as he deserved to be treated reveals a serious defect in the character of the Danes.—New York World.

## Burnside Carline

Rails now being laid. Prices going to go up. Better buy now. Following a few offerings. All close to car line.

ALPHA STREET, 200 ft. frontage running to a corner. Price ..... \$1,550

HAMPTON STREET, 50x195 ..... \$800

MILLGROVE AVENUE, 50x177 ..... \$750

QU'APPELLE, corner Burnside, 57x135 ..... \$1,250

EMMA, corner Burnside, 48x130 ..... \$1,500

ORILLIA AVENUE, just off Burnside, 50x132 ..... \$750

IRMA, corner Burnside, 54x135 ..... \$1,400

BURNSIDE ROAD, half acre, close in ..... \$1,800

## Acreage

SEVEN ACRES, Wilkinson road, 10 minutes from car \$7,000

FIVE ACRES, Strawberry Vale, 10 minutes from car, unimproved ..... \$1,575

## R. V. Winch & Co., Ltd.

## SALVORS PREPARING TO FLOAT EMPRESS

Make First Attempt on Nov. 17, Favored With High Tide—Everything Ready

Everything is now being placed in readiness for the first attempt to float the wrecked steamship Empress of China, ashore on the Awa peninsula, according to word brought by the Nippon Yusen Kaisha liner, Tamba Maru, which reached port this morning from the Orient. On November 17 one of the highest tides of the year is expected, and the salvors will then try to pull the white liner into deep water.

Now that the typhoon season is over and along with the cessation of danger from these terrific storms the prevailing winds shift to the landward side the ship will not be exposed to heavy seas. With the difficulty of the big seas obviated, the wreckers will be able to work faster on blasting the channel in the rock through which the steamship will be taken when she is floated. The vessel rests on the rock from forward to about 40 feet aft on a fairly flat bottom, and with the reef blasted away, the cargo removed and temporary patches placed on the bottom which has been pierced in many places by the rocks, it is expected that she will float with her own buoyancy on the high tide.

The tide which the salvors expect on November 17 will be similar to the one on which the Empress struck. So high was the tide that the white liner cleared the two outer reefs before she was brought to a standstill by the rocks close to the shore. The ship's bulkheads are holding well and unless something unforeseen happens the salvors seem confident of floating the ship this month.

Notwithstanding the apparent early raising of the wreck the steamship Montague has been scheduled to take the Empress of China's sailings until the end of 1912 as after the steamer has been raised it is expected that there will be a long dry docking ahead of her before she is fitted for sea again. With so much of her hull on the rocks there must have been more or less injury to her plates and frames and they will have to be faired and repaired on the other side. That the vessel has remained intact after so much hard usage is taken as a glowing tribute to her staunch build.

## FILE CHARGES AT INQUIRY.

Inspectors Find Capt. Carter, of Iroquois, Guilty of Unskillful Navigation.

Seattle, Nov. 9.—As a result of the preliminary inquiry conducted by the Marine Inspectors B. B. Whitney and R. A. Turner, into the collision of the Iroquois and Multnomah in Elliot Bay October 27, charges were filed yesterday against both Captain Harry Carter of the Iroquois, and Captain J. M. Smith of the Multnomah. Captain Carter was charged with unskillful navigation in his handling of the Iroquois in the fog and Captain Smith was charged with failure to carry a lookout.

## SHIPPING INTELLIGENCE

Nov. 8.

San Francisco, Cal.—Arrived: Quinal, Barbara, Willapa; F. S. Loop, Columbia river; Commerce, Newcastle, Aus. Sailed: Lurline, Honolulu; Shasta, Tamalpais, George W. Elden, Astoria; Mayfair, Willapa.

Seattle, Wash.—Arrived: Victoria, Nome; City of Seattle, Skagway; Caracazo, San Francisco; Senator, San Francisco.

Melbourne.—Arrived (previously): Harpenack Castle, Tacoma.

Yokohama.—Arrived (previously): Inaba Maru, Seattle; Seattle Maru, Tacoma; Winnabago, San Francisco; Shamoneski.—Arrived: Strathlyon, Seattle.

Auckland.—Arrived: Queen Amelie, San Francisco.

Canada's fire losses during September is \$1,235,000, compared with \$200,000 for August, and \$94,125 for September, 1910.

## ENCOUNTERS SNOW STORM OFF BEALE

Tees Arrives in Port With Large Cargo of Salmon, Whale Oil and Fire Clay

With one of the largest cargoes she has ever brought from the west coast and a good passenger list, the C. P. R. steamer Tees, Capt. Gilliam, arrived in port early this morning from Hobe. Stowed in the holds of the vessel were 100 barrels of whale oil, 3,000 cases of salmon, which cleans up the pack at Clayoquot, and 100 tons of fire clay from Kyquoot.

Officers aboard the Tees state that when off Cape Beale last night they encountered a heavy snowstorm and a strong gale of wind. When she tied up at the outer docks this morning the steamer presented a beautiful sight, the snow being caught about her rigging, masts, decks and sides. The vessel was successful in avoiding most of the heavy weather which has been prevailing off the west coast. After leaving Kyquoot on her southbound trip she ran into a heavy southeast gale but it lasted only a short time.

One hundred and thirty-eight passengers were carried by the Tees, the greater majority of them being from the canneries, which have closed down for the season. H. C. Brewster, M.P.P., owner of the Clayoquot cannery, returned on the steamer. He reports a most successful pack at his cannery, which operated up to within a short time ago.

To-morrow night the Tees will sail for Clayoquot, making the short trip on her winter schedule.

## MUCH ANXIETY FELT FOR BRITISH BARQUE

Gulf Stream is Now Out 194 Days From Glasgow With General Cargo for Winch

Considerable anxiety is now being felt by shipping men at Victoria, Vancouver and Sound ports for the safety of the British barque Gulf Stream, Capt. Nicol, which is en route from Glasgow to Vancouver with general freight for R. V. Winch & Co. She is out 194 days and her passage is one of the slowest that has been made for several years. Reinsurance on the sailer is now fixed at fifteen per cent, and unless the vessel puts in an appearance very shortly this will soar higher.

Heavy weather has been reported as being prevalent on the Pacific from Cape Horn to Alaska for the past few months and many sailers have met with disaster. It is possible that the Gulf Stream has been battered about by the strong gales and consequently her slow passage. Only once during the trip has the barque been reported and that was on May 27 in the North Atlantic.

She cleared from Glasgow on April 29 and was expected to be here some time in September. The cargo being brought by the vessel consists of brick, cement and salt. Outward bound the Gulf Stream has been chartered to load a cargo of grain for the United Kingdom. The barque is well known on the Sound, having on several occasions brought cargoes from European ports.

The wireless station at Tatoosh should report the sailer heading her way into the Straits at any time, unless she has met with mishap during the voyage and is in some port in South America for repairs.

## CHARMER AGROUND.

Vancouver, Nov. 9.—The Charmer, out from Nanaimo and Comox, grounded on the north shore of the Narrows last night and was towed off by the Nanoose early this morning and proceeded. There was no damage done.

## MAKES PIES WITH SPERM OIL.

Chef of Arctic Whaler Substitutes It for Lard—Sailors Note Difference—Mutiny

San Francisco, Nov. 9.—Sperm oil is a poor substitute for lard when it comes to making pie crust. Seventeen sailors aboard the Arctic whaler Gayhead, recently arrived in San Francisco, state that while in the northern waters, Felix A. Flagg, a chef, attempted to pass out pies whose crusts were annointed with sperm oil and a mutiny resulted. It was while the crew was industriously engaged in bottling down blubber that the chef produced the pies that caused the sailors to balk.

## WIRELESS REPORTS

Nov. 9, 8 a.m.

Point Grey—Snowing; wind S. E.; 29.53; 24.

Cape Lazo—Overcast; wind west, light; 29.66; 23; sea smooth. Spoke Alameda at 1.30 a.m.; passed through Seymour Narrows at 12.30 a.m., southbound.

Tatoosh—Heavy snow; wind N. E.; 31 miles; 29.58; 29; sea rough. Out a 3-masted steam schooner at 4.45 a.m.; in, a 2-masted steamer at 5.05 a.m.; in, Tamba Maru, at 7 a.m.

Pachena—Snowing; wind S. E.; 29.28; 29; light swell.

Estevan—Cloudy; wind S. E.; 29.28; 27; heavy swell. Spoke U. S. S. revenue cutter Bear, hove to in strong south-east gale, position lat. 52.53 north, long. 131.45 west, 1,650 miles from Estevan.

Triangle—Snowing; wind N. W.; 8 miles; 29.90; 11; sea rough. Spoke La Touche in Queen Charlotte Sound at 7 p.m., southbound.

Ikedu—Snowing; wind north; blizzard 29.55; 16; sea rough.

Prince Rupert—Clear; calm; 29.92; 16; sea smooth. Quadra in harbor.

Dead Tree Point—Cloudy; wind N. W.; sea moderate.

## WEATHERS SEVERE STORM OFF COAST

TAMBA MARU TOSSED BY BAD HURRICANE

Received Wireless That Sado Maru Had Steering Gear Disabled

When two days out from this port the Nippon Yusen Kaisha liner Tamba Maru, which arrived at the outer docks this morning from Yokohama, encountered a hurricane with heavy snow falling at intervals. Capt. Noda, master of the vessel, stated that he was just congratulating himself on having been favored with such splendid weather during the passage, when the storm hurried itself upon the ship with great force. The wind was blowing from the west and the shipper estimated that it attained a velocity of over 70 miles an hour.

Tremendous seas were stirred up and the steamship labored heavily. The big combers, which Capt. Noda states were the largest he has ever seen, broke over the Tamba's bow and battered the iron work severely. Blinding snow fell and it was impossible to get the bow of the vessel from the bridge. Not until the morning did she escape the force of the storm. The steamship had an excellent run from Yokohama until she experienced the hurricane, there being only light winds and practically no sea.

Fortunately the Tamba Maru weathered the storm without sustaining any damage, but Capt. Noda states that last night he received a wireless from Capt. Richards of the Sado Maru, which left here on Tuesday afternoon, conveying the news that his vessel had been severely used by the storm. While in the teeth of the gale the steering gear of the Sado was disabled and for many hours the engineers labored to effect temporary repairs. She had to proceed at slow speed and as she had twin propellers the skipper was able to keep her head into the storm.

While the Tamba Maru was going up the Yangtze on a flood tide to Shanghai on her outward trip, she got across on the Tamba's stern struck the pontoons of the Old Ningpo wharf with such force that the struts were broken and the bridge between the pontoons and the wharf smashed, while another bridge and the lower pontoon was torn from its fastenings and sunk, one of the struts also being broken.

Among the passengers who came across on the Tamba Maru were the following: W. G. Sleeman, for Vancouver; Rev. and Mrs. J. C. Owen and family for Seattle; Mrs. J. D. Brock, Miss P. Marshall, for San Francisco; T. Mori, for Boston, and Dr. Burton Kreyer, for New York. As steerage there were for Victoria 29 Chinese and 22 Japanese, while for Seattle there were two Chinese and 46 Japanese.

The silk shipment aboard the Maru was small this trip, amounting to little over a quarter of a million dollars. About 300 tons of cargo was discharged here, including the following: Rice, 2,550 sacks; sugar, 1,150 sacks; tea, 127 chests; silk, 76 cases; shay, 450 packages, and general merchandise, 1,582 packages.

26	6.30	7.49	8.68	9.87	11.06	12.25	1.14	2.33	3.52	5.11	6.30
27	7.49	8.68	9.87	11.06	12.25	1.14	2.33	3.52	5.11	6.30	7.49
28	8.68	9.87	11.06	12.25	1.14	2.33	3.52	5.11	6.30	7.49	8.68
29	9.87	11.06	12.25	1.14	2.33	3.52	5.11	6.30	7.49	8.68	9.87
30	11.06	12.25	1.14	2.33	3.52	5.11	6.30	7.49	8.68	9.87	11.06

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 12 hours from midnight to midnight. The figures for height are in feet above low water from low water. The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

The time used is Pacific Standard for the 120th Meridian west. It is counted from 12 hours from midnight to midnight.

**W**E met a man the other day who was disgusted with Victoria—because he couldn't rent a house—he thought the whole community was conspiring to keep out the "newcomer."

We told him that his "viewpoint" was slightly off. Supposing he had been able to find an assortment of houses "to let," it is obvious that conditions in this city would be considerably less prosperous than they are.

If you are looking for a house to rent, we advise you to give up the idea and buy—don't waste any more time, but get busy—it doesn't require much money to secure a comfortable little home—just a small cash payment and the balance like rent.

We have some nice houses for sale, on easy terms. The following are samples we shall be pleased to show you at your convenience.

### Chambers Street

Within three-quarters of a mile of City Hall, new six roomed house, modern in every particular; \$1,000 cash, balance monthly. Price .....\$4,200

### Linden Avenue

Seven roomed house, a cosy home; modern; \$1,100 cash, balance to suit. Price .....\$5,100

### Asquith Street

Five room cottage, 50x110 lot; \$800 cash, \$15 monthly. Price...\$2,700

### Beacon Street

Close to Park, five room new cottage, lot 50x132 to lane. Terms \$1,750 cash, balance 3 years. Price \$5,250

### Vancouver Street

Eight roomed modern home, lot 50x120; \$2,000 cash, balance to suit. Price .....\$6,500

### Belcher Avenue

Six roomed new house; \$500 cash, balance as rent. Price .....\$3,200

And others

1201 Broad Street, Corner of View

## INSTRUCTION IN FRUIT-PACKING

Department of Agriculture Will  
Continue Schools for  
This Purpose

The department of agriculture, in accordance with its policy of education, will continue the fruit-packing schools as inaugurated two years ago and extended last winter. The five packing-schools, with a total attendance of one hundred and twenty pupils in the spring of 1910, grew to a total of thirty packing-schools, with a total attendance of three hundred and eighty-five pupils, in the spring of 1911. These schools proved very popular, and have undoubtedly filled a great need in the districts in which they were placed. The decision of the department to continue its previous policy and to extend the series of packing-schools to cover every district, will, it is expected, meet with the approval of fruit growers. It is hoped that this year schools will be placed in every fruit district of the province where a sufficient number of pupils can be secured.

The expert instructors who were secured for the previous years, we are glad to say will be in charge this year. A comparison of the class of instruction furnished here with that of Oregon and Washington, has demonstrated the efficiency for the purpose of meeting all modern competition in fruit packing. The standing and experience of the instructors secured, and the confidence reposed in them by the department of agriculture, guarantee to fruit growers the highest possible class of instruction.

Our policy of placing the local administration of the packing schools in the hands of a responsible local body, such as the Farmers' Institute, the Fruit Growers' Association, or the Board of Trade, has proved entirely satisfactory, and the same plan will be continued this year.

The department of agriculture provides the instructor, and pays his expenses. The department will also bear the cost of the packing paper, the fruit, and all other legitimate expenses except that of the secretarial work and of hall rent, which it has been found most satisfactory to leave to local arrangement.

The responsible organization in each case will be required to guarantee a minimum of twelve pupils, but not more than fifteen, with the proper qualifications, at a fee of three dollars each, to take the twelve lessons of two and a half hours a lesson, the school extending over one week. In a limited number of districts, a double packing school can be arranged for any in which the minimum guarantee will be twenty-four pupils, but not more than thirty for the same number of lessons. The guaranteeing organization will also arrange for and bear the expense of the hall, its heating and lighting.

The hall for fifteen pupils must be at least thirty feet by fifteen feet, and well lighted. It must be heated sufficiently to prevent chilling of the fingers of the packers, and to prevent freezing of the fruit at night.

The department will as far as possible, use local fruit, paying for the same the legitimate market price. About three boxes per pupil is necessary. The harder varieties, such as Ben Davis and Gano, are preferred. Fruit must be in good condition, but need not be graded, and none should run under 2 1/2 inches in diameter. Organizations should at once secure the necessary fruit, or, if none is now available, the department should be expressly notified, and will then procure same.

The instructor will bring with him the necessary packing tables and fruit paper. On his arrival, he should be met by some responsible person, who should provide him with all necessary information, so as to get the school under way without loss of time.

Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They may cause griping, nausea and other distressing after-effects, that are frequently health-destroying.

PERSONALLY RECOMMEND AND GUARANTEE REXALL ORDELS as the safest and most dependable remedy, which we know, for constipation and associated bowel disorders. We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Ordeles are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Ordeles commonly completely relieve constipation, except of course when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Three sizes of packages, 10 cents, 25 cents, and 50 cents. Remember, you can obtain Rexall Remedies in Victoria only at our store—The Rexall Store, D. E. Campbell, druggist, corner Fort and Douglas streets.

## PAYS TRIBUTE TO SCOTS IN AMERICA

U. S. Ambassador Says Their  
Vast Achievements Should  
Be Recognized

Mr. Whitelaw Reid, the United States ambassador to Great Britain, delivered an address before the Philosophical Institution of Edinburgh with its president, Lord Rosebery, in the chair, on "The Scot in America and the Ulster Scot." He dwelt particularly on what had been achieved in the New World by men of Scottish blood, and said it was full time that the Scot in America had proper recognition.

"Neither the Puritan nor the Cavalier went to America in resistance to tyranny," said Mr. Reid. "The Puritans who sought to resist tyranny stayed in England, in the army with Fairfax, while those who felt otherwise escaped to the colonies. The Cavaliers in the main left England for America, when the commonwealth army had defeated them."

"Neither the Puritan nor the Cavalier, when at liberty to work out his own ideals, established popular government in the New World, though the Puritans were much further from it than the Cavaliers. Under the Puritans no man could vote unless he was a church member and in good standing with the church authorities. Under the Cavaliers plenty may not have been so essential, but freedom from any debt for service was, and no man, even a white man, could vote without it."

Then, reviewing all the vast achievements of the Scot in the New World in all walks of life, Mr. Reid added: "Count, then, that enormous principle that lies between the Allegheny mountains and the Mississippi river as a Scottish conquest; and then turn to more recent conquests by individual Scotsmen. We have spoken of Robert Fulton, backed by Chancellor Livingston, as the pioneer steamboat builder. But there were two others, also of Scottish origin, in that field—William Henry

and Joseph Rumsey. The telegraph depends to-day, all over the world, on the inventions of Joseph Henry and S. F. B. Morse, both of Scottish origin.

"The telephone comes closer to you still, for Alexander Graham Bell was born in Edinburgh, while Thomas A. Edison's mother, Mary Elliott, was also of Scottish blood. So was Cyrus McCormick, who brought the wheat fields of the United States and Canada to your doors by the invention of his reaper. To that great list might well be added the man who built the first steamship to cross the Atlantic; and many of the leading railway builders and operators, from Strathcona and Mount Stephen, across the invisible border in Canada, and their efficient ally in New York, John S. Kennedy, to the managers of the greatest of eastern railways, the Pennsylvania, which has been almost continuously in the hands of men of Scottish blood—Thomas A. Scott, J. N. McCullough, James McCrea, Robert Pitcairn, Andrew Carnegie, Frank Thomson and A. J. Cassatt. In the same list may well be included great iron masters, from Grant, who built the first iron furnace west of the Alleghenies, and John Campbell, the Ohio Scot, who first used the hot blast in making pig iron, to Andrew Carnegie, in whose colossal operations the iron and steel manufacture seemed to culminate.

"The first fast printing presses were developed by Scott, Gordon and Campbell; the stereotype presses necessary to complete their usefulness came also from an inventor of Scottish blood; the first American newspaper, the News-Letter, was published in Boston by John Campbell; the first newspaper in the great territory northwest of the Ohio river, was published at Cincinnati by William Maxwell; the first religious newspaper was also started by a Scotsman of Chillicothe, Ohio, and, finally, the two most noted editors in the United States were James Gordon Bennett and Horace Greeley, the one a Scot, the other an Ulster Scot. One of them may be credited with the conception of the modern newspaper as a universal news gatherer, and the other, our later Franklin, as Whittier called him, with the most efficient use ever made of it in America for the popularization of noble political conceptions, their development in a triumphant political party and in the overthrow of human slavery.

"Let me close with a mere reference to the most kindly humorist and much loved of American authors. Diplomacy

**Knit-to-fit**

**Ladies Combination Suits**

Knit-to-fit combinations are the most perfect fitting garment on the market. They are hand made under our patented process by expert workmen, from the very best yarns, in cotton, lisle, wool, silk and wool, silk and lisle and all silk.

**The Knit-to-Fit Mfg. Co.,**  
Best Goods Specialists,  
322 PAPER AVENUE, - MONTREAL.

knows him as one of our earlier ministers to Spain; New York knows him best by Diedrich Knickerbocker, and Peter Stuyvesant, and the legend of Sleepy Hollow. He is still remembered, even in this land of great writers, and of the richest literature of modern times, as the author of the "Sketch Book" and of "Bracebridge Hall." Washington Irving was born in New York two years after his parents had arrived from Scotland.

"If these remarks, too tedious, I fear, and yet wholly inadequate, have not entirely failed of their purpose, they must have shown how greatly your own sons are responsible for the separation, for the War of Independence, for the constitution, for the administration of the government, for the anti-slavery movement and for the civil war. If you think of this work and of the record of the Republic, then I have at least dealt faithfully with you after the manner of your pulp and set your transgressions in order before you."

"If, as I venture to hope, you think well of our work, then I am here to acknowledge with gratitude our large indebtedness to the Scottish race and blood for its inspiration and its success. A popular song by your foremost

poet was merely our declaration and our constitution "writ large":

The rank is but the guinea stamp.  
The man's the gold, for a' that.  
Then let us pray that come it may,  
As come it will for a' that,  
That man to man the whole world o'er

Shall brothers be, for a' that.

"Since that time we have grown into a nation of ninety millions, beyond comparison the largest body of English speaking people in the world. We have not forgotten our origin or our obligations. In all parts of the continental Republic hearts still turn fondly to the old land, thrilling with pride in your past, and hope for your future, and joining with you in the familiar cry: 'Scotland forever!'"

# IMITATION IS NOT DUPLICATION

No one wants to do business on another's reputation unless that reputation is good. Therefore, the make of instrument having a renowned reputation that is universally revered is the only make that is aped. But as it addeth deformity to an ape to be so like a man, so the similitude of the imitation of the "Gibson" makes the imitation all the more deformed.

Different makes of instruments may be constructed of the same kind of material and brought into existence in a similar way.

But there is something about

## "GIBSON"

Mandolins, Mandolas, Mando-Cellos,  
Guitars and Harp-Guitars

that make them hard to imitate and impossible to duplicate.

Though the imitation were cheaper, if it fails to duplicate the matchless "Gibson," the rose by any other name" proves not to be the rose, nor does it "smell as sweet." Therefore, if your instrument be not the "Gibson," say not, "It is as good as the 'Gibson,'" for you may be talking to an intelligent person.

GIBSON INSTRUMENTS ARE USED AND ENDORSED BY  
THE WORLD'S MOST RENOWNED MUSICIANS

## SOCIAL AND PERSONAL

Hon. Price Ellison is in Vancouver on business.

Mr. G. C. Bradshaw is on a business trip to Vancouver.

Mr. J. H. Uihain is registered at the Carlton in Vancouver.

Dr. T. W. Jeffs of Vancouver, is a guest at the Dominion hotel.

Mr. E. B. McKay, ex-surveyor-general, has gone to Vancouver for a holiday.

R. L. Forrester has arrived at the Dominion hotel from Red Deer, Alberta.

Mrs. T. M. Jackson is staying at the Empress hotel from South Salt Spring Island.

Mr. and Mrs. J. B. Barbeau have arrived at the Empress hotel from Montreal.

Miss Marie George has returned from Seattle, where she has been entertained by friends.

P. C. Caswell has arrived in the city to visit friends here, and is staying at the Dominion hotel.

Mr. and Mrs. W. E. Walker (nee Kathleen Smith) are over from Vancouver on their honeymoon.

Mrs. J. Fisher Eby of Toronto, and Mrs. Musgrave Morris of Vancouver, are visitors at the Empress hotel.

Dr. Ernest Hall returned yesterday afternoon from Vancouver, where he had been since Monday on business.

Mr. and Mrs. S. Graham, Cloverdale avenue, have had as a guest during the past week Mr. J. Caesar, of Markdale, Ont.

Miss Ravenhill, of Shawnigan Lake, is the guest of Mrs. McNaughton, Vancouver. She will remain during the week.

Mr. and Mrs. H. Gillespie have left Vancouver en route to New York, England, and all the European cities of interest.

Mr. and Mrs. Herbert H. Winder of London, England, are visitors to the city, and are registered at the Empress hotel.

G. H. Barnard, M.P., left on the Princess Charlotte yesterday afternoon for Vancouver, en route to Ottawa to resume his sessional duties.

Mr. J. J. Randolph of New Westminster, is spending a few days in the city. Mr. Randolph is now connected with the New Westminster Columbian.

Hon. Henry Young, minister of education and acting premier, went over to Vancouver on the night boat to attend the trustees' convention and banquet.

Miss E. G. Taylor, of the China Inland Mission, has just arrived from Shanghai, and is at present with her brother, Mr. J. D. Taylor, M. P., at New Westminster.

Among the passengers sailing on the last Empress of Britain from Quebec were Miss T. Wyde, Mr. G. M. Audain and the Misses Audain and Miss L. A. Little, of Victoria.

Mr. C. S. Battle came over from Vancouver on a short business trip yesterday. He will leave in a few days for Mississippi to join Mrs. Battle. After a short visit in the south Mr. and Mrs. Battle intend to leave on an extended European trip.

Henry Rive, of the department of

agriculture, and George Heatherbell, of Colwood, have returned from a trip in connection with Farmers' Institute work in the Skeena district, where they have addressed a number of meetings. The former spoke on soils and green crops, the latter on fruit growing prospects. Both are favorably impressed with the valley, and consider it suitable for certain classes of agriculture.

A quiet wedding was solemnized in the Andrew's Presbyterian church on Wednesday. The contracting parties were Florence, younger daughter of F. B. Merton of this city, and Arthur Chapman of Vancouver. Rev. W. Leslie Clay officiated. Miss Edith Palmer assisted the bride, while Mr. A. Campbell of Vancouver, ably supported the groom. The happy couple left on the Sound boat for Seattle, en route to Southern California.

Owing to domestic reasons, Lieut. Colonel Currie will be unable to undertake the visit to Ottawa to attend the militia conference called for next Thursday. Hon. Col. Hughes, minister of militia, while in Victoria, invited the commanding officer of the Fifth Regiment to participate with other selected officers in this conference, which will be held on the minister's return to the national capital, but from the above cause the colonel is unable to attend.

Mr. C. S. Battle came over from Vancouver on a short business trip yesterday. He will leave in a few days for Mississippi to join Mrs. Battle. After a short visit in the south Mr. and Mrs. Battle intend to leave on an extended European trip.

## The Evening Chit-Chat By Ruth Cameron

"God broke our years to hours and days.  
That hour by hour and day by day,  
Just going on a little way,  
We might be able all along  
To keep quite strong."

—George Klingie.

The older I grow, the more I am surprised and impressed by finding how wonderfully things straighten out if only you give them time.

We were coming home from a long walk the other day and I was very tired. At a turn in the road, there stretched before us a long, steep hill. The sight of it appalled me. "I am so tired," I fretted. "How can I ever climb that hill?"

"Wait," said my companion, "don't look at it now, but wait until you are really climbing it—then see how much less of a hill it is than it looks now."

He was right. Half way up the hill I paused and looked behind me—I could hardly see that there was any slope at all.

Aren't all hills that way—even the steepest? They seem appalling when you approach them, but pause half way up and look about you—why, is there really any slope at all?

And over and over again, I've found that the hills of life are just the same. Over and over again, life has taught me that if I will not try to climb the hill before I get to it; if I will not strive to dispose of the difficult problem, the unpleasant complication, the intricate task before I can do anything other than fret about it, I will find my path comparatively even and simple.

You know how very differently things seem in the middle of the night—when, as they do, in the morning. You wake up in the night, think of your trouble, and it seems quite big enough to engulf all your future happiness. You are sure that there is no possible way in which things can turn out happily.

Then you finally fret yourself to sleep, and when you wake up in the morning you think about that same worry and how very tiny and foolish it looks. You are sure there isn't one chance in a thousand but that it will come out happily and you wonder how you should have fretted about it.

Well, now it seems to me that every life must have middle of the night moods when we get a very disproportionate idea of our troubles.

That's true for all of us.

But wise people—people who really learn something as they go along—never let themselves forget that the middle of the night mood does see things disproportionately and always manage to remember that pretty soon morning will come, when they will see things in a different light.

Truly, it's wonderful how things will straighten out if you give them time, how gentle the slope will seem when you are actually climbing it, and how beautifully simple the night's puzzle will seem in the morning.

Remember—"We are never without a pilot. When we know not how to steer and dare not hoist a sail we can always drift; the current knows the way though we do not."—Emerson.

Ruth Cameron

FOLDER FOR IRONING.

Turns Neat Hem in Cloth as Iron Passes Over It.

It took two Iowa men to design the little implement produced here, but they turned out a clever device. It is a cloth folder for ironing, and will turn either one or two hems in a piece of cloth as the iron passes over the goods and smooths it down. A small piece of metal, narrower at one end, has its sides turned under to form grooves. The forward end has a seat on which the back of the iron rests,

and the rear end has a tongue turned down through the centre to act as a guide. This will either fold one edge of a large piece of cloth or both edges of a narrow strip. In either instance the iron passes over the cloth as it is turned down and presses it flat. Where cloth is folded by hand it is impossible to obtain the accurate edge given by this little implement, and the work takes a great deal longer to accomplish.

Ordinary house flies cost annually six thousand lives and an economic loss of \$18,000,000 in California alone, according to a report issued by the University of California.

# The Turns of Fashion's Wheel

*Fringe Edges & Triple Skirt*

EVER changing, and yet bringing to the top revivals of old styles, modifications of favorite modes and alliances of modish ideas that have survived from the last season, fashion's wheel turns. Let it be added that the wheel has turned in circles that favor lovely woman at all hours of the day.

Let us look at the features that have been emphasized in the season's fashions. For evening there is a beautiful gown of satin and lace. A bolero effect of lace is edged in front with ball fringe. There is a crossed fichu line in back, one side ending in a long court train, which is square. A pleating of net edges the skirt. With this is worn the new headpiece of metallic thread and beads suggesting a Dutch bandeau.

Back again in the field of fashion has come the quilting, or ruching, of silk. It edges the skirt above the broad hem. This is of frayed satin, laid in double box-pleats and caught down to the center line of stitching, just as your mother used to make it. This is a particularly favored trimming on sleeves, the top of a bodice and the skirt. It is easily made and effective. Notice the bunch of flowers that holds down the folds of the bodice.

*Silk Ruching on the Skirt*

*The Lace Court Trains*

This, or a large single flower, is an insistent note on evening gowns.

Do not forget the single rever in the separate blouse. This may be of satin, or mousseline, or chiffon; it may be of contrasting shades, stripes and plaids being greatly favored. But it is here, helping designers to carry out the one-sided effect that is a feature of the season.

The triple skirt has returned. It is nothing, but a variation of the tunic idea; but it is here and is especially good for a tall woman. It is edged with silk fringe—the feature of the season's decoration.

As a modification of the sailor collar idea, there is shown a deep collar, rounded to be strictly in turn and piped with buttons. This type of collar is shown on suits, wraps, coats and all kinds of gowns. It is easily constructed and effective. While looking at this model, observe the puffed sleeve that is inserted in the kimono shape. Yes, the fullness is returning slowly but surely.

The tale of the tunic has been continued from last year, but the up-to-date woman wears her tunic with a difference. Today it must be slashed, so that the effect of an overskirt is given. In the little dance frock suitable for a young girl the pale cream-colored marquisette is draped over yellow satin. The fichu is fringed and embroidered and the tunic is similarly decorated. A high line is shown, emphasizing the empire modes.

A sweeping glance over these turns of fashion will bring to your mind the wide field from which you can choose. All periods have been favored, the Louis rever being just as prominent as grandmother's fringe or Marie Antoinette's fichu. It is the clever woman who is cognizant of her own lines who will stop the wheel in its turning when her own becoming mode is on top.

*The Tunic is Slashed*

*A Single Rever for a Blouse*

*The New Deep Round Collar*

## THE PRICE WE PAY FOR HURRY

### HEAVY TOLL OF LIFE IN RAILWAY ACCIDENTS

Strong Advocacy of Protective Legislation Urged by Monetary Times

We take pride in the wealth of our natural resources, our general development, the enterprise of our people and the extent of their prosperity. We boast of our time-saving methods, rapidity of action and of our American hustle. We observe John Bull plodding along slowly, apparently doing business in double the time it takes us to do it. We give a sly wink, meanwhile sending out sensational stories of how we build towns in a week, bridges in a month, large buildings in fifteen weeks; how we move structures a mile or so without disturbing business and how we lay rails for the locomotive at a wonderful speed. In short, we are speedsters and we are proud to be first-class exponents of that North American art, hustle. What price do we pay for the boast? Here at a glance is a section of the bill of cost:

In four years—killed by	Persons
Steam railways	2,049
Electric railways	301
Industrial accidents	5,296
Fires	1,072
Total	8,718
Injured by	
Steam railways	7,344
Electric railways	8,296
Industrial accidents	10,444
Fires (estimated)	1,908
Total	27,992
Grand total	36,710

In the past four years there have been killed and injured in Canada 45,428 persons on our railways, by industrial accidents and by fires. This is at the rate of 11,357 per annum. In other words, every day during that period 6 persons have been killed and 19 injured, about one killed or injured every hour of the twenty-four. This appalling record, too, applies to only the few causes mentioned. If statistics could be obtained of all fatalities and injuries in the Dominion, the bill of cost would have still more serious appearance.

Many, if not the majority, of these accidents can be traced to carelessness, thoughtlessness or selfishness. The desire to achieve big results in the shortest possible time at the expense of efficiency is a national trait which the country may well take immediate steps to obliterate. The evil of dollar and dividend hunting, regardless of destruction in its wake, is a menace to Canada's progress and credit. The basis of civilization is the proper respect for life and property. We in this country have by no means sufficient regard for either. The fact is noted by the capitalists and investor abroad and we suffer thereby and will do so to a greater extent, if early improvement is not made.

The national spirit of carelessness is vividly portrayed in the fire waste. In the past 32 months Canadian property has been burned to the value of \$57,880,678. This year's losses to date have been at the rate of \$44 a minute. In addition lives lost in fires in four years have numbered 1,072.

Railway accidents account for great loss of life. "Making up lost time," is responsible for many. But the stage apparently has not been reached where we would prefer to arrive at our destination two hours late and alive, rather than on time and dead. Col-

## Back to Nature for a Cure

Nature is the greatest doctor on earth. When she can't cure it is because she needs aid. Now, most people have an idea that this aid is drugs, and when they get sick or suffer from pain of any kind they proceed to dose their stomachs with the stuff that is sold for medicine. That doesn't help any; in fact, it does a great deal of harm. The dose that you put into your stomach is poison and poison weakens the organs and nerves of your body. What nature needs is electricity. When your stomach, kidneys, liver or digestive organs get out of order it is because they lack the necessary electricity to enable them to perform their regular functions. The breaking down of one of these organs nearly always causes other trouble. Nature can't cure them, because your body hasn't enough electricity to do the work, so you must assist nature by restoring the electricity where it is needed.

August 11, 1911.  
"Am entering third month in using Electro-Vigor and can say that it has almost made a new man of me. As I told you before, I am a very hard working man and at my time of life cannot expect to be the same as in my youth."

"Am entering my 43rd year, and can say I am a better man today than many a man of 25. Yours sincerely, P. Sherwood, Ashcroft, B. C." Electro-Vigor does this while you sleep. It saturates the nerves with its glowing power, and these conduct the force to every organ and tissue of your body, restoring health and giving strength to every part that is weak.

Electro-Vigor is not an electric belt. It is a dry-cell body battery, and it makes its own power.

## TERRIBLE HEADACHES

Trenton Merchant Drien to Despair by the Pain

'FRUIT-A-TIVES' CURED HIM

Trenton, Ont. Jan. 29th, 1909.  
"I was a dreadful sufferer for many years from Stomach and Liver Trouble—but my greatest suffering was from violent headaches. They were so distressing that I almost had to give up my business. I went to Toronto, consulted specialists and wore glasses, but nothing did me any good and the headaches became intolerable. I was then induced to try 'Fruit-a-tives' and from the beginning I was better, and in a short time I was quite well again—no more headaches and I threw my glasses away."

"Fruit-a-tives" not only cured my headaches, but completely cured me of all indigestion, and restored me to perfect health again."  
W. J. COMB.

"Fruit-a-tives" is the greatest cure for headaches in the world and is the only medicine made of fruit juices. It is a natural food, and is safe for all ages. It is sold in bottles of 50c and \$1.00. At all druggists or from Fruit-a-tives Limited, Ottawa.

Illness, derailments and parting of trains were responsible in four years for 894 killed and injured. In three years 190 persons were killed and 201 injured at highway crossings. During the past 23 years, 7,353 persons have been killed and 25,658 injured on Canadian steam railways. Analyzing the statistics of industrial accidents in the latest published report, under the heading of mining, it is found that explosions caused over 25 per cent. of the deaths and over 20 per cent. of the injuries. Falls accounted for nearly all of the deaths and over 60 per cent. of the injuries in the building trades. Among unskilled laborers, 21 men were killed by being run over by vehicles and 17 by falling material, and 53 were injured in a similar way. An alarming increase has occurred in the number of fatalities among workmen engaged in the handling of explosives. This summer, too, there were 63 drownings in the Lachine Canal. "The chief danger," says a civic official noting the fact, "is in the canal with its deep drop from the banks, making rescue difficult, and it seems advisable to have a railing along those parts of the canal where people most frequently go. The water is so shallow that they will not be so liable to tumble into the water." Sixty-three drownings, before a rail was suggested! Such records can be found in any part of the country.

The writer heard an engineer admit that a certain structure, which had been criticized, "might fall in three years' time," with possibly serious loss of life. Railroad contractors were laying new steel recently at a record-breaking pace, while a big crack in the concrete abutment of a bridge was allowed to wait, despite the fact that work trains used the bridge daily. Carelessness with live wires, reckless driving of automobiles—in a thousand ways we violate the first principles of a civilized community.

The reasons for the existence of such conditions are due largely to individual, corporate and legislative carelessness. We need better laws for the protection of life and property and the strict enforcement of such laws. If the Imperial Board of Trade, for instance, had to deal with the question of our railroad fatalities, as they do in Great Britain, their action for reform would be drastic enough to startle us in no slight degree. We can therefore afford to emulate John Bull in his thoroughness of work and his regard for life. His action, his results are better, safer and more durable than ours. American hustle takes the vitality out of the nation and in more senses than one—Monetary Times editorial.

## HANKOW ALMOST WIPED OUT BY FIRE

Hundreds of Persons Reported to Have Perished—Thousands Destitute

Hankow, Nov. 5 (Via Wu Hu).—More than two-thirds of the city of Hankow has been destroyed by fire. The lowest estimate of the loss is \$50,000,000. Four hundred thousand are destitute. Hundreds of half-burned bodies, many of them those of women and children, lie among the ruins. The custom house, the post office and the American missions have been spared.

The city has been looted, the imperialist taking a hand in the pillage, a number of soldiers. Refugees were deprived of their loot on entering the British consular compound, and valuable furs, silks and jewelry being seized. It is suggested that the Red Cross receive the proceeds.

On Friday afternoon the consuls appealed to the imperialists to cease burning the town. A proclamation, issued immediately, declared that the rebels were responsible for the fires. The following day new fires started in various quarters. The David Hill memorial school for the blind, connected with the Wesleyan mission, has been looted, while in contrast, all the mission property in Wu Chang, which is held by the insurgents, has been protected.

The November 3 there was considerable gunnery practice, beginning before daylight. The imperialist battery behind Hankow moved to the southwest in belated fulfillment of the promise to shift the lines of fire from the concessions. This battery and another started on the plains engaged in a heavy duel with those on Han Yang hill. The Wu Chang fort used the same ammunition in the defense of Han Yang. Riflemen on opposite sides of the Han river fought all day Saturday, and there has been similar fighting to-day, but steadily decreasing in volume. There is much open revolutionary talk among the imperialists.

A thousand revolutionary soldiers from Hunan reached Wu Hu yesterday. At Ichang and other river ports republicans are collecting the custom receipts.

Consular reports from Ichang say refugees from Chung King, in Szechuen province, are bound tighter. Secret societies, it is reported, are gaining control in Szechuen. The mobs of Kiu Kang are violent.

The revolutionaries commandeered a British tug which was proceeding up river with two lighters of coal, which it was suspected was destined for Admiral Sals' fleet. A British gunboat made a demand for the captured boats, which were afterwards restored to the revolutionaries. Two thousand trained soldiers have arrived from the Ho Yang district in Kiang Si. A night or two ago the forts sank an imperialist gunboat which was seeking to pass down the river.

To Aid Sufferers.—The Japanese war office gave permission to-day for a special corps of Japanese Red Cross workers to go to Hankow. They will start next Sunday.

## INDUSTRIAL COUNCIL

First Meeting Held in London—Its Operations Explained.

The first meeting of the new Industrial Council, formed as a result of the recent labor dispute, was held recently at the Board of Trade, London. The proceedings were held in private; but an official report was afterwards issued. Mr. Buxton, president of the Board of Trade, addressing the members, said: We do not force our services. The time and method of action are carefully chosen. We endeavor to come in at the psychological moment. One disadvantage of the existing system is that it brings the parliamentary head of the Board of Trade, who is necessarily a politician and a member of the government, into disputes and contention which ought to be purely industrial. If the action of the department could be still further removed from the suspicion of politics it would give even greater confidence. The president cannot dissociate himself from all responsibility, and in certain circumstances the government may have to intervene as a last resort. But such cases will be few and far between. I am creating a special department, under the direction of Sir George Asquith through which the existing Board of Trade powers of conciliation and arbitration will in future be exercised.

There is no intention on the part of the government to interfere with any voluntary arrangements for conciliation or arbitration. The Industrial Council and the new department will supplement and supplant such arrangements. There will be no compulsion on either side to submit their case to the council or to accept its advice or its decisions. But what we believe is that before a stoppage of work takes place the case should be submitted for examination and advice. The chief criticism that I have seen in regard to the composition of the council is that it represents too much the interests of the employers on the one hand and of the workmen on the other, and that it ignores the interests of the public. In our opinion the interests of the public in a matter of this sort are intended to be guarded, and are guarded by the Board of Trade and by the chairman of the council.

It was decided to hold periodic meetings in February, June and November, and such other meetings as might be necessary. Except in very special cases the meetings will be private and confidential. When questions are referred to the council they will be treated as if they were acting in a judicial capacity, and not as advocates.

Wife—What a darling you are to admit that you are in the wrong. Hubby—Yes; my mother taught me that it was easier in the long run to give in to a woman than to argue.

## MAKING OF MONEY.

Year's Work at the Royal Mint—Demand for Gold Coin.

The deputy-master of the Royal Mint in London, in his report for the year 1910, says over 122 millions of Imperial coins were struck during the year, that number having been exceeded only in 1907, when the large coinage of bronze raised the figures to over 128½ millions. The coinage in the precious metals during 1910 considerably exceeded that of any previous year. The demand for gold resulted in a coinage of over 27 million pieces, or nearly five million in excess of the coinage of 1907. Nearly 52 million silver pieces were coined, or eleven millions more than in the previous year. The bronze coinage consisting of nearly 43 million pieces, although large, has been exceeded on several occasions. The volume of Imperial coinage rendered it impossible to meet all Colonial requirements during the year, and rather less than usual—about 3½ million pieces—were struck. Nearly 152 million pieces were struck, all amounting in currency to over £28,000,000.

The issue in each of the three Imperial coinage metals exceeded the average of the previous ten years, in the case of gold and silver being more than double. The rapid increase in the demand for gold coin in recent years resulted in an issue during 1910 of over £25,000,000, exceeding by over £4,000,000 the issue of 1907, when the financial disturbances led to unusually heavy demands in this metal. The large silver issues were due to concurrent home and Colonial demands, notably for West Africa, which absorbed more than a million pounds of new silver in the year. The issue of bronze coin, which shows an increase of nearly £30,000 over the previous year, brings the total issue in Imperial coin for 1910 to the unprecedented figure of nearly £28,000,000.

Gold Bullion.—5,767,633 ounces, of the value of £22,224,116 12s. 7d., was imported into the mint for coinage. The value of the light gold coin received for coinage was £2,700,000, and its weight 65,978 ounces. Gold coins of the United States of the weight of 51.219 ounces and of the value of £1,938,738 15s. 2d. were also received for conversion into sterling. The gold coinage issued during the year: Sovereigns, £22,800,000; half-sovereigns, £2,500,000; exclusive of Maundy money amounting to £60. The issue of silver totalled £2,520,531, and included one five-shilling piece struck in 1902 and issued for special purposes; half-crowns to a total value of £340,470; florins to the value of £516,426; shillings to the value of £306,259; and three-penny pieces to the value of £61,701.

Of bronze coins there were issued 28,270,000 pieces, having a weight of 272½ tons, and a value of £121,976, 11s. 7d. 400 halfpennies, weighing 65½ tons and having a value of £24,530; and 4,759,920 farthings, weighing 13½ tons and having a value of £4,952. The total weight of the 4,801,120 bronze pieces was 361½ tons, and the total value £131,462.

## REVIVING IRELAND.

Professor Gaudes recently delivered an inaugural address on "Civics and its Demands on Economics" to the Edinburgh University. The lecturer began with a brief description of some of the provincial towns of Ireland which he had lately visited in connection with the approaching surveys of the Town Planning Exhibition, and said Ireland had fair before many years not only to have prosperous agricultural communities, each with its spacious old-world nucleus and its cottages around. In Scotland, however, the industrial age had largely heaped up its evils of congested tenements and debasing slums, with the results, not only of an impotence, vice, and crime, of which the notorious statistics so tragically exceed those of Ireland, but also a web of deteriorative conditions far more difficult to clear away. Still, the task must be attempted. A new industrial age was now opening, characterized by electricity, skill, and science, by intensive agriculture and forestry, by hygiene, and by a technical and higher education, inspired by civic ideals more than by individual gain.

Tokio, Nov. 9.—The Japanese war office gave permission to-day for a special corps of Japanese Red Cross workers to go to Hankow. They will start next Sunday.

## PROMINENT RAILROAD MAN

STRONGLY ADVISES HIS FRIENDS TO TRY GIN PILLS FOR THE KIDNEYS

"I have been a Pullman Conductor on the C. P. R. and Michigan Central during the last three years. About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for gravel in the bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after

having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try Gin Pills which I did, with the result that the pains left me entirely.

## NATIONAL RESERVE.

The British war office recently announced that with a view to furthering the National Reserve movement in London, a meeting has been held at the war office, which the Lord Mayor and Borough Mayors were invited to attend. Lord Roberts was also present.

Lord Haldane said the object of the National Reserve was not to form a third line force behind the regular army and territorial force, but rather a reservoir of patriotic veterans, all anxious to do something for their country. Men who were prepared to undertake a definite liability for service were offered the opportunity of coming in as additions to the territorial force reserve and special reserve. They would then obtain arms, ammunition, and opportunities for training. He believed there were men fit for active service, but unable to undertake any definite liability in time of peace, older men capable of rendering efficient service, and lastly veterans who would be a powerful influence for good. It was intended to establish a register to enable all this material to be classified, so that the number and names of men available for secondary campaign purposes would be known. He hoped it would be possible to start the borough organizations and form borough companies or even battalions, not as organized military units, but to bring together and classify the national reserve.

Speeches were made by several mayors, emphasis being laid upon the expenses of the organization and registration, the need for headquarters and clubs, and the issue of rifles and ammunition. Lord Haldane explained generally what the war office were disposed to grant in this respect, and hoped it would be possible to arrange with the county associations for the use by the National Reserve of territorial buildings.

After Lord Roberts had spoken, Lord Haldane said he thought the meeting represented another forward stage in the organization of the force, which augured well for the success of the National Reserve.

## LIQUOR ACT, 1910

NOTICE is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for renewal of the hotel licence to sell liquor by retail in the hotel known as the Strathcona Hotel, situate at Shawinigan Lake, in the Province of British Columbia.

Dated this 29th day of October, 1911.  
LOUIS LUCAS  
JOHN P. SWEENEY  
Applicants.

## LIQUOR ACT, 1910.

NOTICE is hereby given that I intend to apply to the Board of Licensing Commissioners of the City of Victoria, B. C., at the next Sittings thereof, for a transfer of the Retail Liquor Licence in respect of the premises known as the "Auto" Saloon, situate at 2913 Douglas Street, in the City of Victoria, B. C., from the undersigned to John Fisher.

Dated at Victoria, B. C., the 19th day of October, 1911.  
DOLLY AMELIA WALLIS,  
Applicant.

## LIQUOR ACT, 1910.

Notice is hereby given that on the first day of December next application will be made to the Superintendent of Provincial Police for renewal of the hotel licence to sell liquor by retail at the premises known as the Gorge Hotel, Tillikum Road, Esquimalt District, in the Province of British Columbia.

E. MARSHALL,  
Applicant.  
Dated this 14th day of October, 1911.

## LIQUOR ACT, 1910.

NOTICE is hereby given that I intend to apply to the Board of Licensing Commissioners of the City of Victoria, B. C., at the next Sittings thereof, for a transfer of the Retail Liquor Licence in respect of the premises known as "William Harrison" Saloon, situate at No. 104 Douglas Street, in the City of Victoria aforesaid, from the undersigned to Jason Graham, and from the said premises to Prince George Hotel, situate at the Southwest corner of Douglas and Pandora Streets, in the City of Victoria aforesaid.

ROBERT HARRISON,  
H. CATHART,  
Executors of Estate of William Harrison, Deceased.  
Applicants.

**WILSON'S INVALIDS' PORT**

(A la Quina du Pérou)

possesses wonderful reconstructive qualities as a tonic and tissue builder. Many physicians strongly urge its use for the debility which follows maternity and also for nursing mothers. It is positively free from anything of an injurious nature and can be used with perfect safety even for a small child as long as directions are followed.

You can safeguard the children against croup and colds by always keeping Wilson's Invalids' Port at hand. It is pleasant to the taste and its ingredients are of proven value for throat and lung troubles. It is wonderfully successful in the prevention of croup, whooping cough and other fatal diseases of the children.

Always have Wilson's Invalids' Port in the house. In the hour of emergency, when coughs and colds seize your child, you will be glad you have followed this advice.

Dr. J. F. MACAULAY, C.M., Grand Master, N. B., says: "I used 'Wilson's Invalids' Port' in my own family, my wife being very weak and anemic with no appetite, following maternity, and was highly pleased with results. I gave her in all three bottles. I have since prescribed it in about a half dozen cases. Especially beneficial in your wife in convalescence from severe La Grippe cases. I would consider it an excellent tonic wine, mild and palatable."

## MONSIEUR BOURASSA ON NATIONALISM

French Leader Savely Modifies Rabid Views Addressing English Canadians

For Henri Bourassa to advance his nationalistic arguments before a crowd of French-Canadians is a different matter to standing before a roomful of young men born in England and Scotland, the majority of them immigrants by birth, whose blood courses at the mere suggestion of Britain's waning power in Canada; but the latter was the Nationalist leader's position last night when he essayed to address the Nomads' Club, in the Edinburgh cafe, Montreal, on Canadian Nationalism.

He spoke for two hours. Beginning by showing that strong bond of friendship — not necessarily of friendship — between the English and French, then repudiating the notion that the Nationalists had appealed to racial or religious sentiment, Mr. Bourassa met first with a cold, frigid attentiveness, gradually won the hearts of the audience, and taking advantage of this, declared openly his little concern for questions of flag, but the determination of Nationalists to have a say in the policy of Great Britain.

What he said came as a shock to the audience because of its contradictions to the charges laid against Mr. Bourassa and his followers since they commenced to propagate their ideas, and, in fact, speaker in the audience afterwards declared that what Mr. Bourassa said to his fellow Frenchmen differed from his utterances ex cathedra.

At the outset of his remarks, the speaker spoke of the glorious fact that Canada was composed of a nation not moulded into one way of thinking, but composed of two different races, which had contributed to the welfare and the mankind in civilization. Having dwelt on the different causes which led to the present state of fusion between the two races, the speaker maintained that idealists who were practical men should take into consideration one fact, that in Canada both French and English civilization were there to stay.

Mr. Bourassa proceeded to clear the ground of a few preconceptions which he said were in the minds of the average Canadian towards the Nationalists. They did not want to form a party and as long as he had anything to do with the party he would not allow it. He thought the political party system was not perfect and was itself only an accident in British politics. He wanted to create a movement of opinion broad enough to appeal to and to foster every national asset that Canada had.

He said: "We base our movement on this foundation that the best way for Canada to become a nation within the British Empire will be by going on in the form in which it was founded."

They wished to seek the largest amount of autonomy for the city within the province and the province within the Dominion and for the Dominion within the Empire, but while they did that they wished also to safeguard its form, which was that the autonomy of the city should not interfere with that of the province, and that of the province with the Dominion, nor that of the Dominion with the Empire.

For the last few years Mr. Bourassa said that the English people had only that part of the movement as related to the race and religious question, and that the legend had thus been created that the Nationalist movement was one of race and religion, and had for its object the isolation of the French race in the Dominion. "But," said the speaker, "we have at least a little reward for we have launched a few ideas in our campaign which were formerly ignored or derided by public men, which have been finally adopted and accepted as some of the best reforms."

He proceeded to say that while he had no respect for political parties yet he had respect and esteem for the good and earnest men of any party.

Mr. Bourassa then dealt with only two aspects of the Nationalist movement as it affected the relation between the French and the Empire.

With regard to the first part the speaker contended that taking for granted that one-fourth of the population was French, and that it was descended from the pioneers of the country, for that very reason no one could say that the opinions of that fourth could be ignored.

He referred to the struggles of the French to preserve to England Canada at a time when the Anglo-Saxon part had seceded from the British rule. Then, said the speaker, "Do you not say as fair minded men that we have a right to express our views on these questions which affect Canada? We simply claim that we have as French-Canadians the right to take our part on the ground of equality."

The speaker proceeded to say that one of the greatest dangers to-day in Canadian political life was hypocrisy. In England any man belonging to any party can express his mind and that was one of the greatest of the many assets of British political life. But in Canada people had acquired the habit of intolerance and referred to the unfair efforts made often by opponents to get rid of their enemies.

After referring to the history of the Confederation and its conditions binding on the several provinces, Mr. Bourassa went on to show that the intolerance and bigotry as to minorities was more to be found among the Protestants than among the Catholics. He said: "I do not know of any attempt made in this province to encroach on the rights of the Protestant minority but it is not a fact that formerly in New Brunswick Catholic parents were not permitted to have their children taught according to their views? These attacks are not in conformity with our spirit and are an encroachment upon the national pact entered into and are not conducive to the development of a true national spirit."

As to the second part of his address, that of the relation of Canada with the rest of the Empire, Mr. Bourassa disclaimed positively he ever placed the question on race or religion. It

## THE BEST REMEDY

For Women—Lydia E. Pinkham's Vegetable Compound

Belleville, Ont.—"I was so weak and worn out from a female weakness that I concluded to try Lydia E. Pinkham's Vegetable Compound. I took several bottles of it, and I gained strength so rapidly that it seemed to make a new woman of me. I can do as good a day's work as I ever did. I sincerely bless the day that I made up my mind to take your medicine for female weakness, and I am exceedingly grateful to you for your kind letters, as I certainly profited by them. I give you permission to publish this any time you wish."—Mrs. ALBERT WICKETT, Belleville, Ontario, Canada.

Women everywhere should remember that there is no other remedy known to medicine that will cure female weakness and so successfully carry women through the change of life as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—Inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

was not fair that if a few young men in heated moments had said certain things that the whole movement should be judged by that. It must be judged by the settled opinions of those who directed the movement.

Going directly into the question of Imperialism, the speaker said that if by the term was meant to keep Canada part of the British Empire and to make all sacrifices possible short of national suicide then he was as strong an Imperialist as anybody. But if it was meant to change the basis of organization and to step aside from the rebuilding of national life then he would not agree with it.

Mr. Bourassa analyzed the basis of the Constitution governing the relations between England and her colonies, pointing out that the Nationalists believed that the British parliament had the right to change those relations without the people of Canada being consulted.

On the question of Imperial defence the speaker quoted Sir Charles Tupper as saying that Canada was not a burden to England as far as taxation was concerned, and that the loss of Canada would, in reality, mean more taxation as the ships of Britain would not have a harbor to coal in. He said that on no occasion had any Nationalist uttered words half so strong as Sir Charles Tupper.

Concluding his address, Mr. Bourassa claimed that one of the greatest dangers to Canada was that the whole people should speak the same language, because if Imperialists believed that by so doing they would make the link stronger between Canada and Great Britain, then he believed that it made a stronger link with the American republic. One of the greatest barriers to Canada ever becoming a part of America was the French language in the province of Quebec, spoken by a fourth of the population.

The speaker said that in talking with Imperialists like Lord Milner he could never find from them what would be the arrangements on which Imperialism would be based between the different parts of the Empire. In an Imperial council, and concluded with an appeal to all to carefully study all questions leading to the well-being of the Dominion.

### ALLEGED FRAUDS.

New York, Nov. 9.—J. F. B. Atkin, a lawyer connected with the Columbian Sterling Publishing Company, publishers of the Hampton-Columbian magazine, was arrested yesterday charged with using the mails to defraud in selling stock of the publishing company. He was held on \$15,000 bail. Assistant Attorney Brown said the alleged swindle would aggregate about \$2,000,000.

### Are You Aware?

that I have for sale, two cosy, four-roomed—Bungalows, near Jubilee Hospital, modern, with hall, bathroom, pantry, basement, etc.—now building—and nearly completed. If spoken for quickly can be finished off to suit purchaser.

## AMERICA'S PIONEER YELLOW JOURNALIST

Remarkable Career of Pulitzer of New York World—Attempted Reforms

One of the most remarkable figures in American journalism—probably the most remarkable when his affliction of blindness is taken into regard—has passed away.

Joseph Pulitzer, the editor and proprietor of the New York World, who died from heart failure, after less than two days' illness on his yacht in Charleston harbor, was a man of wide culture, and extraordinary genius for newspaper development. He leaves behind him as his monument the great paper with which his name has been identified since 1883. He was a Hungarian by birth, born in Budapest on April 10, 1847, and went to the United States in 1864.

The republic spelled opportunity to the youth passionately devoted to freedom and liberty. America, a land that to him in boyhood in Hungary. When 17 found him a well grown lad over six feet tall, broad shouldered and rugged, he persuaded his mother to let him answer the call he heard across the seas. Arriving at Hamburg he was robbed, but that did not even halt him. He worked his way across the Atlantic, and on his arrival at once enlisted in the war for the Union, joining on September 30, 1864, the Lincoln Cavalry (the First New York Cavalry). He served under Sheridan's command in the Shenandoah valley until mustered out at the end of the war, after riding in the ranks at the famous review in Washington.

Opportunity that had loomed so large seemed a vanished thing when the young soldier with his discharge papers found himself but one of the hundreds of thousands seeking it, searching for any kind of work. "I spoke little but German then," he has said, "and I realized that I was not likely to learn much English among the Germans I knew. So I started for a real American city in the interior, one away from the sea. I chose St. Louis because I had heard most about it, and was amazed when I got there to find it even more German than I had found New York."

Joseph Pulitzer first sought his opportunity in the law. As he worked here and there for his daily bread he sought out a library and spent his nights studying law. Keenly interested in public affairs, attracted by politics, and having a readiness of oratory, he soon made a reputation in St. Louis. He was admitted to the bar in 1867 and looked forward to a career there. Fate disposed otherwise. The great German paper of the Middle West was the Westlicher Post, owned by Dr. Emil Praetorius and edited by Carl Schultz.

It needed a reporter, and the managing editor, who played a good game of chess also, thought of his old antagonist, Joseph Pulitzer. He knew his ability, was familiar with his energy, enthusiasm and zeal, and offered him the job.

"Why I can't write," was the answer of the young man, amazed and laughing.

The editor said he knew better and persisted. Joseph Pulitzer gave up his budding law practice and in 1868 joined the staff of the Westlicher Post. He was then 21 years old.

Old newspaper men in St. Louis still tell stories of the new reporter's zeal, energy and success in his work. He would dash out on a fire alarm regardless of coat or hat; he worked all hours, pushed everywhere. Soon he was made city editor and the work went on with greater force. The new executive drove every one, himself most of all. Politics attracted him more than ever. He was elected a member of the Missouri state legislature in 1869, and was a member of the State Constitutional Convention in 1874. He became of more value to the Westlicher Post, was made its managing editor and later part proprietor.

Mr. Pulitzer became a hearty supporter of the Liberal Republican movement that culminated in the Cincinnati convention in 1872, which nominated Horace Greeley for president. He went there as a delegate from Missouri and was made one of the secretaries. In the campaign that followed he was in great demand throughout Ohio, and the Middle West to follow and answer Carl Schultz, and nightly addressed large audiences of Germans in fiery speeches on the issue of the campaign. The second administration of Grant put him squarely in the Democratic party. He fought with all his might for the election of Tilden in 1876 and taxed his physical resources. He was elected to the forty-ninth congress in New York for the term of 1885-1887, but resigned after a few months' service; was a delegate to the Cincinnati Liberal Republican convention which nominated Horace Greeley for president; after that a Democrat; advocated the national gold standard Democratic ticket in 1896; in 1898 endowed with \$1,000,000 the Columbia College of Journalism, with an agreement to give an additional \$1,000,000 when the school should be in successful operation; in 1887, his health was broken by over-work and he has since been an invalid, totally blind.

By 1876 the St. Louis dispatch had fallen into evil days, its circulation had dwindled, its plant little better than junk and the sheriff was in charge. At the sheriff's sale Mr. Pulitzer bought the paper for \$2,800, and soon made a solid success of it. The New York World under the editorship of William H. Herbert, with a circulation of 26,000, had then a place in the community fixed by the fact that it was owned by Jay Gould. Everything that it printed was under suspicion of having been colored or influenced by the rich manipulator of Wall Street. It was prosperous; it was for sale. Mr. Pulitzer in May, 1882, bought it of Jay Gould personally. One block of 25 shares was held elsewhere. The World grew rapidly under Mr. Pulitzer's hand; the quarters on Park Row opposite the post office were extended and enlarged only to be hopelessly outgrown. Mr. Pulitzer, on April 10, 1888, bought the French hotel property at the corner of Park Row and Frankfort street, and the following year began to erect the Pulitzer building, where the World is now published. He was the first to use the steel skeleton construction in a large business building. In the years that followed his blindness he was as active as ever in the direction of the great newspaper. The success of the World is the success of yellow journalism, of which Mr. Pulitzer was the first notable evangelist. Here are some of the reforms he set himself to accomplish, by the instrumentality of the World, whose policy he directed as a Democratic organ: The taxation of luxuries. The taxation of inheritances. The taxation of monopolies. The taxation of large incomes. The taxation of the privileges of corporations. A tariff for revenue. Reform of civil service. Punishment of corrupt office holders. Punishment of vote buying. Punishment of employers who coerce their employees in elections.

## Dr. Morse's Indian Root Pills

exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of Constipation, but they help greatly in breaking up a Cold or Grippe by clearing out the system and purifying the blood. In the same way they relieve or cure Biliousness, Indigestion, Sick Headaches, Rheumatism and other common ailments. In the fullest sense the words Dr. Morse's Indian Root Pills are

A Household Remedy

## WOUNDED WHILE

### TRYING TO ESCAPE

Suspect, Shot at Ashcroft, Dies in Hospital—Verdict of Coroner's Jury

Ashcroft, Nov. 8.—J. Millar was shown by a constable while attempting to escape and later died from his wound. Information was laid with Chief Constable Burr and sworn before the magistrate regarding the theft of a pair of shoes. Constables Palmer of the 150-Mile House and Smith of Spence's Bridge were sent out to apprehend two men suspected of having committed the theft. The men were found down town with their blankets and the stolen shoes wrapped up in a parcel. The men were arrested and the procession started for the lockup.

While running on the back lane, the constables stopped to arrest a drunk and one of the men, J. Millar, made a dash away. Constable Smith called to him three times to stop, but the man ran right on running and the constable, to give him a scare, pointed his revolver at the man's feet and fired. At the same time Millar tripped over a plank and received the bullet in the lower portion of the back.

The man was taken to the doctor, who dressed the wound, and was hurried to Kamloops by a freight car, to be taken to the hospital where the bullet might be extracted. Millar died on Thursday. Rex, the second man, is still in the lockup awaiting trial.

Kamloops, Nov. 8.—The inquest into the death of Millar was held in the court house. The witnesses examined were Constable Burr, Constable Smith and Dr. Burris.

The facts as brought out by the constables' testimony are that when Constable Smith and another officer had two prisoners in charge besides Millar, whom they had just arrested after finding stolen property in his possession, Constable Smith, in pursuit, calling upon Millar three times to halt, to which he refused to obey, "Nothing doing," and kept on running. The constable then fired at his legs, but tripped as he did so and the bullet lodged in Millar's back. The jury found that deceased came to his death by a bullet wound inflicted by Constable Smith in the performance of his duty when trying to prevent the escape of a prisoner from lawful custody.

## FIRE DESTROYS

### STORES AT GOLDEN

Flames Spread Rapidly—Loss Amounts to Several Thousand Dollars

Golden, Nov. 8.—Several thousand dollars damage was wrought by a fire which visited the business section of Golden. The outbreak originated in the gent's furnishings store of Alex. Mathieson and spread rapidly, the entire building and those adjacent to it being enveloped in flames in a very short time. Almost every resident of Golden turned out to assist in fighting the conflagration. A bucket brigade was put into service immediately which did good work, included in which was the saving of the Kootenay hotel, which, at several stages, was threatened with destruction. Willing workers, the proprietors of adjoining buildings in removing their stock out into the street and in this manner much was saved. When the fire engine was eventually put into commission it did effective work.

The buildings occupied by Alex. Mathieson, J. A. Buckham, the Golden barber shop, Columbia barber shop, and Mrs. Tom were gutted in quick time, and only the effective work of the volunteers, assisted by a C. P. R. locomotive, rendered it possible to confine the destruction to these buildings. Alex. Mathieson and J. A. Buckham are probably the heaviest losers, although the owners and occupants of the other buildings suffered heavy losses.

### TWO WOMEN PERISH

Loss Their Lives in a Fire at Nelson.

Nelson, Nov. 7.—Fire that broke out at the home of Agnes West to-day resulted in the death of two women, Jessie LaShie and Pauline Taylor, and serious injury to two others. The blaze began in the kitchen and in a few minutes had completely gutted the house. Most of the occupants were asleep at the time and those who escaped were forced to make their exit from windows, some springing on to the roof of the adjoining bungalow and others dropping to the sidewalk at the risk of their lives. The neighbors were first aroused by the piercing screams of terror.

The firemen arrived at the scene a few moments after the alarm had been sent in and put two streams into the building, but the conflagration had already made headway and took an hour before they could bring it under control. In the excitement it was believed that all the occupants had escaped, and not until the fire was extinguished was it known that two had perished. One of the victims was found on the floor with her head toward the door, evidently being overcome by the smoke while trying to get out. The other victim had tried to escape by a window. She was sitting with her head on the sill, with a wire screen showed that she had attempted to force it out when suffocated by the smoke. There is no insurance. An inquest is being held.

## City of Victoria

A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

### Municipal Notice

That the Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To grade, drain and pave with an asphaltic pavement Russell Street from Victoria Harbor to Esquimalt Road, and construct curbs and gutters on both sides of said street; also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

2. To grade, drain and pave with an asphaltic pavement Russell Street from Esquimalt Road to its northerly limit, and construct curbs and gutters on both sides of said street; also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

3. To grade, drain and pave with an asphaltic pavement Griffiths Street, Victoria West, and construct curbs and gutters on both sides of said street; also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

4. To grade, drain and pave with an asphaltic pavement Garbally Road, from the George Road to the Selkirk Waters, also construct curbs and gutters on both sides of said Road; also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

5. To grade, drain and rock surface Wilson Street from Catherine Street to Donelson Road, and construct permanent sidewalks of concrete, with curbs, gutters and boulevards on both sides of said street; also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

6. To construct a permanent sidewalk of concrete on the south side of Victoria Street, between Fernwood Road and Stannard Avenue.

7. To grade, drain and pave with an asphaltic pavement, Empress Avenue, between Quadra Street and Cook Street, and construct permanent sidewalks of concrete, with curbs and gutters, and construct lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

8. To grade, drain and pave with an asphaltic pavement Haultain Street, from Fernwood Road easterly to its intersection with Third Street, and to construct permanent sidewalks on both sides of said street, with curbs and gutters, also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

9. To light Johnson Street, from Government Street to Douglas Street, with electric light posts bearing cluster lights, and to construct the necessary conduits for carrying wires underground;

10. To grade, drain and pave with an asphaltic pavement, Stannard Avenue, between Richardson Street and Fairfield Road, and construct permanent sidewalks of concrete on both sides of said Avenue, with curbs and gutters, also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

11. To grade, drain and pave with an asphaltic pavement, Arnold Avenue, from Richardson Street to Fairfield Road, and construct permanent sidewalks of concrete on both sides of said Avenue, with curbs and gutters, also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

12. To grade, drain and pave with an asphaltic pavement, Chester Avenue, from Fairfield Road to Oscar Street, and construct curbs, gutters and boulevards on both sides of said Avenue, also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

13. To grade, drain and pave with an asphaltic pavement, Boyd Street, from Niagara Street to Dallas Road, and construct curbs and gutters on both sides of said street, also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

14. To grade, drain and pave with an asphaltic pavement, Sylvia Street, from Esquimalt Road to its northerly limit, and construct permanent sidewalks, curbs, and gutters on both sides of said street, also lateral connections to sewers, surface drains and water mains; and remove poles, if necessary;

And that all of said works shall be carried out in accordance with the provisions of the Local Improvement General By-law and amendments thereto, and the City Engineer and City Assessor having reported to the Council in accordance with the provisions of Section 1 of this by-law upon each and every of said works of local improvement, giving statements showing the

amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said work, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council:

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas Street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement and representing at least one-half of the value of the said land or real property is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf regulate and determine.

WELLINGTON J. DOWLER,  
C. M. C.

City Clerk's Office, Nov. 6th, 1911.

**City of Victoria, B. C.**

**Water Supply**

Plans and Specifications are now in preparation for the additional Water Supply for the City of Victoria, B. C.

The Works will consist of Dams, Storage Reservoirs, Conduits and Pressure Pipes necessary for delivering daily about 16 million imperial gallons of water.

Water will be taken from Sooke Lake, which lies at an elevation of 850 feet above sea level, and is situated in the mountains about 30 miles west of the City.

The work is in charge of Mr. Wynn Meredith, Consulting Engineer for the City, who states that Plans and Specifications will be completed within a few days, when a formal call for Tenders on the whole of the work will be made.

JAS. L. RAYMUR,  
Water Commissioner,  
City Hall, Victoria, B. C., 6th Nov., 1911.

### A BY-LAW

A By-law to raise \$45,000.00 additional for the protection of the foreshore of Dallas Road.

WHEREAS by a By-law, No. 731, entitled the Dallas Road Foreshore By-law, 1910, which received the assent of the electors on the 29th day of August, 1910, Debentures were ordered to be issued not exceeding in the whole the sum of \$25,000 for the purpose of completing a permanent protection against the action of the sea on the foreshore beneath Dallas Road commencing at a point approximately 100 feet easterly of where Montreal Street crosses the foreshore, and extending thence easterly along the shore approximately 150 feet to the Westerly limit of the foreshore, and the said By-law, 1910, was estimated the work would cost \$100,000.00, and it was stated that the Province of British Columbia had agreed to provide \$25,000.00 in all;

AND WHEREAS, the whole rateable land and improvements or real property of the said Corporation of the City of Victoria according to the last revised assessment roll for the year 1911 was \$2,091,750.00, the total amount required to be raised annually by rate for the purpose of the debt which will be created hereunder and the interest thereon, and for creating an annual sinking fund for the payment off of the said debt within fifty years, according to law, is \$2,091.75;

AND WHEREAS, this By-law may not be altered or repealed except with the consent of the Lieutenant-Governor-in-Council;

THEREFORE, the Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the credit of the said Corporation by way of Debentures hereinafter mentioned, from any person or persons, or body or bodies corporate, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of \$45,000.00, currency or sterling money, at the rate of 4.86 2-3 dollars to the one pound sterling, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation for the purposes

and with the object hereinafter recited. It shall be lawful for the Mayor to cause any number of Debentures to be made, executed and issued for such sum as may be required, not exceeding, however, the sum of \$45,000.00, either in currency or sterling money (at the rate aforesaid) each of the said Debentures being of the amount of \$1,000.00 and all such Debentures shall be sealed with the seal of the Corporation and signed by the Mayor thereof.

It shall be lawful for the said Mayor in his discretion to alter the rate of interest on the said Debentures to be made, executed and issued for an amount of 2 1/2 per cent. and one if necessary for a less sum in sterling money to complete the authorized issue.

The said Debentures shall bear the date of the day after the final passing of this By-law, and shall be made payable in fifty years from said date, at such place either in the Dominion of Canada, Great Britain, or the United States of America, as may be designated therein, and shall have attached to them coupons for the payment of interest, and the signatures of the interest coupons may be either written, stamped, printed, lithographed or engraved.

4. The said Debentures shall bear interest at the rate of four per cent. per annum from the date thereof, which interest shall be payable half-yearly on the 21st day of January and the 21st day of July, at such place, either in the Dominion of Canada, Great Britain, or the United States of America, as may be expressed in the Debenture and Coupon.

5. It shall be lawful for the said Mayor to cause the said Debentures and Interest Coupons, either or both, to be made payable at such place, either in the Dominion of Canada, Great Britain, or the United States of America, as may be expressed in the Debenture and Coupon, or any discount or commission, or other charges incidental to the sale of the said Debentures.

It deemed advisable by the Mayor, there shall, in the said Debentures, be reserved to the Corporation the right upon any future consolidation of the Debentures of the City to substitute Debentures of such consolidation secured upon the credit of the City generally, such consolidation Debentures shall contain the like covenants, conditions and restrictions as are contained in the Debentures issued in pursuance of this By-law, and in each Debenture issued hereunder a clause shall be inserted to the effect that the said Debentures shall be substituted for the Debentures of the City generally.

6. For the purpose of raising annually the required sum for the payment of the interest on the said Debentures during their currency, there shall be raised annually the sum of \$1,800.50, and for the purpose of creating the sinking fund aforesaid for the payment of the said debt at maturity there shall be raised annually the sum of \$24,750.00, and both the said sums shall be raised annually by rate sufficient therefor on all rateable land and improvements or real property in the City of Victoria during the continuance of the said Debentures or any of them.

7. This By-law shall before the final passing thereof, receive the assent of the electors of the said Corporation in the manner provided for in the Municipal Charter Act, and shall take effect on this day after the final passing thereof.

8. This By-law may be cited as the "Dallas Road Foreshore Supplementary By-law, 1911."

Passed the Municipal Council the 3rd day of November, 1911.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Public Market Building, Cormorant Street, on Friday, the 17th day of November, 1911, that the poll will be kept open between the hours of 9 a. m. and 5 p. m., and that W. W. Northcott has been appointed Returning Officer of the said vote.

WELLINGTON J. DOWLER,  
C. M. C.

Victoria, B. C., November 4th, 1911.

### MUNICIPAL VOTERS' LIST, 1912

#### Notice to Executors

Since the executor or executrix of an estate, who has probate of a will, the will and probate thereof being registered in the Land Registry Office, is deemed to be the legal owner of the property of the estate, he or she is entitled to be put on the Voters' List as the owner of such property, unless it has been transferred by him or her to the lawful heir or heirs. Should such executor or executrix desire to qualify as voters, he or she may apply to the City Assessor during the month of November next, to have his or her name placed on the Voters' List, providing it is not already on the list.

**Department of the Naval Service**

A competitive examination will be held  
on November 14th at the examination  
center of the Civil Service Commission  
for the entry of Naval Cadets for the  
Naval Service of Canada. There will be  
25 vacancies.

Candidates must be between the ages of  
14 and 18 years on the 1st of January  
next; must be British subjects and must  
have resided in Canada for two years im-  
mediately preceding the examination; short  
periods of absence abroad for purpose of  
education to be considered as residence.

Successful candidates will join the Royal  
Naval College at Halifax in January next;  
the course at the College is two years and  
the cost to parents, including board, lodg-  
ing, uniform and all expenses, is approxi-  
mately \$400 for the first year and \$250 for  
the second year.

On passing out of College, Cadets will  
be rated Midshipmen and will receive pay  
at the rate of \$2 per diem.

Parents of intending candidates should  
make application to the Secretary, Depart-  
ment of Naval Service, Ottawa, before 15th  
October next.

Further information can be obtained on  
application to the Secretary, Department  
of Naval Service, Ottawa.

Unauthorized publication of this notice  
will be treated as an offence.

G. J. DESBARATS,  
Deputy Minister of the Naval Service,  
Ottawa, Aug. 1st, 1911.

IN THE ESTATE OF DR. FRANCIS  
WALTER HALL, LATE OF VICTORIA,  
BRITISH COLUMBIA.

NOTICE IS HEREBY GIVEN that all  
creditors and other persons having any  
claim or demand against the estate of  
Francis Walter Hall, late of the City of  
Victoria, Physician and Surgeon, deceased,  
who died on the 27th day of October,  
1911, and whose Will with a Codicil  
thereto was proved in the Supreme Court  
of British Columbia, on the 27th day of  
October, 1911, by Henry Charles Hall, the  
Executor, and Annie Maria Johnston, the  
Executrix, are hereby notified to present  
their claims or demands duly verified by Statu-  
tory Declaration to the undersigned Soli-  
citors for the said Henry Charles Hall and  
Annie Maria Johnston, on or before the  
27th day of November, 1911, at the un-  
dermentioned address, after which date  
the said Henry Charles Hall and Annie  
Maria Johnston will proceed to distribute  
the assets of the said Francis Walter Hall,  
deceased, amongst the parties enti-  
tled thereto, having regard only to the  
claims and demands of which they shall  
then have had notice. And the said  
Henry Charles Hall and Annie Maria  
Johnston will not be liable for the assets  
of the said Francis Walter Hall, deceased,  
or any part thereof so distributed to any  
person or persons of whose claims or de-  
mands they shall not then have had no-  
tice. And all persons indebted to the  
above-named deceased, Francis Walter  
Hall, are hereby notified to pay to the  
undersigned Solicitors for the said Henry  
Charles Hall and Annie Maria Johnston,  
the amount of their indebtedness forth-  
with.

DATED at Victoria, B. C., this 27th day  
of October, 1911.

ELLIOTT, MACLEAN & SPANDLEY,  
Of the Law Chambers, Bastion Street,  
Victoria, B. C., Solicitors for the said  
Executor and Executrix, Henry Charles  
Hall and Annie Maria Johnston.

SUBMISSION OF SUBMARINES.

The U. S. submarine "Salmon" has  
established a record for deep diving,  
which exceeds anything that has been  
hitherto accomplished in our own  
navy. It will be remembered that  
during the early summer months, the  
"Octopus" attained a depth of 125  
feet. This has been exceeded by 19  
feet by the "Salmon," which has sub-  
merged to a depth of 144 feet off  
Prudence Island, and remained at  
that depth for 20 minutes.

Great souls are always loyally submi-  
sive, reverent to what is over them; only  
small mean souls are otherwise.—Curly.

**CEMENT SYNDICATE**

TO OPERATE HERE

Plant on Saanich Arm Will  
Have Capacity of 2,000  
Barrels Daily

Sales are reported of eighty acres of  
land, part of the Musgrave estate on  
Saanich Arm and acreage from Elford  
Brothers in the same locality, together  
with the Elford lime kiln plant and  
property at Mill Bay, directly opposite  
the site of the Tod Inlet cement works.  
The English syndicate which has  
made plans to establish large cement  
works on Saanich Arm.

The property secured from Elford  
Brothers and the Musgrave estate con-  
tains a mile and one half of waterfront  
which the company wants for shipping  
purposes in connection with the new  
syndicate. The plant proposed is suitable  
for the manufacture of 2,000 barrels  
per day.

The properties that change hands in  
the sale aggregate 100 acres, all of  
which is productive of lime for the  
manufacture of a grade of cement that  
will bear tests and compare with the  
best Portland cement.

The pioneer British Columbia cement  
works at Tod Inlet has been success-  
fully operated since its commencement,  
despite the fact that the company has  
had to contend with large importations  
of cement. The importations during  
last year have increased enormously,  
and a home market presents itself to  
the new syndicate that intends oper-  
ating on the opposite shore from Tod  
Inlet.

The plant for the company is now  
aboard ship and en route to Victoria  
on one of the Blue Funnel liners. Work  
has been done on the site in connection  
with the erection of buildings and  
plant, and the shore opposite Tod In-  
let will before long be a populated lo-  
cation and values enhanced more par-  
ticularly by the vicinity of the terminus  
for the B. C. Electric Saanich line, now  
being constructed.

Contracts at present let to paving  
companies and many contracts neces-  
sary for the paving in the future of  
the new unimproved streets and those that  
will come into existence with the open-  
ing up of the various subdivisions, all  
make a market for the product of the  
new company. The growth of the build-  
ing trade and the continued expansion  
of the city offers another market which  
is enlarged by demands for cement from  
the mainland cities and municipalities.

SUBMARINE SAILING RADII.

The most notable fact in the devel-  
opment of submarines is their increase  
in size and in steaming radius. This  
means that the submarine is ap-  
proaching the day when it will accom-  
pany the fleet on the high seas, and  
play a most important part in the  
general action of the future. The  
British are building two new classes  
of submarines, one of 600 tons, and  
the other of 800 to 1,000 tons dis-  
placement. Sixty-six of their latest  
submarines have a surface radius of  
2,000 miles, which is being raised to  
4,000 and 5,000 miles in what is known  
as the new "B" and "E" classes.

ARTIST'S WILL.

New York, Nov. 9.—The will of Ed-  
ward Austin Abbey, the artist, who  
died in London on August 1, was filed  
here yesterday. He left property both  
in this country and England to his  
widow, Mary Gertrude Abbey. The  
value is not mentioned, but it is said  
to exceed \$1,000,000. The will pro-  
vides that in the event of the prior  
death of his wife, the estate should go  
to the Royal Academy of Arts in Lon-  
don, the Metropolitan Museum of Art  
in New York and other art institutions.

**ACTIVE TRADING ON  
NEW YORK MARKET**

Advances in Many of Leading  
Stocks—Leaders Predict  
Higher Prices

New York, Nov. 9.—Excellent buying of  
stocks was noted this morning. The  
handling out of the Tobacco plan follow-  
ing yesterday's close proved a bullish  
factor, and advances were made from  
two to five points in many of the leading  
American Smelters and Steel common and  
preferred, which have been acting wary  
during the last few weeks, showed five  
point advances. Coppers were also very  
strong. It seems reasonable to suppose  
that this bull movement is not yet at an  
end. Leaders predict higher prices for  
the railroads and equipment stocks, not-  
ably Lehigh Valley, Erie and Southern  
Railroad, and Steel common. C. P. R.  
and Lehigh Valley look well.

NEW YORK MONEY MARKET.

New York, Nov. 9.—Money on call  
steady, 2 1/4 per cent; ruling rate, 2 1/2  
per cent; closing bid, 2 1/2 per cent; offered at  
2 1/2 per cent. Time loans easier; 60 days,  
2 1/4 per cent; 90 days, 2 1/2 per cent; 6  
months, 2 1/2 per cent. Close—Prime mer-  
cantile paper, 4 1/4 per cent. Sterling ex-  
change firm, with actual business in  
bankers' bills at 48.25 for 60 days and at  
48.75 for demand. Commercial bills,  
48.75. Bar silver, 50c. Mexican dollars,  
46c. Bonds—Governments steady; rail-  
roads strong.

NEW YORK SUGAR.

New York, Nov. 9.—Raw sugar quiet;  
Muscovado, 32c; 32, 34c; centrifugal, 36c;  
test, 35c; molasses sugar, 28c; 28, 29c;  
refined sugar easy.

SUGAR REDUCED

New York, Nov. 9.—All grades of re-  
fined sugar were reduced ten cents a  
hundred pounds to-day.

INCREASE IN WAGES

Washington, D. C., Nov. 9.—An in-  
crease in wages approximating 6 per  
cent, reduced working hours and a  
sharing of a lump sum of \$75,000 have  
been granted to the Baltimore & Ohio  
and B. & O. S. W. railway telegraph-  
ers. An agreement was reached with the  
men through mediation under the  
Erdman Act of Judge Knapp of the  
Commerce Court and labor commis-  
sioner.

AMENDMENTS TO BANKING ACT

Montreal, Nov. 9.—A meeting of the  
Canadian Bankers' Association will be  
held here to-day. It is understood  
that the committee will be named to  
confer with the new minister of  
finance, Hon. W. T. White, in con-  
nection with the proposed amendments to  
the banking act. One of the questions  
which will receive particular attention  
is that of extending the time in which  
the bank note circulation may be in-  
creased by 15 per cent. of the paid up  
capital.

GRAIN ADVANCES  
IN CHICAGO PIT

Increase of One Cent Record-  
ed for December and May  
—Receipts Still Heavy

Chicago, Nov. 9.—The action of wheat  
to-day was more firm. After a ten-cent  
decline extending for three weeks, the  
market showed a disposition to rally.  
Opening up round last night's close prices  
declined slightly, and the close recorded a  
net gain of one cent for December and  
May.

Sentiment still continues bearish and  
speculation heavy. The improvement seemed  
largely due to absence of pressure and  
covering by shorts. Leaders are inclined  
to go slow on the selling side.  
Corn and oats showed fractional gains  
on the close.

GRAIN CLEARANCES

Wheat and flour equal 87,000  
Corn 11,000  
Oats 1,000

COMBINATION OF MILLS

Portland, Ore., Nov. 9.—Lumber-  
men representing many of the largest  
tidewater mills in Oregon and Wash-  
ington conferred here yesterday with  
Henry J. Pierce, of Spokane, relative  
to the proposed combination of cargo  
mills. It was announced that the pro-  
posed combination had made such pro-  
gress as to insure success of the con-  
solidation scheme. Negotiations were  
started for the acquisition of suffi-  
cient timber to meet the demands of  
the project.

The next step of the organizers will  
be to submit the question of the legal-  
ization of the combination to the attorney-  
general of the United States. In re-  
sponse to a question of whether the  
project did not violate the Sherman  
anti-trust law, Mr. Pierce declared  
that the proposed combination com-  
templated only the plan of placing the  
lumber industry on a prosperous basis.  
He quoted from president Taft's Chi-  
cago speech "that there is a vast dif-  
ference between uniting plants to  
regulate the cost of production and  
unity to suppress competition, to re-  
strain trade and to control prices."

SHIPPING GRAIN TO EUROPE

Washington, D. C., Nov. 9.—Why  
Pacific coast millers ship their surplus  
grain to Europe rather than to the  
market centres of the Mississippi val-  
ley is discussed in a bulletin just is-  
sued by the department of agriculture.  
Freight charges for the 18,000-mile  
voyage from Spokane or Walla Walla  
to Liverpool, the bulletin points out,  
range from 25 to 30 cents a bushel for  
wheat, while the 2,000-mile haul from  
the same places to Chicago is 34.5  
cents a bushel. The former rates in-  
clude railroad rates to Portland or  
Puget Sound, ocean, rail and marine  
insurance. While it costs the former  
from 20 to 25 cents per ton to haul his  
wheat to the shipping point, the ocean  
haul to England by way of Cape Horn,  
is only from two to three hundredths  
of one cent per ton a mile.

**VICTORIA STOCK EXCHANGE**

Victoria, Nov. 9.—The market was a  
little firmer to-day, with little business  
done. Portland Canal was again the  
chief feature, changing hands at 4 1/2, which  
is a gain of 1 cent on yesterday's price.  
Red Cliffs are also firm, a gain of 7  
points on yesterday's figure. C. N. W.  
60 per cent, showing apparently the buyers  
having been supplied. B. C. Permanent  
Loan are in demand, no shares offering,  
and Maricopa Oil seems to find support  
at 14 to 15.

sioner.

AMENDMENTS TO BANKING ACT

Montreal, Nov.

# All Aboard For Cook Street

## Some Snaps These--Size 'Em Up

QUEEN AVENUE AND COOK STREET, corner, 120x120.....	\$6,500
EMPIRE AVENUE AND COOK STREET, corner, 43x113.....	\$2,000
BAY STREET AND COOK STREET, corner, 43x113.....	\$2,600
BAY STREET AND COOK STREET, corner, 78x103.....	\$2,650
BAY STREET AND COOK STREET, corner, 43x113.....	\$2,500
BLACKWOOD AND COOK STREET, corner, 178x178.....	\$4,000

Cook Street is a "corner"—in fact it has already "arrived."

Have you noticed recent improvements, the pavement and the boulevards? It pieces the most thickly populated districts. Each of the above propositions means a handsome profit to the buyer within a few months. Notice they are all corners—which is significant. We're offering business property at home site prices.

For North End Pick-Ups See Us.

### LOCAL NEWS

**Leaves For Fernie.**—Provincial Constable Dunwoody left last night for Fernie under instructions received from Superintendent of Provincial Police Collin Campbell yesterday. The superintendent has been at Fernie several days.

**Dirty Crossings.**—The dirty condition of the street crossings occasioned considerable general complaint voiced by a number of citizens to the Times today. The mud and slush which accumulated at these points could easily be removed by a few energetic street cleaners to the great satisfaction of pedestrians whose shoes, clothing and wounded feelings bore striking testimony to the uncleanliness of the crossings.

**Fifth Regiment Band Concert.**—By kind permission of Lt. Col. Currie and commanding officers the Fifth Regiment Band under the capable leadership of Bandmaster Rogers will give another of their enjoyable concerts next Sunday evening commencing at 8:15 p. m. in the Victoria theatre. The band has been fortunate in securing the services of the following artists: Miss Griffiths, soprano; R. D. Marshall, tenor; Professor Philo, last of New York, in vocal and violin solos. Admission to the concert will be free, but a collection to defray expenses will be taken up during the intermission.

### PERSONAL

Mrs. M. H. Taylor, 143 Government street, will not receive to-morrow afternoon.

Hon. W. Templeman was registered at the Hotel Washington, Seattle, on Wednesday last.

H. A. Munn and Mrs. Munn spent a few days in Seattle this week, guests at the Hotel Savoy.

Robt. Hutchison, of the Hutchison Bros. machineists, was a passenger to Seattle on Tuesday. He took passage on the Governor at Seattle for San Francisco, on business and pleasure bent.

### LATONIA STAKES

Cincinnati, O., Nov. 9.—The weights of the Latonia stakes at two miles for horses of all ages were announced today. The race will be run to-morrow and will be the crowning event of the fall meeting of the Latonia Jockey Club.

### ROLLER LOSER

Gloversville, N. Y., Nov. 9.—Charles Kaiser, a local wrestler, defeated Dr. Roller of Seattle, in a handicap match here last night. Roller agreed to throw Kaiser twice in an hour, but secured but one fall and that after 47 minutes.

### FLIGHT DELAYED

San Diego, Cal., Nov. 9.—Owing to the failure of workers to remove completely the shed that had housed the big Tolliver airship San Diego, the flight scheduled for to-day was postponed until to-morrow. With weather conditions favorable, an attempt will be made to fly to Los Angeles, and return.

### YOUNG WOMAN DISAPPEARS

Chicago, Nov. 9.—Search for Miss Hazel White, of Janesville, Wis., who disappeared from the Y. W. C. A. home a month ago, is being made by the police and friends of the young woman. Robert J. Taylor, a junior of the Kansas State Agricultural College, who says he is engaged to Miss White, arrived in Chicago yesterday to spur the police along in their efforts to find her.

## ACREAGE

Sanich, 15 Acres: \$1500 cash, balance arranged. Price \$5,000

The property is half a mile from the V. & S. Railway Station, Keating, and about the same distance from the proposed Electric Railway. About 2-3 of this is cleared ready for the plough.

**T. REDDING**

Phones 2266 and L1293.

## DOMESTIC SCIENCE IN PUBLIC SCHOOLS

Montreal, Graduate Assumes Control of Department—System Introduced

Domestic science is beginning to take its proper place in the educational curriculum of the city schools, and the results to date are regarded by those in a position to express an opinion as most satisfactory. For the past few years domestic science has figured in the Central school, but within recent times the inadequacy of school and the growing demand for such teaching have been so palpable that the board has taken the matter up, with the result that two more branches of the domestic science culture will be established in the city, one at the George Jay school (which, as a matter of fact, was inaugurated last week), and the other at Victoria West, which is expected to be opened in a very short time.

At the present time the officials who have control of the department are engaged in drawing up a curriculum which is expected to be applied to all the three schools, a proceeding which is in accord with the general system, and which will result in a uniform standard of study and examination. Miss A. B. Juniper, of the Macdonald College, Montreal, and the Agricultural College, Winnipeg, is in control of the system, and it will be her ideas and experience that will form the basis of the school schedule in this school curriculum. In addition to being head of the whole department, she will personally conduct the classes in the Victoria West school. Two other fully qualified domestic science teachers will have charge of the George Jay and Central school departments. Miss G. L. Preston will conduct the classes in the George Jay school and Miss M. M. Brown is now conducting the Central classes.

In discussing the advantages of domestic science being taught in the schools with a Times representative this morning, Miss Juniper evinced the greatest enthusiasm for the work, and claimed for it as high a place in the general school curriculum as any other subject taught to girls. With the staff already mentioned, and the equipment necessary to the practical side of the work fully provided for, she looks confidently ahead for the very best results.

As already stated she is engaged at the present time in arranging a uniform syllabus, and when this is completed it is anticipated that, after its approval and adoption by the board, it will be introduced into all three schools without delay.

## OBITUARY RECORD

The death of Mrs. Martha Mary Kurtz occurred yesterday at the St. Joseph hospital. Mrs. Kurtz was the widow of the late Mr. David Kurtz, and leaves several sons to mourn her loss. She was a native of England, where she was born in the year 1851. The funeral will take place on Saturday afternoon from the residence of her brother, Mr. Charles E. Redfern, 643 St. John street, and later from the St. James church, where Rev. Sweet will conduct the services.

## PROVINCIAL UNIVERSITY

Montreal Architects Will Probably Submit Design For Proposed Buildings.

Vancouver, Nov. 9.—David R. Brown, of the well-known Montreal architectural firm of Messrs. Brown and Wallace, is in Seattle. It is not unlikely that the firm will submit a design for the proposed buildings of the University of British Columbia at Point Grey. Mr. Brown devoted yesterday to a detailed examination of the site, with which he was favorably impressed. He had an interview to-day with Hon. Dr. Young, minister of education, who is in town attending the school trustees convention.

Mr. Brown's firm was successful in having accepted its design of the University of Saskatchewan at Saskatoon. The buildings now under construction there for purely educational purposes will cost \$1,000,000.

## OPPOSES EARLY CLOSING

Montreal, Nov. 9.—At yesterday's meeting the chamber of commerce special committee took strong action against the proposed municipal legislation to close the retail stores three evenings a week at 7 o'clock instead of only on Wednesdays and Thursdays as at present.

## RETURNED UNOPPOSED

Ottawa, Nov. 8.—Hon. Frank Cochrane, minister of railways, was elected by acclamation in Nipissing yesterday.

## MONEY NEEDED TO PAY FOR A SITE

**MR. BORDEN MUST OBTAIN THE VOTES**

Veitch Farm is, However, Property of Dominion to All Intents

An attempt is being made in the local organ of the Borden government to throw doubt on the fact that the late government had selected a site for an experimental farm on this island, notwithstanding that there is a site which is now the property of the Dominion in all but the necessary legal formalities which attend the transfer of the property, including the payment of the cash consideration for which the government acquires what is considered to be an unexpected site for the purpose.

As was announced in the Times on July 25 the piece of land chosen is the Veitch farm, on the main Sanich road between Sanich and Sidney. Acting on the reports made to the then minister of agriculture by Duncan Anderson, the expert sent out here to look for a site, Hon. Mr. Templeman took an option on the property from the owners, the B. C. Electric Railway Company, on behalf of the Dominion government.

J. H. Grisdale, director of experimental farms, while in the west last summer, visited this city and with Senator Riley he drove out to the Veitch farm and went carefully over it. He was thoroughly satisfied with it and later on stated to a Times reporter that a better selection could not have been made. The option was thereupon closed and, as the Times announced on the date mentioned, "the Dominion government is now the possessor, short of legal formalities, of one of the finest pieces of farming land on Vancouver Island." The purchase is, of course, the payment of the price agreed upon and the signing of the deeds. It is matter of history now that the late government was unable to secure supply owing to the tactics of the Conservatives and therefore was not in a position to pay for the property to the B. C. Electric. It will be for the Borden Government to place a sum in its estimates at the coming session to make the payment and thus be prepared to get the farm in order and carrying out the plans of their predecessors, plans which have all along been the central approval of the people of this island especially of the agricultural and fruit-growing community.

## MANCHUS WILL NOT DEFEND CAPITAL

Pekin, Nov. 9.—The entire situation in the Yangtze delta is farcical and anarchical. The great danger is that the border of hungry paupers and constituting irresponsible commune. There is every reason to believe that the Manchus at Nanking are simply holding out for purchase money. It is almost certain that foreign interference at this stage would be disastrous to foreign interests in the interior.

Consular reports received at the Imperial capital agree that the rebel spirit is in control throughout the empire, with the exception of Manchuria.

The acting premier said to-day that the Manchus did not intend, if besieged, to defend Peking. Chinese officials believe that the Manchus intend to guard against surprise until the revolutionists make a serious demonstration outside the court, and then will begin negotiations giving up, for all but their lives and accepting such provision for the future as can be secured.

All Quiet at Tien Tsin.

Tien Tsin, Nov. 9.—Proclamations posted to-day announcing that Tien Tsin would be turned over to the revolutionists at noon had not been carried into effect at 3 o'clock. At that hour all was quiet.

General Chang Shao-Tsen, commander of the Manchus troops, expected at any moment. According to consular reports the general is marching to Tien Tsin at the head of the Twentieth Army Division.

## MISTAKEN IDENTITY

Seattle, Wash., Nov. 9.—Lord Sholto Douglas, in Seattle, perfectly well. He read in last night's papers that the body of a New York suicide had been identified as his and decided to contradict the statement. Lord Sholto has been conducting a small cigar business in Seattle under his own name, but seeking to avoid notoriety.

Lord Sholto Douglas said to an Associated Press reporter to-day: "I have not the slightest idea who the New York suicide is, but undoubtedly he is one of the numerous men who have impersonated me and have caused me endless worry. As two persons positively identified Maurice Stuart as Lord Sholto Douglas, he must have used my name at some time. At various times during the past fourteen years I have met people who told me they had run across men who were using my name and title. Once I was arrested in Portland, Maine, for a crime committed by one of my impersonators, and was held in jail four days before I could prove my identity."

Lord Sholto, who was in great distress over the New York incident, and who hoped that his mother in England had not read of it, vowed that he would close his little cigar and grocery store at once and would be in Chicago within ten days.

As the world's largest toy market, New York's annual volume of goods in this product at wholesale prices is about \$75,000,000.

## KUMERIC ARRIVES

Reached Port From Orient This Afternoon.

The steamship Kumeric reached port from the Orient this afternoon after a passage of seventeen days, which proved uneventful until yesterday when she encountered heavy westerly gales and snow off the coast. She had five saloon passengers, E. O. Baker and L. F. Lindsay of Portland, who crossed with a load of cattle, making the round trip; T. Youngson of Shanghai, H. E. Pritchard of Hongkong, and Mrs. F. J. Benney of Manila. She had twenty-three Chinese for this port and is discharging fifty tons of freight.

## DROPS DEAD IN HOSPITAL

Toronto, Nov. 9.—Mrs. William Bains called at the Western hospital to visit her son who recently had both legs cut off by a train. Just as she reached the bedside the woman dropped dead.

## DIED

KURTZ—At St. Joseph's hospital, on the 8th inst. Martha Mary Sarah Kurtz, widow of the late David Kurtz, aged 61 years, and a native of England. The funeral will take place on Saturday, Nov. 11th, at 2 p. m., from the residence of her brother, Mr. Charles E. Redfern, 643 St. John street, and 15 minutes later at St. James' church.

**GRAPHIC STORY OF OUTBREAK****THE REVOLUTIONISTS SPRANG SURPRISE**

Authorities Apparently Wholly Ignorant of Situation—Pillage and Fire

An interesting and rather graphic description of the outbreak of the revolution in China is contained in Oriental papers which have recently reached here. This account, translated from Chinese, is as follows:

In the night of the 9th October a list of the revolutionaries was seized, in which the viceroys at Wuchang, Jul Cheng, found many names of military men of the Hupai army, and the viceroys were quite surprised at the fact.

In the morning of the 10th he sent a telegram to Peking asking for the dispatch of the two regiments of the army from the north to be stationed in Hupai to prevent a revolution, but it requires three days to get the two regiments of the northern army to Wuchang. Jul Cheng was afraid of a rising that night, and he sent for a battalion of the 30th Infantry regiment, being Manchus of Chinchow, and arrested the military men in the 32nd battalion who were enlisted in the revolutionists. Then those who were enlisted as the revolutionists began to sell, and the revolutionists incited them, and thus at 11 p. m. of the 10th, the 29th and 30th regiment of infantry (most of them had been sent to other places and there remained only three battalions), two regiments of artillery and cavalry (five battalions altogether) and engineer corps rose at the same time. They threatened to kill their commanding officers unless they would join them, and they stripped off their badges on the shoulders and placed white cloth on the left arm and fired on police, on their way shouting about "Revolution, kill Manchu officials and bannermen, but you ordinary business men and common people should close doors as it is nothing to do with you." At that time at the Tungshan gate certain Manchu troops collided with them and there were over one hundred men killed and wounded, as well as bystanders. At Chien Chia-kai three police have been

killed. Thus the police were afraid for themselves and took off their uniforms and ran away. Thus there was no police.

Of the high officials at Wuchang, Viceroy Jul Cheng and Provincial Treasurer Lien Chia are the only Manchus and the revolutionists decided to kill these two. They went to the army store and commandeered arms and ammunition and went to the yamen of the viceroy and the provincial treasurer, when the artillery and cavalry on guard, hearing the news, joined the revolutionists and fought with the other guards in the gates, and the revolted army came and set fire to the yamen and threw bombs. The new recruits guarded the family and then the family went immediately on warships. Before the fire was set to the yamen the viceroy with his military councillor, Tieh Chung, and other staffs changed their dress and fled out of the city. There was a rumor that the viceroy was in a foreign warship, or the brick factory, or in a Chinese warship, but it was quite correct that he fled out of the city. After the viceroy left the city the guards joined the revolutionists. The revolutionists searched everywhere and burnt the two gates of the viceroy's yamen and the flower gardens. The officials in the yamen and natives near by put out the fire after the revolutionists left the place. But forty to fifty native houses from Wangsukow to Tusuchen had been burnt. It is reported that before the fire took place the revolutionists told the natives to carry away their property and thus though the houses were burnt these houses were quite empty. The rebels never touched the properties or looted the natives.

Regarding the provincial treasurer's yamen there were several dozen guards and they fought against the rebels, but two gates having been destroyed the rebels entered the yamen and the guards stood and defended the treasury to the last moment. The provincial treasurer ran away and hid himself in the residence of Ko Fong-shih but Ko was afraid of trouble and sent him away, and then he went to the house of Taotai Wang Sheng-kan, but this was discovered by the rebels and about two or three hundred surrounded the house. Then Lien Chia changed his dress and ran out from the back door. The rebels knew this and shouted to set fire to the house. The son of the Taotai, however, opened the door and asked them to search the house.

There being no trace of Lien Chia the rebels got angry and went away in search of Lien Chia. Young Wang was arrested and brought before the commander in chief, but the latter knew Young Wang, released him. The guards of the treasury afterwards fled, taking silver coins with them. Then bad characters entered the yamen and looted. The rebels killed the looters and guarded the treasury themselves.

Joseph Armour, a Chinaman in the survey gang of the G. T. P., was crushed to death in a cave-in while doing some measurement work in the tunnel near Moricetown on the sub-contract of Tony McHugh, says a Hazelton exchange.

The deceased was about 40 years of age and had been in the engineering department for about a year and a half. He has a brother living in New York and his mother lives in Scotland.

**DARING HOLD-UP.**

New Westminster, Nov. 8.—A daring hold-up took place at Sumas on Saturday night. The keeper of the Bodega hotel was on the point of closing up his premises when a man, masked and armed, entered, held up the proprietor and three guests, and made off with a sum of \$700 or \$800 in money, and all the jewellery which he could find on the persons of the four.

The robber held up his victim at the point of a revolver and calmly took possession of the hotel drawings for the day. The loss of the guests was chiefly confined to watches, rings and scarf pins.

**WILL CUT OFF WATER SUPPLY.**

Tucson, Ariz., Nov. 8.—That the Southern Pacific Railway Company had notified its striking employees at Gila that their supply of water, which has been furnished for many years by the company, would be cut off, was confirmed last night by Superintendent J. H. Dyer, of this city. He said he had no apologies to offer.

"The men in Gila have been working night and day against the company," said Mr. Dyer, "and they have let the water run from the hydrants, wasting much water wantonly that the company needs in its engine boilers."

A. A. Worley, of Tucson, an attorney, instructed the men at Gila yesterday to make a money tender to the company for the use of the water. It is likely that this plan will be followed, but what the outcome will be is not known, as no one could be found who would speak for the company in the matter.

moreover it is against all principles of moral and civil law that they, as British citizens, should not be allowed to enjoy their birthright. In India just at present this question of shutting out the families of Hindus is being discussed. All Empires in the past have been built up and sustained on righteousness, and as soon as they left out considerations of righteousness, justice and humanity they fell to the ground. The Hindus appeal to the good sense and humanitarian chivalry of the Christian men and women of this country, and to consider this question from a broad Imperial and Christian outlook. For has not a Hindu a pair of eyes and a heart? I presume if any of your readers were to India, he would not like that his wife and children were barred.

The Hindus sincerely hope that their appeal will not be in vain, and, last of all, I hope our friends who have been in India and who know about the value of the Sikhs to the Empire and the missionaries and preachers of the faith of the One who said: "I was a stranger and ye took me not in," will enlighten your readers on this question.

One thing the Hindus cannot understand and makes it difficult for them to appreciate the Christian religion. They send missionaries to India to convert people called heathens and to teach natural as well as spiritual morality, yet they impose upon Hindus living in this country conditions under which they would refuse to live themselves. They would invoke the strength of the British Empire to enforce their rights upon the Hindus, but at the same time they deny these rights to Hindus living here. The Hindus feel more keenly about this, because they are humiliated in the denial of privileges given to Chinese and Japanese, who are not and never can become heart-subjects of the British Crown.

An old Hebrew prophet once said to an Imperial people, "Your ways are not equal." SUNDAR SINGH.

Victoria, November 8.

A COMMON COMPLAINT.

To the Editor:—Will you, through the medium of your paper, allow me to draw the attention of our city fathers to the disgraceful condition of that portion of Johnson street between Quadra and Vancouver. It is almost impassable, has been for months and, of course, gets worse as the wet season advances. The sidewalks, both sides of the block, have been torn up since July. I am told that the street is likely to continue in this condition till the spring. Surely the city fathers should be held for the convenience and comfort of the residents.

On the north side of the block, to reach Vancouver street, one has to cross two ditches, ten or more feet deep, over a narrow plank, laid down by an obliging workman, then pick one's way over and between pieces of an old fence thrown across what is supposed to be the pathway, with a pile of clay on one side and soft garden mould on the other, and then on through sticky, slippery clay.

In an attempt to reach Quadra street one encounters more ditches, more piles of clay and sticky, slippery mud. One cannot even take to the road, as that also is all dug up. A walk up and down the 900 block of Johnson street on a rainy day will convince anyone that I have stated facts very mildly; that conditions are a great deal worse than I have described them. Something must be done and done quickly for the comfort of a patient and long-suffering people.

ONE OF THEM.

**BUILDING IN NELSON.**

Nelson, Nov. 8.—Nelson's building permits during last month reached \$11,990, making the total for the year to date, \$154,050. The month's permits show a decrease over those for October last year, when the figure was \$18,850. The falling off is explained by the fact that last year permits for several large residences were issued. For the year, to date the total of \$154,050 compares very favorably with that for the same period last year, when the total was \$108,580, showing an increase this year of \$45,500, about 41 per cent.

**KILLED IN CAVE-IN.**

Joseph Armour, a Chinaman in the survey gang of the G. T. P., was crushed to death in a cave-in while doing some measurement work in the tunnel near Moricetown on the sub-contract of Tony McHugh, says a Hazelton exchange.

The deceased was about 40 years of age and had been in the engineering department for about a year and a half. He has a brother living in New York and his mother lives in Scotland.

**DARING HOLD-UP.**

New Westminster, Nov. 8.—A daring hold-up took place at Sumas on Saturday night. The keeper of the Bodega hotel was on the point of closing up his premises when a man, masked and armed, entered, held up the proprietor and three guests, and made off with a sum of \$700 or \$800 in money, and all the jewellery which he could find on the persons of the four.

The robber held up his victim at the point of a revolver and calmly took possession of the hotel drawings for the day. The loss of the guests was chiefly confined to watches, rings and scarf pins.

**WILL CUT OFF WATER SUPPLY.**

Tucson, Ariz., Nov. 8.—That the Southern Pacific Railway Company had notified its striking employees at Gila that their supply of water, which has been furnished for many years by the company, would be cut off, was confirmed last night by Superintendent J. H. Dyer, of this city. He said he had no apologies to offer.

"The men in Gila have been working night and day against the company," said Mr. Dyer, "and they have let the water run from the hydrants, wasting much water wantonly that the company needs in its engine boilers."

A. A. Worley, of Tucson, an attorney, instructed the men at Gila yesterday to make a money tender to the company for the use of the water. It is likely that this plan will be followed, but what the outcome will be is not known, as no one could be found who would speak for the company in the matter.
